Fate Of The Nations:

Small Nations in Times of Crisis and Confrontation Yohanan Cohen, Yô??n?n Koh?n, 1989-01-01 The question is how should small states behave under pressure The analysis is of three cases Czechoslovakia in 1938 Poland from 1939 to 1945 and Finland in 1940 and 41 The author is scrupulous in not drawing too many general lessons from these cases but the imprudence of overreliance on great power protection and of ceding to justifications for surrender based on self determination are made clear **Friends of Our Forests** Henry W. Henshaw, 1917 *Global Transformations* David Held, 1999 In this book the authors set forth a new model of globalization that lays claims to supersede existing models and then use this model to assess the way the processes of globalization have operated in different historic periods in respect to political organization military globalization trade finance corporate productivity migration culture and the environment Each of these topics is covered in a chapter which contrasts the contemporary nature of globalization with that of earlier epochs In mapping the shape and political consequences of globalization the authors concentrate on six states in advanced capitalist societies SIACS the United States the United Kingdom Sweden France Germany and Japan For comparative purposes other states particularly those with developing economics are referred to and discussed where relevant The book concludes by systematically describing and assessing contemporary globalization and appraising the implications of globalization for the sovereignty and autonomy of SIACS It also confronts directly the political fatalism that surrounds much discussion of globalization with a normative agenda that elaborates the possibilities for democratizing and civilizing the unfolding global transformation The Modern City ,1917 *The National Geographic Magazine* ,1917 Indexes kept up to date with supplements The Lost Manuscript Gustav Freytag, 1887 **Proceedings of the ... Katz, 1997-03-01 Rabbi Jacob Agus 1911 1986 intellectual production spanned nearly a half century and covered an enormous historical and conceptual range from the biblical to the modern era Best known as an important Jewish scholar he also held important rabbinic teaching and public positions Although born and raised within an orthodox setting Agus was strongly influenced by American liberalism and his work displayed modernizing sympathies reservations about nationalism including some forms of Zionism and often severe criticisms of kabbalah Agus crafted a unique quite American modernizing vision that ardently sought to remain in touch with the wellsprings of the rabbinic tradition while remaining open to the intellectual and moral currents of his own time *The Essential Agus* brings together a sampling of Agus most important published and unpublished material in one easily accessible volume It will be an invaluable resource for students and researchers seeking
