Money, Language, and Thought Marc Shell, 1993-09 In *Money Language and Thought* Marc Shell explores the interactions between linguistic and economic production as they inform discourse from Chretien de Troyes to Heidegger Close readings of works such as the medieval grail legends *The Merchant of Venice* Goethe's *Faust* and Poe's *The Gold Bug* reveal how discourse has responded to the dissociation of symbol from thing characteristic of money and how the development of increasingly symbolic currencies has involved changes in the meaning of meaning Pursuing his investigations into the modern era Shell points out significant internalization of economic form in Kant Hegel and Heidegger He demonstrates how literature and philosophy have been driven to account self critically for a money of the mind that pervades all discourse and concludes the book with a discomfiting thesis about the cultural and political limits of literature and philosophy in the modern world

Making an Entrance Juliane Vogel, 2022-10-03 How does the entrance of a character on the tragic stage affect their visibility and presence Beginning with the court culture of the seventeenth century and ending with Nietzsche's Dionysian theater this monograph explores specific modes of entering the stage and the conditions that make them successful or cause them to fail The study argues that tragic entrances ultimately always remain incomplete that the step figures take into visibility invariably remains precarious Through close readings of texts by Racine Goethe and Kleist among others it shows that entrances promise both triumph and tragic exposure though they appear to be expressions of sovereignty they are always simultaneously threatened by failure or annihilation With this analysis the book thus opens up possibilities for a new theory of dramatic form one that begins not with the plot itself but with the stage entrance that structures how characters appear and thus determines how the plot advances By reflecting on acts of entering this book addresses not only scholars of literature theater media and art but anyone concerned with what it means to appear and be present

Goethe A. N. Wilson, 2024-09-26 A N Wilson's biography of the German polymath is wild brilliant and has all the intelligence to rival its subject Frances Wilson the Telegraph Rich and full and passionate and intelligent and deeply needed for these murky times Ben Okri Exuberant and wide ranging Miranda Seymour author of The Haunted Life of Jean Rhys A spellbinding recreation of Goethe's life and work from one of our greatest biographers Goethe was the inventor of the psychological novel a pioneer scientist great man of the theatre and a leading politician As A N Wilson argues in this groundbreaking biography it was his genius and insatiable curiosity that helped catapult the Western world into the modern era A N Wilson tackles the life of Goethe with characteristic wit and verve From his youth as a wild literary prodigy to his later years as Germany's most respected elder statesman Wilson hones in on Goethe's undying obsession with the work he would spend his entire life writing Faust Goethe spent over

60 years writing his retelling of Faust a strange and powerful work that absorbed all the philosophical questions of his time as well as the revolutions and empires that came and went It is his greatest work but as Wilson explores it is also something much more it is the myth of how we came to be modern *On the Blissful Islands with Nietzsche & Jung* Paul

Bishop,2016-11-03 What are the blissful islands And where are they This book takes as its starting point the chapter called On the Blissful Islands in Part Two of Nietzsche s Thus Spoke Zarathustra and its enigmatic conclusion The beauty of the Superman came to me as a shadow From this remarkable and powerful passage it disengages the Nietzschean idea of the Superman and the Jungian notion of the shadow moving these concepts into a new interdisciplinary direction In particular On the Blissful Islands seeks to develop the kind of interpretative approach that Jung himself employed Its chief topics are classical the motif of the blissful islands psychological the shadow and philosophical the *bermensch* or superman blended together to produce a rich intellectual historical discussion By bringing context and depth to a nexus of highly problematic concepts it offers something new to the specialist and the general reader alike So this book considers the significance of the statue in the culture of antiquity and in alchemy and investigates the associated notion of self sculpting as a form of existential exercise This Neoplatonic theme is pursued in relation to a poem by Schiller at the centre of which lies the notion of self sculpting thus highlighting Nietzsche s and Jung s relationship to Idealism Its conclusion directly addresses the vexed and controversial question of Nietzsche s relation to Plato This book s main ambition is to provide a cross cultural interdisciplinary reading of key themes and motifs using Jungian ideas in general and Jung s vast seminar on Zarathustra in particular to uncover a dimension of deep meaning in key passages in Nietzsche Engaging the reader directly on major existential questions it aims to be an original thought provoking contribution to the history of ideas and to show that Zarathustra was right There still are blissful islands This book will be stimulating reading for analytical psychologists including those in training and academics and scholars of Jungian studies Nietzsche and the history of ideas
