Davies, 1988 Examines the influence of racism on Christian theology since the rise of scientific racism and the creation of the Aryan myth Analyzes five images of Christ affected by racism two of which focus on antisemitism Ch 2 p 27 53 The Germanic Christ traces the influence of romantic nationalism which saw Germany as a uniquely spiritual nation and drew on German Protestant pietism in creating an antisemitic Christian mythology of the mission of the German race Surveys Christian elements in the ideas of atheistic figures such as Lagarde and Chamberlain Lutheran political theologians such as St cker paved the way for the racialization of German Protestantism in the Third Reich Ch 3 p 55 73 The Latin Christ describes similar developments in French Catholicism where racism and antisemitism were linked to the political struggle of the Church against the anticlerical republic identified with a Jewish Masonic conspiracy Thus Drumont presented the Jew as both the religious and the racial enemy of France      *Critical Responses About the Black Family in Toni Morrison's God Help the Child* Rhone Fraser, Natalie King-Pedroso, 2019-12-17 Critical Responses About the Black Family in Toni Morrison s *God Help the Child* explores the

integral role of what Kobi Kambon has called the conscious African family in developing commercial success stories such as those of Morrison's protagonist Bride. Initially, Bride's accomplishments are an extension of a superficial cult of celebrity which inhabits and undermines the development of meaningful interpersonal relationships until a significant literal and metaphorical journey helps her redefine success by facilitating the building of community and family.

**Understanding Racist Activism** Kathleen M. Blee, 2017-07-20 White supremacist groups are highly secretive so their public propaganda tells us little about their operations or the people they attract. To understand the world of organized racism it is necessary to study it from the inside by talking to their members and observing their groups. Doing so reveals a disturbing picture of how fairly ordinary white people learn to embrace the vicious ideas and dangerous agendas of white supremacy. This book takes the reader inside organized racism, revealing the kind of women and men who join groups such as the Ku Klux Klan or neo-Nazi skinheads and what they do in those groups. The volume collects significant published works from renowned scholar Kathleen M. Blee's work on racist activism alongside new essays on the theories, methods, and approaches of studying racist activism. Discussing topics such as emotional issues in research, the place of violence and hate in white supremacy, and how women are involved in racial terrorism, Blee makes use of a range of sources including oral histories, ethnographic observations, and interviews to shape her findings. Written by the pioneer and leading scholar of women in racist activism, this volume is essential reading for students, scholars, and general readers interested in the areas of social movements, politics, race studies, and American history.

The Victorian Reinvention of Race Edward Beasley, 2010-07-02 Not until the early nineteenth century would polygenetic and racialist theories win many adherents. But by the middle of the nineteenth century in England, racial categories were imposed upon humanity. How the idea of race gained popularity in England at that time is the central focus of *The Victorian Reinvention of Race: New Racisms and the Problem of Grouping in the Human Sciences*.

*Richard Wright's Native Son* Andrew Warnes, 2007-01-24 Richard Wright's *Native Son* (1940) is one of the most violent and revolutionary works in the American canon. This guide to Wright's provocative novel offers an accessible introduction to the text and contexts of *Native Son*, a critical history surveying the many interpretations of the text from publication to the present, a selection of reprinted critical essays on *Native Son* by James Baldwin, Hazel Rowley, Antony Dawahare, Claire Eby, and James Smethurst, providing a range of perspectives on the novel and extending the coverage of key critical approaches identified in the survey section, a chronology to help place the novel in its historical context, suggestions for further reading. Part of the Routledge Guides to Literature series, this volume is essential reading for all those beginning detailed study of *Native Son* and seeking not only a guide to the novel but a way through the wealth of contextual and critical material that surrounds Wright's text.

its sizeable African American population Yet over the last thirty years Latinos have become the largest ethnic minority in Houston which is surpassed only by Los Angeles and New York in the number of Latino residents Examining the history and effects of this phenomenon Black Brown Solidarity describes the outcomes of unexpected coalitions that have formed between the rapidly growing Latino populations and the long held black enclaves in the region Together minority residents have put the spotlight on prominent Old South issues such as racial profiling and police brutality Expressions of solidarity John D M rquez argues have manifested themselves in expressive forms such as hip hop music youth gang cultural traits and the storytelling of ordinary residents in working class communities Contrary to a growing discourse regarding black brown conflict across the United States the blurring of racial boundaries reflects broader arguments regarding hybrid cultures that unsettle the orders established by centuries old colonial formations Accentuating what the author defines as a racial state of expendability the lynchpin of vigilante violence and police brutality the new hybridization has resulted in shared wariness of a linked fate Black Brown Solidarity also explores the ways in which the significance of African American history in the South has influenced the structures through which Latinos have endured and responded to expendability Mining data from historical archives oral histories legal documents popular media and other sources this work is a major contribution to urban studies ethnic studies and critical race theory

**Nationalism, Marxism, and African American Literature between the Wars** Anthony Dawahare, 2009-09-18 During and after the Harlem Renaissance two intellectual forces nationalism and Marxism clashed and changed the future of African American writing Current literary thinking says that writers with nationalist leanings wrote the most relevant fiction poetry and prose of the day Nationalism Marxism and African American Literature Between the Wars A New Pandora s Box challenges that notion It boldly proposes that such writers as A Philip

Randolph Langston Hughes and Richard Wright who often saw the world in terms of class struggle did more to advance the anti racist politics of African American letters than writers such as Countee Cullen Jessie Redmon Fauset Alain Locke and Marcus Garvey who remained enmeshed in nationalist and racialist discourse Evaluating the great impact of Marxism and nationalism on black authors from the Harlem Renaissance and the Depression era Anthony Dawahare argues that the spread of nationalist ideologies and movements between the world wars did guide legitimate political desires of black writers for a world without racism But the nationalist channels of political and cultural resistance did not address the capitalist foundation of modern racial discrimination During the period known as the Red Decade 1929 1941 black writers developed some of the sharpest critiques of the capitalist world and thus anticipated contemporary scholarship on the intellectual and political hazards of nationalism for the working class As it examines the progression of the Great Depression the book focuses on the shift of black writers to the Communist Left including analyses of the Communists position on the Negro Question the radical poetry of Langston Hughes and the writings of Richard Wright

*The Idea of Semitic Monotheism* Guy G. Stroumsa,2021 The Idea of Semitic Monotheism examines some major aspects of the scholarly study of religion in the long nineteenth century from the Enlightenment to the First World War It aims to understand the new status of Judaism and Islam in the formative period of the new discipline Guy G Stroumsa focuses on the concept of Semitic monotheism a concept developed by Ernest Renan around the mid nineteenth century on the basis of the postulated and highly problematic contradistinction between Aryan and Semitic families of peoples cultures and religions This contradistinction grew from the Western discovery of Sanskrit and its relationship with European languages at the time of the Enlightenment and Romanticism Together with the rise of scholarly Orientalism this discovery offered new perspectives on the East as a consequence of which the Near East was demoted from its traditional status as the locus of the Biblical revelations This innovative work studies a central issue in the modern study of religion Doing so however it emphasizes the new dualistic taxonomy of religions had major consequences and sheds new light on the roots of European attitudes to Jews and Muslims in the twentieth century up to the present day

**Silent Racism** Barbara Trepagnier, 2017-07-05 Vivid and engaging Silent Racism persuasively demonstrates that silent racism racism by people who classify themselves as not racist is instrumental in the production of institutional racism Trepagnier argues that heightened race awareness is more important in changing racial inequality than judging whether individuals are racist The collective voices and confessions of nonracist white women heard in this book help reveal that all individuals harbor some racist thoughts and feelings Trepagnier uses vivid focus group interviews to argue that the oppositional categories of racist not racist are outdated The oppositional categories should be replaced in contemporary thought with a continuum model that more accurately portrays today's racial reality in the United States A shift to a continuum model can raise the race awareness of well meaning white people and improve race relations Offering a fresh approach Silent Racism is an essential resource for teaching and thinking about racism in the twenty first century

**Emmett Till in Literary Memory and Imagination** Harriet Pollack, Christopher Metress, 2008-01-01 The horrific 1955 slaying of fourteen year old Emmett Till marks a significant turning point in the history of American race relations An African American boy from Chicago Till was visiting relatives in the Mississippi Delta when he was accused of wolf whistling at a young white woman His murderers abducted him from his great uncle's home beat him then shot him in the head Three days later searchers discovered his body in the Tallahatchie River The two white men charged with his murder received a swift acquittal from an all white jury The eleven essays in Emmett Till in Literary Memory and Imagination examine how the narrative of the Till lynching continues to haunt racial consciousness and to resonate in our collective imagination The trial and acquittal of Till's murderers became in the words of one historian the first great media event of the civil rights movement and since then the lynching has assumed a central place in literary memory The international group of contributors to this volume explores how the Emmett Till story has been fashioned and refashioned in fiction poetry drama and autobiography by writers as diverse as William Bradford Huie James Baldwin
