The End of Night Paul Bogard, 2013-07-09 A deeply panoramic tour of the night from its brightest spots to the darkest skies we have left. A starry night is one of nature's most magical wonders. Yet in our artificially lit world, three quarters of Americans' eyes never switch to night vision, and most of us no longer experience true darkness. In *The End of Night*, Paul Bogard restores our awareness of the spectacularly primal, wildly dark night sky and how it has influenced the human experience across everything from science to art. From Las Vegas Luxor Beam, the brightest single spot on this planet, to nights so starlit the sky looks like snow, Bogard blends personal narrative, natural history, science, and history to shed light on the importance of darkness: what we've lost, what we still have, and what we might regain, and the simple ways we can reduce the brightness of our nights tonight.

Dark Places Barry Curtis, 2009-02-15 Horror films revel in taking viewers into shadowy places where the evil resides, whether it is a house, a graveyard, or a dark forest. These mysterious spaces foment the terror at the heart of horror movies, empowering the ghastly creatures that emerge to kill and torment. With *Dark Places*, Barry Curtis leads us deep inside these haunted spaces to explore them and the monstrous antagonists who dwell there. In this wide-ranging and compelling study, Curtis demonstrates how the claustrophobic interiors of haunted spaces in films connect to the dark places of the human psyche. He examines diverse topics such as the special effects ranging from crude to state-of-the-art used in movies to evoke supernatural creatures, the structures, projections, and architecture of horror movie sets, and ghosts as symbols of loss, amnesia, injustice, and vengeance. *Dark Places* also examines the reconfiguration of the haunted house in film as a motel, an apartment, a road, or a spaceship, and how these reimagined spaces thematically connect to Gothic fictions. Curtis draws his examples from numerous iconic films, including *Nosferatu*, *Psycho*, *The Texas Chainsaw Massacre*, and *The Shining*, as well as lesser-known international works which allow him to consider different cultural ideas of haunting. Japanese horror films and their Hollywood remakes such as *Ringu* and *The Ring*, or *Ju-on* and *The Grudge*, come under particular scrutiny as he explores Japanese cinema's preoccupation with malevolent forces from the past. Whether you

love the splatter of blood or prefer to hide under the couch Dark Places cuts to the heart of why we are drawn to carnage
