The Politics and Poetics of Irish Children's Literature Nancy Watson, 2009 Although the work of many contemporary Irish writers for children is often complex and sophisticated there is currently very little critical analysis to do it justice The aim of this book is to redress that situation and to prove that the best writing for children is no less complex and well written than the best adult fiction and offers valuable material for theoreticians With a detailed examination of selected texts by six Irish writers for children the book explores the reciprocal relationship between the different time and place of the child reader and the complexity and multiplicity of the world of the adult writer It suggests that putting the different forms of experience in dialogue with each other promotes a new understanding because it allows for other points of view and other ways of seeing This book also suggests that the way in which these writers implement the potential of the child reader's different perspective refutes the idea of the impossible relation between adult and child The opening chapter explores the attempt to re create childhood and adolescence in a range of Irish memoir and fiction *International Who's Who of Authors and Writers 2008* Europa Publications, 2007-08-23 An invaluable source of information on the personalities and organizations of the literary world **Internationales Literaturfestival Berlin**, 2003 Donegal John Jude Devenney, 2000 Teach Yourself Writing Poetry John Hartley Williams, Matthew Sweeney, Martin Sweeney, 1995 Teach Yourself Books **The Oxford Encyclopedia of Children's Literature: Smad-Zwer, index** Jack Zipes, 2006 For much of its history children's literature has been overlooked or looked down on by scholars But in recent years children's literature has assumed greater
