**Teenage Suicide Notes** Terry Williams, 2017-02-21 Picturing myself dying in a way I choose myself seems so comforting healing and heroic I'd look at my wrists watch the blood seeping and be a spectator in my last act of self-determination By having lost all my self-respect it seems like the last pride I own determining the time I die Kyra V. seventeen Reading the confessions of a teenager contemplating suicide is uncomfortable but we must do so to understand why self-harm has become epidemic especially in the United States What drives teenagers to self-harm What makes death so attractive so liberating and so inevitable for so many In Teenage Suicide Notes sociologist Terry Williams pores over the writings of a diverse group of troubled youths to better grasp the motivations behind teenage suicide and to humanize those at risk of taking their own lives Williams evaluates young people in rural and urban contexts and across lines of race class gender and sexual orientation His approach which combines sensitive portrayals with sociological analysis adds a clarifying dimension to the

fickle and often frustrating behavior of adolescents Williams reads between the lines of his subjects seemingly straightforward reflections on alienation agency euphoria and loss and investigates how this cocktail of emotions can lead to suicide or not Rather than treating these notes as exceptional examples of self expression Williams situates them at the center of teenage life linking them to abuse violence depression anxiety religion peer pressure sexual identity and family dynamics He captures the currents that turn self destruction into an act of self determination and proposes more effective solutions to resolving the suicide crisis

**The Etherized Wife** Leslie Margolin,2021 The Etherized Wife provides a comprehensive examination of the evolution of sex therapy through the prism of gender The book makes the argument that in sex therapy like other domains of life in which men set the standard of normality women have been judged normal to the degree they match men s expectations What is particularly striking about this bias is that it contradicts therapists overt identification with feminism and the battle against women s inequality To support these claims Leslie Margolin maps a series of case studies drawn from the discipline s own literature the articles and books that have been and continue to be treated as exemplars of the discipline s collective consciousness Through examination of case studies which focus on discrepancies in sexual desire where the man wants more sex and the woman less the book shows how therapists have favoured the man s side The Etherized Wife shows how the sex therapy discipline has unintentionally enshrined male sexuality as the model of normal natural healthy sexuality

Accounts of Innocence Joseph E. Davis,2005 Since a new sensitivity and orientation to victims of injustice arose in the 1960s categories of victimization have proliferated Large numbers of people are now characterized and characterize themselves as sufferers of psychological injury caused by the actions of others In contrast with the familiar critiques of victim culture Accounts of Innocence offers a new and empirically rich perspective on the question of why we now place such psychological significance on victimization in people s lives Focusing on the case of adult survivors of childhood sexual abuse Joseph E Davis shows how the idea of innocence shaped the emergence of trauma psychology and continues to inform accounts of the past and hopes for the future in therapy with survivor clients His findings shed new light on the ongoing debate over recovered memories of abuse They challenge the notion that victim accounts are an evasion of personal responsibility And they suggest important ways in which trauma psychology has had unintended and negative consequences for how victims see themselves and for how others relate to them An important intervention in the study of victimization in our culture Accounts of Innocence will interest scholars of clinical psychology social work and sociology as well as therapists and victim activists
