Being a Father* David Reedman, 2015-10-23 Out of the many experiences of my own life both personally and in working with large numbers of young people and their families I have seen the increasing devastating effect that fatherlessness is having in our society I am a father to me that is a great privilege and honour and I have walked out the journey of raising 3 children of my own and I have also observed the challenges that many men face in being a father To a large extent it was a

combination of those 3 factors experiences that challenged me to write a book on what I believe is a mans greatest challenge that of being a father In the book I firstly wanted to highlight briefly some of the consequences of fatherlessness in our society Men need to know that the efforts that they make as fathers are important they are leaving a legacy in the lives of their children that will impact generations And they need to know that the challenges that they face as they seek to father their children are not unique As fathers we are all in the same fight we are all walking out a very similar journey and I want to challenge men afresh to rise up and make a difference in their own homes and families and then in society The majority of the book is designed to pass on the things that I have learnt in my own journey as a father to the next generation of fathers I firstly present what I believe are some of the fundamental requirements of being an effective father things such as love and time and the power of the words that we speak I then focus on six basic steps or principles that apply to becoming an effective father to your children These six steps are both sequential and yet they need to be continually applied to the many different areas of life time and time again you never outgrow them rather they evolve as you and your children grow and mature I then look at the importance of dealing with your children as individuals and encourage men to see things in a long term perspective Life at times does get messy and take unexpected detours but with time we get to see the results that we all desire as men in the lives of our children In all these areas I havent sought to give men a how to guide or a step by step method rather where possible I have endeavoured to share examples from my own family to help explain the principles and to help men work out how to apply the truths to their own families The last thing that I touch on is to address some of the main challenges or obstacles that we as men confront as we seek to be an effective father For each of these areas one could write an entire book on the subject and the ways in which these obstacles work out in a mans life are as varied as men themselves So all that I have done is to raise awareness of these issues and give some broad guidelines to help guide men through them As fathers we are all in the process of learning and growing None of us have arrived but we can all learn from one another and together we can make a positive change in our society for the benefit of the generations to come Being a father is a mans greatest challenge and it is hard work at times but it is worth it all *Fantasy to Fortitude* Conrad Riker,101-01-01 Are You Tired of Living in a Fantasy World It s Time to Wake Up and Take Control of Your Life Do you find yourself constantly lost in daydreams and emotional spirals Are you struggling to break free from the toxic cycle of self centeredness and moral relativism Do you feel trapped by the feminist ideologies that promise liberation but deliver only confusion and despair This book is your wake up call It s time to step out of the fantasy and into a life of purpose clarity and strength Here s what you ll gain Learn how to integrate your masculine energy to achieve a rational objective mindset Discover the power of taking an inner locus of control and granting yourself true agency Break free from the hormonal rollercoaster and emotionalism that keep you stuck Reject the feminist Marxist Satanic complex that has captured institutions and privileged women at the expense of men Cultivate matrescence and become a just good enough mother

Human Mastery Ej Laurence,2008 This book represents a turning point in my philosophy stemming from my experiences as an advocate for social justice For many years I have observed seemingly unsolvable human conflicts the generational damage of bad choices and the perils of rigid social and economic inequality I watched one social issue after another emerge each as dire as the last I began to wonder as many do from time to time if I am really making a difference As an avid reader of science magazines I began to transfer my interest in the concept of a unifying principle from science to social philosophy I began to wonder if there was one principle that could explain the myriad of human conflicts and suffering and perhaps more importantly offer some guidance on a solution From this curiosity grew serious research into human understanding and eventually my philosophy on the purpose of life This book is primarily written from one type of person to others who share the same three traits being dedicated to making the world a better place frustrated by realizing that we appear to be losing ground fast and open to a new context for human life
