*Best Loved Folk Tales of India* Pranab Chandra Roy Choudhury,1999-08 India is a treasure trove of folktales born out of the customs and traditions of the country Sometimes these tales are retold in its different regions while imparting the local flavour to them The mobility of the folktales can be attributed to the pilgrims and travellers journeying from one part of the country to another They rested at night in dharamsalas or inns often attached to temples where they mingled among themselves and with the local people More often than not folktales are passed on from grandmother to grandchildren so vividly that they are impressed in the listener's memory forever They are delightful and fascinating to the young as well as

the old The same story even when heard repeatedly does not lose its interest as it appeals to the fantasies the make beliefs and the primitiveness in us These beautiful folktales of India were on the verge of extinction when a project of compilation of 21 volumes consisting of folktales of different regions was launched by Sterling These folktales have been gleaned from the larger collection

**Their Migrations and Transformations** William Alexander Clouston,1887 [Index-guide to Library of the World's Best Literature, Ancient and Modern](#) Edward Cornelius Towne,1899 **Library of the World's Best Literature: Index guide. Prepared by Edward C. Towne** ,1899 [Narratives Across Borders](#) Manju Jaidka,2016-04-26 This volume is centred around the idea that the aim of literature is to build bridges to bring people together and to highlight underlying similarities

despite the apparent differences in world literatures As such the book focuses on the moral purpose of literature and its tendency to overcome divisive forces It supports the idea of cosmopolitanism a re working of the ancient Indian ideal of Vasudhaiva Kuttumbakam or the world is my home a concept close to the African notion of ubuntu which refers to an open society as against a small enclosed one and relates to the essence of being human and working for the benefit of a larger community The book uses examples from texts across geographical and cultural borders beginning with classics like the Indian epics the Panchatantra the Kathasaritsagar and the Arabian Nights before moving on to contemporary texts in the age of information technology Although these may originate against diverse backdrops they have a commonality that cannot be denied The stories we tell the tales we love to hear and repeat all share certain features which reach out across boundaries of time and space thus bridging the gap between people and places Living in today s globalized world there is a need to study literature in a broader perspective and to be aware that though stories may be rooted in a particular time and place they are still a part of the world heritage and comprise what is called world literature The book will be of particular interest to scholars studying the art of storytelling as well as the lay reader passionate about literature
