Faust Eine Tragodie Dtv:

Religion in Contemporary German Drama Sinéad Crowe, 2013 Investigates German religious drama since the 1970s asking the question whether it develops religious themes or only exploits religious motifs and exploring how it reflects the changing place of religion and spirituality in the world Critics often claim that the twenty first century has seen a sudden return of religion to the German stage But although drama scholarship has largely focused on politics postmodernity gender ethnicity and postdramatic performance religious themes forms and motifs have been a topic and a source of inspiration for German dramatists for several decades as this study shows Focusing on works by four major dramatists Botho Strau George Tabori Werner Fritsch and Lukas B rfuss this book examines how why and to what effect religion is invoked in German drama since the late 1970s It asks whether contemporary German drama succeeds in developing religious insights or is at most quasi religious exploiting religious signs for aesthetic theatrical or dramaturgical ends It considers the performative and historical intersections between drama and religion contextualizing the playwrights treatments of religion by exploring how they lean on or repudiate the traditions of modern European drama especially that of Strindberg the Expressionists Artaud Grotowski and Beckett It also draws on the sociology anthropology and psychology of religion exploring how these works reflect the changing place of religion and spirituality in the world from secularization to the alternative modes of religiosity that have proliferated in Western society since the 1960s Sin ad Crowe is a Teaching Assistant at the University of Limerick Ireland

Religion and Identity in Germany Today Frank Finlay, 2010 The contributors address a range of issues including the controversial building of a mosque in Cologne pressure experienced by German Jews to reconnect with a religion that their forebears cast off sometimes more than a century ago

Music and Literature in German Romanticism Siobhán Donovan, Robin Elliott, 2004 During the Romantic era many in Germany believed music to be the highest art form representing the quintessence of Romanticism and able to express what could not be expressed in words This book studies the work of composers during this period and examines the cross over between music and literature

Nietzsche on Gender Frances Nesbitt Oppel, 2005 Although Nietzsche has been considered by some critics to be a misogynist for his treatment of woman women and the feminine Frances Nesbitt Oppel offers a radical reinterpretation of the philosopher s ideas on sex gender and sexuality In Nietzsche on Gender Beyond Man and Woman she argues that a closer reading of Nietzsche s texts and rhetorical style especially his use of metaphor and irony as well as his letters and notes shows that he was strategically and deliberately dismantling dualistic thinking in general not only the logical hierarchies of western thought God human heaven earth mind body reason emotion ethos pathos but also the assumed gender opposition of man woman In the process she pulls the rug out from under the accusation of his alleged misogyny Oppel s is the first study to combine recent speculations in gender study and queer theory with an in depth analysis of Nietzsche s texts This approach enables her to break through the impasse in feminist studies that has stalled for so long on the question of his misogyny to redirect

attention to the importance he gives to human creativity and self fashioning rather than convention and to gesture toward a future human sexuality beyond rivalry and resentment in favor of a sensual materialism in relationship with others and the earth Oppel concludes that for Nietzsche breaking the gender barrier liberates human beings as individuals and as a species to love themselves each other and their earthly home as they choose By emphasizing the physical and material stuff of human existence bodies and the earth she says Nietzsche reclaims for all humanity concepts that have been traditionally associated with woman and the feminine No longer seen as a strong masculine hero Nietzsche's Superman becomes a supreme human achievement the complete acceptance of time change and mortality in which human beings will possess the best characteristics of each gender in themselves Nietzsche on Gender should be equally engaging for readers interested in Nietzsche in particular and in sexual politics and in philosophy and literature more generally

Romantic Drama Gerald Ernest Paul Gillespie, 1994 It does not treat Romanticism as a limited period dominated by some construed singular master ethos or dialectic rather it follows the literary patterns and dynamics of Romanticism as a flow of interactive currents across geocultural frontiers

Literary Spinoffs Birgit Spengler, 2015-03-05 Literary Spinoffs Rewriting the Canon Re Imagining the Community explores the literary strategies theoretical dimensions and cultural implications of contemporary rewritings of nineteenth century classics By hooking on to powerful literary and cultural narratives literary spinoffs seek to interfere with the cultural imaginary and revise the ways in which the cultural community constructs itself via formative narratives Spengler offers in depth case studies of prominent contemporary rewritings and the cultural work they undertake while also examining the genre's particular aesthetics and effects Through their intensely intertextual form spinoffs raise urgent questions about the possibilities for participation in processes of cultural meaning making and invigorate contemporary debates about intellectual property cultural capital as well as high and popular culture

Reading Mahler Carl Niekerk, 2010 Examines literary philosophical and cultural influences on Mahler's thought and work from the standpoint of the composer's position in German Jewish culture Gustav Mahler's music is more popular than ever yet few are aware of its roots in German literary and cultural history in general and in fin de siècle Viennese culture in particular Taking as its point of departure the many references to literature philosophy and the visual arts that Mahler uses to illustrate the meaning of his music Reading Mahler helps audiences critics and those interested in musical and cultural history understand influences on Mahler's music and thinking that may have been self evident to middle class Viennese a hundred years ago but are much more obscure today It shows that Mahler's oeuvre despite its reliance on texts and images from the eighteenth and nineteenth centuries is far more indebted to fin de siècle modernism and to an eclectic proto avantgardist agenda than has been previously realized Furthermore Reading Mahler is the first book to make Mahler's position within German Jewish culture its analytical center It also probes Mahler's problematic but often overlooked relationship with the musical and textual legacy of Richard Wagner By integrating newer approaches in humanistic research cultural studies gender studies

and Jewish studies Reading Mahler exposes the composer's critical view of German cultural history and offers a new understanding of his music Carl Niekerk is Professor in the Department of German the Program in Comparative and World Literature and the Program in Jewish Culture and Society at the University of Illinois at Urbana Champaign Dramaturgy in the Drama Anthony Joseph Niesz, 1977 *Western Historiography in Asia* Q. Edward Wang, Okamoto Michihiro, Longguo Li, 2022-02-21 This volume provides a unique and critical perspective on how Chinese Japanese and Korean scholars engage and critique the West in their historical thinking It showcases the dialogue between Asian experts and their Euro American counterparts and offers valuable insights on how to challenge and overcome Eurocentrism in historical writing

Wirklichkeit und existentielle Praxis Björn Freter, 2016 Diese Studie möchte eine existenzphilosophische Vorarbeit zu einer Phänomenologie der Normativität leisten Durch Auslegungen vor allem griechischer mittelhochdeutscher und klassischer deutscher Dichtung werden zunächst die Grundbegriffe von Faktizität und Existentialität herausgearbeitet Auf dieser Grundlage erfolgt sodann die Beschreibung von Anlass und Gestalt normativer Praxis Diese Beschreibung wird endlich als anthropologische Grundlage philosophischer Ethik vorgeschlagen Faust Osman Durrani, 2004 This title provides an exploration of the way Faust has achieved iconic status in modern culture by examining in his image in literature theatre film art The Künstlerproblematik and the Meaning and Function of Art in Works by Hugo Von Hofmannsthal and Thomas Mann Bonnie Jean Broughton, 2001
