**A Kindly Providence** Louis Renner, 2010-08-31 This comprehensive and illustrated volume is both a rich history of the Catholic Church in Alaska and the autobiography of Fr Louis Renner S J who was a dedicated missionary in Alaska for 40 years He tells here a compelling story of a full and fascinating life in service of the people and the Church of Alaska amid the incredible natural beauties challenging elements and vast regions of the Great Land Beautifully interweaving the history of the people and Church in Alaska Fr Renner tells his story of a dedicated missionary priest who loved the people he served A scholar a teacher and always a Jesuit priest he taught German and Latin at the University of Alaska Fairbanks edited the Catholic newsletter The Alaskan Shepherd and ran missions at two different Indian villages on the Yukon River This pastoral priest became a friend to people in all sectors of Alaskan society Tony Knows the governor of Alaska even presented him with the Governor s Award for Friend of the Humanities The outline of Fr Renner s life is fleshed out richly in A Kindly Providence One reviewer writes that all is there a clear picture of his life Renner is a very good writer technically competent and very interesting He kept this reader s interest throughout the 500 plus page book I really wanted to see how it ended Another writes Once I started to read it I couldn t put it down I had to finish it Rich in detail this book is a wonderful testimony to a model life of a happy priest in the twentieth century The book is based not only on Fr Renner s remarkable memory but also on his personal diaries and correspondence on official documents and on accounts written by him of his unusual adventures during over forty years in Alaska Substantial quotes from diaries letters and official documents give readers a feeling of being actually present at those events in far off places The many photographs illustrating the narrative lend an air of immediacy and give us a vicarious experience of the author s personal life History of Alaska , Volume II Jonathan M. Nielson, Ph.D., 2018-03-01 The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska s strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who

aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska's strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada's West Coast But he also saw Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska's military vulnerability Between 1933 and 1944 no one was more adamant than Alaska's Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one Pacific base Hawaii while ignoring another Alaska Dimond's campaign was strengthened by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation's six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortunately for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor of defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war
