Fauna and Flora, Earth and Sky Trudy Dittmar, 2005-04 Fauna and Flora Earth and Sky is in fact the most intelligent thoughtful original challenging and highly entertaining work of nature writing since Barry Lopez's Artic Dreams It is her broad scope of contemplation combined with her fiercely beautiful and detailed renderings of passion natural and human that give Trudy Dittmar's first but fully mature book its remarkable originality and considerable power Robert Finch Los Angeles Times Book Review Honest self scrutiny is irresistible especially when told with a knack for diction of place as this author demonstrates on every page She is both of the landscape and an informed observer of it willing to examine her conflicts between the experiences that play in her imagination and the scientific knowledge she's gleaned through training and reading The Bloomsbury Review Trudy Dittmar is an elegant stylist and an acute observer She's read everything there is to read about the physics of rainbows the habits of the porcupine the winter survival skills of the moose and the orbits of the planets but even her learning is outdistanced by her patient powers of looking smelling hearing touching and tasting Her originality arises out of this patience And magically she is able to read into and out of the rich endangered natural world an Emersonian understanding of self This is at once the most objective and subjective book I have ever read Edmund White author of A Boy's Own Story Dittmar writes about life with the precision of a scientist and the introspective lyricism of a poet illuminating for us those parts of the world we barely remember to notice from the complex emotional lives of cows and pronghorns to the dazzling leaves of a silver maple to the teeming hidden pools of bright salamanders Reading this book is like finding a geode in a stream bed crack it open and it sparkleso Jo Ann Beard Dittmar who won a Rona Jaffe Foundation Writer Award in 2000 and whose writings have appeared in numerous publications provides a fascinating look at natural and personal history in these ten essays on animals plants and other natural phenomena An excellent choice for both public and academic libraries Library Journal In essays with settings that range from the Wind River Mountains of Wyoming to the mountain town of Leadville Colorado to the Pine Barrens of New Jersey Trudy Dittmar weaves personal experience with diverse threads of subject matter to create unexpected connections between human nature and nature at large Life stories elegantly combined with mindful observations of animals plants landscape and the skies theories in natural science environmental considerations and touches of art criticism and popular culture offer insights into the linked analogies of nature and soul A glacial pond teeming with salamanders in arrested development is cause for reflection on the limits of a life that knows only bounty The hot blue lights of celestial phenomena are a metaphor for fast flashy men he loves of a life and a romantic career is interpreted Watching a pronghorn buck battling for and ultimately losing his harem leads to a meditation on a kind of immortality Fauna and Flora Earth and Sky is testimony to the bearing and consequence of nature in one life and to the richness of understanding it can bring to all human lives Trudy Dittmar was born and raised in New Jersey farm country In addition to holding an MA in English literature from the University of Chicago she is a graduate of Columbia

University s MFA program in writing and the founder and former director of a writing program at Brookdale Community College in New Jersey Her work has appeared in such publications as The Norton Book of Nature Writing Pushcart XXI Georgia Review and Orion She divides her time between her family home in New Jersey and her cabin in Wyoming **Defense of Nature** John Hay, 2007-08-15 Frequently compared to Edward Abbey Wendell Berry and Gary Snyder John Hay is one of this country's greatest nature writers Originally published in 1969 In Defense of Nature is an eloquent and prescient plea on behalf of the natural world Devoid of sentimentality yet lyrical and deeply moving in its portrayals of our despoliation of nature Hay's classic work is now available to a new generation of readers Wendell Berry has called John Hay a carrier of light and wisdom In Defense of Nature reveals why this is true In it Hay has written an extended meditation on the environment and our place in it Its lessons never more important In Defense of Nature eerily presages the tenuous state of our environment and our place in it As our technical abilities have moved forward our judgment has not kept pace What we call natural resources cannot be limited to gas oil pulpwood or uranium we are starving the natural resources in ourselves The soul needs to stretch being needs to exercise Anthropologies Beth Alvarado, 2011-09-03 A vivid archive of memories Beth Alvarado's Anthropologies layers scenes portraits dreams and narratives in a dynamic cross cultural mosaic Bringing her lyrical tenor to bear on stories as diverse as harboring teen runaways gunfights with federales and improbable love Alvarado unveils the ways in which seemingly separate moments coalesce to forge a communal truth Woven from the threads of distinct family histories and ethnic identities Anthropologies creates a heightened understanding of how individual experiences are part of a larger shared fabric of lives Like the opening of a series of doors each turn of the page reveals some new reality and the memories that emerge from it Open one door and you are transported to a modest Colorado town in 1966 appraising animal tracks edged into a crust of snow while listening to stories of Saipan Open another and you are lounging in a lush Michoac n hacienda or in another the year is 1927 and you are standing on a porch in Tucson watching La Llorona turn a corner With vivid imagery and a poetic sensibility Anthropologies reenacts the process of remembering and so evokes a compelling narrative Each snapshot provides a glimpse into the past illuminating the ways in which memory and history are intertwined Whether the experience is of her own drug use or that of a great grandmother s trek across the Great Plains with Brigham Young Alvarado's insight into the binding nature of memory illuminates a new way of understanding our place within families generations and cultures The Great Chain of Life Joseph Wood Krutch, 2005-08 Originally published in 1956 The Great Chain of Life brings a humanist s keen eye and ear to one of the great questions of the ages What am I Originally a scholar of literature and theater toward the end of his career Joseph Wood Krutch turned to the study of the natural world Bringing his keen intellect to bear on the places around him Krutch crafted some of the most memorable and important works of nature writing extant Whether anticipating the arguments of biologists who now ascribe high levels of cognition to the so called lower animals recognizing the importance of nature for a well lived life or seeing nature as an

Return to Warden's Grove Christopher Norment,2008-04 Based on three seasons of field research in the Canadian Arctic Christopher Norment s exquisitely crafted meditation on science and nature wildness and civilization is marked by bottomless prose reflection on timeless questions and keen observations of the world and our place in it In an era increasingly marked by cutting edge research at the cellular and molecular level what is the role for scientists of sympathetic observation What can patient waiting tell us about ourselves and our place in the world His family at home in the American Midwest Norment spends months on end living in isolation in the Northwest Territories studying the ecology of the Harris s Sparrow Although the fourteenth century German mystic Meister Eckhardt wrote God is at home we are in the far country Norment argues that an intellectual emotional and spiritual far country can be found in the lives of animals and arctic

wilderness For Norment doing science can lead to an enriched aesthetic and emotional connection to something beyond the self and a way to develop a sacred sense of place in a world that feels increasingly less welcoming certain and familiar
