Paper Sons and Daughters Ufrieda Ho, 2012-07-04. Ufrieda Ho's compelling memoir describes with intimate detail what it was like to come of age in the marginalized Chinese community of Johannesburg during the apartheid era of the 1970s and 1980s. The Chinese were mostly ignored as Ho describes it, relegated to certain neighborhoods and certain jobs, living in a kind of gray zone between the blacks and the whites. As long as they adhered to these rules, they were left alone. Ho describes the separate journeys her parents took before they knew one another, each leaving China and Hong Kong around the early 1960s, arriving in South Africa as illegal immigrants. Her father eventually became a so-called fahfee man, running a small time numbers game in the black townships, one of the few opportunities available to him at that time. In loving detail, Ho describes her father's work habits, the often mysterious selection of numbers at the kitchen table, the carefully kept account ledgers, and especially the daily drives into the townships where he conducted business on street corners from the seat of his car. Sometimes Ufrieda accompanied him on these township visits, offering her an illuminating perspective into a stratified society. Poignantly, it was on such a visit that her father, who is very much a central figure in Ho's memoir, met with a tragic end. In many ways, life for the Chinese in South Africa was self-contained. Working hard, minding the rules and avoiding confrontations, they were able to follow traditional Chinese ways. But for Ufrieda, who was born in South Africa, influences from the surrounding culture crept into her life, as did a political awakening. *Paper Sons and Daughters* is a wonderfully told family history that will resonate with

anyone having an interest in the experiences of Chinese immigrants or perhaps any immigrants the world over THE GOODevil SCROLL Alan V. Gordon, 2013-05-25 A small Jewish sect calling itself The Pure Believers worships in Babylon during the period of Jewish Exile in the 6th century BCE It mysteriously disappears from the pages of history and nothing is known about it for two thousand years when it is suddenly mentioned by a Vatican scholar at an international conference What does the scroll actually say Where was it found Just who are these Purists with their lofty claims of truly knowing the Creator God Were they just one of the many obscure religious sects persecuted out of existence by mainstream Judaism or were they a religious creed that was growing like a wildfire and could have swept the ancient world and quickly consolidated into a major movement threatening the very existence of the established Jewish faith This book covers the journey of the scroll its theft loss and burial in the largest book collection in the world It is a fascinating account of active attempts at suppression intrigue and courage shown by one man who is determined to expose to the world such ancient truths and radical views of the Creator Well may we ask why we have always been told that we were born of sin and that we needed all the theatre of incense and bells of formal religion to find God for ourselves When in reality our Creator has always been within us fully aware of our individual limitations and expecting nothing from us always knowing the reasons for our every action
