Managing the Modern Workplace Alan Booth,2017-05-15 A recurring theme in the history of modern Britain in the twentieth century has been the failure of its manufacturing industry and the record of disorder and conflict in the industrial workplace This image was reinforced by the evidence of national strikes from the 1960s until 1984 This emphasis on decline and disorder in British manufacturing has distorted our understanding of workplace relationships and cultures in the post war years This volume provides a fresh assessment of the diverse and complex world of the workplace and Britain s production cultures during the long boom Essays investigate the public and private sectors and both manufacturing and service industries The volume begins with a comparison of labour management in the post war automobile industry exploring the role of the foreman in the management of shop floor labour in Britain and the USA The following two essays are concerned with relations between management and workers in the publicly owned corporations The first examines negotiations over pay and effort at the Swindon locomotive works including the cultural values which informed the behaviour of the bargainers The second investigates managerial responses to technical change in the British gas industry We then move into the service sector with an essay on the management of clerical staff in banks including a discussion of the different roles available to male and female workers and the incorporation of automated technologies The final essay looks at the involvement of the unions in workplace productivity and the extent to which Labour politics informed union behaviour The essays in this volume shed new light on the reasons for Britain s economic performance and opens up earlier interpretations of national decline and adversarial workplace cultures for further debate **National Center for Productivity and**

Quality of Working Life National Center for Productivity and Quality of Working Life,1978 **Economic Policy** Jim Tomlinson,2004 Documentary focusing on the legendary Goodwood Motor Circuit a high speed track which started out as the perimeter of an RAF base during World War II The programme covers Goodwood s history from its creation through to the present day *Social Movements and the Change of Economic Elites in Europe after 1945* Stefan Berger,Marcel Boldorf,2018-05-29 This book explores the changing nature of social movements and economic elites in post Second World War Europe In the years following 1945 Europe faced diverse challenges connected by the overriding question of how the reconstruction of the continent should proceed For the Central Powers the implementation lay in the hands of the Allied occupying forces who organised the process of denazification and the establishment of a new economic order In countries without military occupation there was a deep gap between the new governmental forces and the former collaborators In both

cases social movements which were formed by anti fascists on the left of the political spectrum assumed the task of social reorganisation The chapters in this book explore the discourses about economic systems and their elites which moved to the fore across a range of European countries uncovering who was involved what resistance these social movements faced and how these ultimately failed in the West to bring about change while in Eastern Europe Stalinism forcibly imposed change

Labour Relations in a Changing Environment Alan Gladstone,Hoyt Wheeler,Jacques Rojot,François Eyraud,Ruth Ben-Israel,2015-03-30 No detailed description available for Labour Relations in a Changing Environment **The Fawley Productivity Agreement; a Case Study of Management and Collective Bargaining** Flanders, Allen,1964 A History of British Trade Unionism 1700-1998 W. The Politics of Bargaining Jeremy Waddington,2013-12-02 Tracing developments in British trade union structure over almost 100 years with specific reference to the merger process this book shows how the underlying processes of change are cyclical It therefore provides a backdrop for understanding some of the options for structural change that may be adopted by trade unions in the future Establishing a framework within which the historical development of the merger process may be understood the book identifies three central sets of relationships the bargaining position of unions relative to employers and the state the bargaining position of a union relative to competitor unions and factional bargaining within unions Collectively the three relationships are referred to as the politics of bargaining and are used to explain changes in the rate and character of trade union structural development **Experimenting with Organizational Life** Alfred W. Clark,2012-12-06 The notion of preparing Experimenting with Organizational Life developed among members of the Human Resources Centre at the Tavistock Institute of Human Relations It arose from their concern that the learning from field en gagements should be reported and passed on systematically A series of internal seminars was started and Robert Rapoport made a presentation on behalf of the group to a conference arranged by the United Kingdom Social Science Research Council in 1970 At first it was intended that only work directly connected with the Tavistock Institute should be included Gradually it became apparent that the book would be strengthened by drawing on the work of people outside the Institute In editing the contributions I am especially indebted to my colleague P Michael Foster convener of the Human Resources Centre for his unwavering support I would also like to thank the authors and all those who contributed their ideas and thoughts In the drive to unify the book they have cheerfully en dured my editorial changes Hidden contributors to the book are members of the various client systems who granted privileged access to information and settings Special thanks are due to Nicola Lacy Scott who has acted as subeditor encour aging me when my spirits dropped and pressing for clarity of ideas and expres sion The secretarial burden

Proletarian China Ivan Franceschini, Christian Sorace, 2022-06-07 In 2021 the Chinese Communist Party celebrated a century of existence Since the Party s humble beginnings in the Marxist groups of the Republican era to its current global ambitions one thing has not changed for China s leaders their claim to represent the vanguard of the Chinese working class Spanning from the night classes for workers organised by student activists in Beijing in the 1910s to the labour struggles during the 1920s and 1930s from the turmoil of the Cultural Revolution to the social convulsions of the reform era to China s global push today this book reconstructs the contentious history of labour in China from the early twentieth century to this day and beyond This will be achieved through a series of essays penned by scholars in the field of Chinese society politics and culture each one of which will revolve around a specific historical event in a mosaic of different voices perspectives and interpretations of what constituted the experience of being a worker in China in the past century Contributors Corey Byrnes Craig A Smith Xu Guoqi Zhou Ruixue Lin Chun Elizabeth J Perry Tony Saich Wang Kan Gail Hershatter Apo Leong S A Smith Alexander F Day Yige Dong Seung Joon Lee Lu Yan Joshua Howard Bo renlund Srensen Brian DeMare Emily Honig Po chien Chen Yi hung Liu Jake Werner Malcolm Thompson Robert Cliver Mark W Frazier John Williams Christian Sorace Zhu Ruiyi Ivan Franceschini Chen Feng Ben Kindler Jane Hayward Tim Wright Koji Hirata Jacob Eyferth Aminda Smith Fabio Lanza Ralph Litzinger Jonathan Unger Covell F Meyskens Maggie Clinton Patricia M Thornton Ray Yep Andrea Piazzaroli Longobardi Joel Andreas Matt Galway Michel Bonnin A C Baecker Mary Ann O Donnell Tiantian Zheng Jeanne L Wilson Ming sho Ho Yueran Zhang Anita Chan Sarah Biddulph Jude Howell William Hurst Dorothy J Solinger Ching Kwan Lee Chlo

Cronin, 2024-11-01 This title was first published in 2001 Nineteenth century employers played a crucial role in the training and education of young workers in England This multi disciplinary study traces the connection between problems of technical education development and the increasingly antagonistic relations with skilled workers culminating in the Great Strike and Lockout of 1897 Cronin demonstrates that employers dominated by economic short termism extended their hegemony beyond the boundaries of the factory gates Their reluctance to endorse and sponsor technical education radically influenced the perception of technical education held by government and local authorities *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index **Ethical Socialism and the Trade Unions** John Kelly, 2010-06-26 Allan Flanders was one of the leading British industrial relations academics and his ideas exerted a major influence on government labor policy in the 1960s and 1970s But as well as being an Oxford academic with a strong interest in theory and labor reform he was also a lifelong political activist Originally trained in German revolutionary ethical socialism in the early 1930s he was the founder and joint editor of *Socialist Commentary* the leading outlet for revisionist social democratic thinking in Britain in the 1950s and 1960s He was also the leading figure in the influential 1950s think tank *Socialist Union* and played a key part in the bitter factional struggles inside the Labour Party The main argument of the book is that Flanders ethical socialist ideas constituted both his strength and his weakness Their rigor clarity and sweep enabled him to exert a major influence over government attempts to negotiate labor reforms with the trade unions Yet he proved unable to explain the failure of the reforms amidst rising levels of industrial conflict as his intellectual rigor turned into ideological rigidity The failure of negotiated reform led to Margaret Thatcher's neo liberal assault on trade union power in the 1980s **UNITE History Volume 4 (1960-1974)** John Foster, 2022-10-15 Sold as a multi volume set the individual volumes are also available for purchase The fourteen years between 1960 and 1974 saw the trade union and labour movement transformed In 1959 Labour had been beaten at the polls for the third successive time with political commentators claiming that class politics in Britain were dead By 1974 a mobilised trade union movement had forced a Conservative government from office compelled the abandonment of its anti trade union legislation released imprisoned dockers from Pentonville prison and twice provided the miners with the solidarity required for victory The climax in 1974 was Labour victory in the 1974 general election with a programme calling for an irreversible shift of wealth and power in favour of working people This volume of the TGWU's centenary history documents the role of Britain's biggest

union in this transformation Two remarkable general secretaries Frank Cousins and Jack Jones provided leadership However it was the TGWU s members who achieved it the women and men in the factories transport depots and docks who forged the new class unity The book records their voices It brings together their struggles from Clydeside Dublin and Belfast to Longbridge Dagenham and Heathrow and it does so with a wealth of new material revealing the tactics of government and employers and the complexity of the struggles for sex equality and against racial discrimination that helped cement the new class unity
