## **Father Gemelli:**

Spirit Motivator Dominic J. Zenden, 2009-01-01 Zenden shares stories of his life as a spiritualist medium and also explains how he acts as a bridge to reconnect the two sides of life      **Father Ernetti's Chronovisor** Peter Krassa, 2000 Did an Italian monk out of a burning love of music invent a time machine in this century a machine that would extend his senses far back into time According to Mr Krassa Father Alfredo Pellegrino Ernetti born in 1926 and who died mysteriously in 1996 developed the apparatus over a period of 40 years Ernetti a professor of Archaic Music was obsessed with the notion of finding out what an Old Roman opera Thyestes sounded like when played with musical instruments of that period Driven by his passion he developed a theoretical basis so brilliant he was able to gather a team of distinguished scientists who would bring life to his time machine The Chronovisor      **Padre Pio** Sergio Luzzatto, 2010-11-23 The first historical appraisal of the astonishing life and times of a controversial twentieth century saint Padre Pio is one of the world's most beloved holy figures more popular in Italy than the Virgin Mary and even Jesus His tomb is the most visited Catholic shrine anywhere drawing more devotees than Lourdes His miraculous feats included the ability to fly and to be present in two places at once an apparition of Padre Pio in midair prevented Allied warplanes from dropping bombs on his hometown Most notable of all were his stigmata which provoke heated controversy to this day Were they truly God given A psychosomatic response to extreme devotion Or perhaps the self-inflicted wounds of a charlatan Now acclaimed historian Sergio Luzzatto offers a pioneering investigation of this remarkable man and his followers Neither a worshipful hagiography nor a sensationalist exposé Padre Pio is a nuanced examination of the persistence of mysticism in contemporary society and a striking analysis of the links between Catholicism and twentieth century politics Granted unprecedented access to the Vatican archives Luzzatto has also unearthed a letter from Padre Pio himself in which the monk asks for a secret delivery of carbolic acid a discovery which helps explain why two successive popes regarded Padre Pio as a fraud until pressure from Pio worshipping pilgrims forced the Vatican to change its views A profoundly original tale of wounds and wonder salvation and swindle Padre Pio explores what it really means to be a saint in our time      **Themed Itineraries and Stories at the Università Cattolica** Cecilia De Carli, Grazia Massone, 2015-06-18 The Research Centre for Education Through Art and Cultural Heritage Mediation in the territory and in museums CREA of the Università Cattolica publishes the e-book Themed Itineraries and Stories as a handy instrument to visit the topical places of the University It is available both to the university community which in a sense lives in the historical complex and to those who as external parties are invited to take part in the cultural life generated here as well as to visitors The suggested itineraries are the result of a research plan carried out by students and teachers of the Master in Education Services for Artistic Heritage Historical Museums and Visual Arts for them CREA represents a possible field of reference after the education received The e-book aims not only to bring art closer but more radically to live an experience through art thanks to a variety of relations that every work of art can create Hence the beginning of a dialogue

**Ecclesiastical Review** Herman Joseph Heuser,1940     Italian Psychology and Jewish Emigration under Fascism Patrizia Guarnieri,2016-05-03 Fascism and the racial laws of 1938 dramatically changed the scientific research and the academic community Guarnieri focuses on psychology from its promising origins to the end of the WWII Psychology was marginalized in Italy both by the neo idealistic reaction against science and fascism unlike Nazism with long lasting consequences Academics and young scholars were persecuted because they were antifascist or Jews and the story of Italian displaced scholars is still an embarrassing one The book follows scholars who emigrated to the United States such as psychologist Renata Calabresi and to Palestine such as Enzo Bonaventura Guarnieri traces their journey and the help they received from antifascist and Zionist networks and by international organizations Some succeeded some did not and very few went back

Dossena,2021-12-02 The Allied Operation Mallory Major northern Italy July 1944 aimed at the destruction of all bridges across the Po River and its tributaries and at isolating the enemy in the northern Apennine mountains the Gothic Line The Allied Air Forces could count on the ground support of the guerrillas from the Great Partisan Pocket in the Apennines south of Piacenza and were opposed by the Flak This army was led by aging German officers and NCOs leading young non German women and men in Wehrmacht service the Czech guards Regierungstruppe and the Italian Slovak Polish and former Soviet gunners the Wehrmacht had transferred its German young men to front line units Yet this improbable Flak force proved to be effective and supported by Luftwaffe aircraft outnumbered by at least 10 to 1 it faced both a hailstorm of Allied bombs and guerrilla ground attacks Women played a major role in this campaign Axis guerrillas and Allied intelligence used women to infiltrate the enemy and as auxiliaries nurses and fighters Another aspect of this battle was the Hitler Bene confrontation an intelligence guerrilla war which took place within the ranks of the Regierungstruppe     *Annals of Saint Joseph* ,1922     **A Social History of Administrative Science in Italy** Andrea Rapini,2023-01-01 This book traces the origins life and death of Administrative Science in Italy as an academic discipline between the nineteenth and twentieth centuries It does so by combining the study of ideas institutional history intellectual history and social history The Faculty of Law first introduced Administrative Science in 1875 with the aim of providing the elite with the necessary tools to distribute wealth more equally to take care of the population and thus to make the young Italian State more legitimate in the eyes of the emerging masses Law and social sciences were merged with the aim of increasing reforms including that of creating a State of Happiness for

all citizens Throughout its 70 year existence Administrative Science was deprived of its contents and scientific independence and academically overshadowed by Administrative and Public law Finally although the liberal elites discarded the reformer project of Administrative Science even before Fascism turned everything upside down most of the original traits of this knowledge were absorbed into Fascist corporate and totalitarian structures **The Pope and Mussolini** David I.

Kertzer,2014 The compelling story of Pope Pius XI s secret relations with Benito Mussolini A ground breaking work based on seven years of research in the Vatican and Fascist archives by US National Book Award finalist David Kertzer it will forever change our understanding of the Vatican s role in the rise of Fascism in Europe **The Physical Phenomena Of**

Pollard,2014 The Papacy in the Age of Totalitarianism 1914 1958 examines the most momentous years in papal history Popes Benedict XV 1914 1922 Pius XI 1922 1939 and Pius XII 1939 1958 faced the challenges of two world wars and the Cold War and threats posed by totalitarian dictatorships like Italian Fascism German National Socialism and Communism in Russia and China The wars imposed enormous strains upon the unity of Catholics and the hostility of the totalitarian regimes to Catholicism lead to the Church facing persecution and martyrdom on a scale similar to that experienced under the Roman Empire and following the French Revolution At the same time these were years of growth development and success for the papacy Benedict healed the wounds left by the modernist witch hunt of his predecessor and re established the papacy as an influence in international affairs through his peace diplomacy during the First World War Pius XI resolved the Roman Question with Italy and put papal finances on a sounder footing He also helped reconcile the Catholic Church and science by establishing the Pontifical Academy of Sciences and took the first steps to move the Church away from entrenched anti Semitism Pius XI continued his predecessor s policy of the indigenisation of the missionary churches in preparation for de colonisation Pius XII fully embraced the media and other means of publicity and with his infallible promulgation of the Assumption in 1950 he took papal absolutism and centralism to such heights that he has been called the last real pope Ironically he also prepared the way for the Second Vatican Council **Townscapes in Transition** Carmen M. **The Oxford Handbook of the History of Psychology: Global Perspectives** David B. Baker,2012 The science and practice of psychology has evolved around the world on different trajectories and timelines yet with a convergence on the recognition of the need for a human science that can confront the challenges facing the world today Few would argue that the standard narrative of the history of psychology has emphasized European and American traditions over others but in today s global culture there is a greater need in psychology for international understanding This volume describes the historical development of psychology in countries throughout the world Contributors provide narratives that examine the political and socioeconomic forces that have shaped their nations psychologies Each unique story adds another element to our understanding of the history of psychology The chapters in this volume remind us that there are unique contexts and circumstances that influence the ways in which the science and practice of psychology are assimilated into our daily lives Making these contexts and circumstances explicit through historical research and writing provides some promise of greater international insight as well as a better understanding of the human condition
