My Favorite Things Richard Rodgers, Oscar Hammerstein II, 2001-05-22 Raindrops on roses and whiskers on kittens
Bright copper kettles and warm woolen mittens
My Favorite Things Rodgers and Hammerstein's beloved song from *The Sound of Music* has captured the hearts of children young and old for generations Its magical images cream colored ponies and girls in white dresses paired with its lilting rhyme never fail to delight Now acclaimed illustrator Renee Graef gives this classic song new meaning with heartwarming full color illustrations Of a loving family and their life throughout the course of a year Complete with the score of the song *My Favorite Things* is both a wonderful book for families to share and a gorgeous keepsake to cherish

My Favorite Things Aarthi V Karanam, My favorite things in life don't cost any money It's really clear that the most precious resource we all have is time Steve Jobs It is often said that the best things in life are free I for one fully agree with the statement To me best does not imply the most beautiful or glamorous or the most indulgent or heavenly but it is those things which I held to be the most valuable and precious in my life Most people would choose to write about their role model usually their mother or the sunset or even the rain Some would write about food others about clothes

Intents and Purposes Eric Lewis, 2019-03-29 How do we define improvised music What is the relationship of highly improvised performances to the work they are performances of How do we decide what are the important parts of an improvised musical work In *Intents and Purposes* Eric Lewis uses a series of case studies to challenge assumptions about what defines a musical work and musical performance seeking to go beyond philosophical and aesthetic templates from Western classical music to foreground the distinctive practices and aesthetics of jazz Pushing aside the assumption that composition and improvisation are different or even opposed musical practices Lewis's philosophically informed approach revisits key topics in musical ontology such as how to define the triangle of composer performer listener and the status of live performances in relation to scores and recordings Drawing on critical race theory feminist theory new musicology sociology cognitive science and genre theory Lewis opens up new questions about agency in performance as well as new ways of considering the historical relationships between improvisational practices with roots in different cultural frameworks By showing how jazz can be both art idea and action all at the same time Lewis offers a new way of seeing any improvised musical performance in a new culturally and aesthetically rich context
