International Perspectives on Gender and Mathematics Education Olof

Steinthorsdottir, Helen J. Forgasz, Joanne Rossi Becker, Kyeonghwa Lee, 2010-06-01 Why a book on gender issues in mathematics in the 21st century Several factors have influenced the undertaking of this project by the editors First an international volume focusing on gender and mathematics has not appeared since publication of papers emerging from the 1996 International Congress on Mathematical Education Keitel 1998 Surely it was time for an updated look at this critical area of mathematics education Second we have had lively discussion and working groups on gender issues at conferences of the International Group for the Psychology of Mathematics Education PME for the past four years sessions at which stimulating and ground breaking research has been discussed by participants from many different countries Some publication seemed essential to share this new knowledge emerging from a wider variety of countries and from different cultural perspectives Third some western countries such as Australia and the USA have experienced in recent years a focus on the boy problem with an underlying assumption that issues of females and mathematics have been solved and are no longer worthy of interest Thus it seemed timely to look more closely at the issue of gender and mathematics internationally When the idea for this volume first emerged invitations were issued to those regularly attending the working and discussion groups at PME Potential authors were charged to focus on gender issues in mathematics and were given wide scope to hone in on the issues that were central to their own research efforts or were in receipt or in need of close attention in their own national or regional contexts

Fathers and Daughters in the Hebrew Bible Johanna Stiebert, 2013-03-28

The father daughter dyad features in the Hebrew Bible in all of narratives laws myths and metaphors In previous explorations of this relationship the tendency has been to focus on discrete stories notable among them Judges 11 the story of Jephthah's human sacrifice of his daughter and Genesis 19 the dark tale of Lot's daughters seduction of their father By taking the full spectrum into account however the daughter emerges prominently as not only expendable and exploitable as an emphasis on daughter sacrifice or incest has suggested but as cherished and protected by her father Depictions of daughters are multifarious and there is a balance of very positive and very negative images While not uncritical of earlier feminist investigations this book makes a contribution to feminist biblical criticism and utilizes methods drawn from the social sciences and psychoanalysis Alongside careful textual analysis Johanna Stiebert offers a critical evaluation of the heuristic usefulness of the ethnographic honour shame model of parallels with Roman family studies and of the application and meaning of patriarchy Following semantic analysis of the primary Hebrew terms for father and daughter as well as careful examination of inter family dynamics and the daughter's role vis vis the son's alongside thorough investigation of both Judges 11 and Genesis 19 and also of the metaphor of God the father of daughters Eve Wisdom and Zion Stiebert provides the fullest exploration of daughters in the Hebrew Bible to date

original authors **The Metamorphoses of Kinship** Maurice Godelier, 2012-03-03 With marriage in decline divorce on the rise the demise of the nuclear family and the increase in marriages and adoptions among same sex partners it is clear that the structures of kinship in the modern West are in a state of flux In *The Metamorphoses of Kinship* the world renowned anthropologist Maurice Godelier contextualizes these developments surveying the accumulated experience of humanity with regard to such phenomena as the organization of lines of descent sexuality and sexual prohibitions In parallel Godelier studies the evolution of Western conjugal and familial traditions from their roots in the nineteenth century to the present The conclusion he draws is that it is never the case that a man and a woman are sufficient on their own to raise a child and nowhere are relations of kinship or the family the keystone of society Godelier argues that the changes of the last thirty years do not herald the disappearance or death agony of kinship but rather its remarkable metamorphosis one that ironically is bringing us closer to the traditional societies studied by ethnologists Principles and Prenatal Growth F.

Falkner, 2013-03-09 Growth as we conceive it is the study of change in an organism not yet mature Differential growth creates form external form through growth rates which vary from one part of the body to another and one tissue to another and internal form through the series of time entrained events which build up in each cell the specialized complexity of its particular function We make no distinction then between growth and development and if we have not included accounts of differentiation it is simply because we had to draw a quite arbitrary line somewhere It is only rather recently that those involved in pediatrics and child health have come to realize that growth is the basic science peculiar to their art It is a science which uses and incorporates the traditional disciplines of anatomy physiology biophysics biochemistry and biology It is indeed apart of biology and the study of human growth is a part of the curriculum of the rejuvenated science of Human Biology What growth is not is a series of charts of height and weight Growth standards are useful and necessary and their construction is by no means void of intellectual challenge They are a basic instrument in pediatric epidemiology But they do not appear in this book any more than clinical accounts of growth disorders This appears to be the first large handbook in three volumes devoted to Human Growth Smaller textbooks on the subject began to appear in the late nineteenth century some written by pediatricians and some by anthropologists **DSSSB Primary Special Educator Tier 1 Exam Guide**
