Fear Of Food Environmentalist Scams Media Mendacity And The Law Of Disparagement:

Fear of Food Andrea Arnold,1990 Tells the story of how a campaign against the use of Alar devastated apple growers from New York to Washington State Explains the basics behind the Alar scare what the science of toxicology is all about and an outline of U S pesticide law Tells about the law of product disparagement rules that protect against false statements that harm the market for a product and the need for tougher standards of truth in consumerism **Environmental Skepticism** Peter J. Jacques,2016-05-06 Environmental skepticism describes the viewpoint that major environmental problems are either unreal or unimportant In other words environmental skepticism holds that environmental problems especially global ones are inauthentic Peter Jacques describes both empirically and historically how environmental skepticism has been organized by mostly US based conservative think tanks as an anti environmental counter movement This is the first book to analyze the importance of the US conservative counter movement in world politics and its meaning for democratic and accountable deliberation as well as its importance as a mal adaptive project that hinders the world s people to rise to the challenges of sustainability Specific consideration is given to the threat of the counter movement to marginalized people of the world and its philosophical implications through its commitment to a deep anthropocentrism **War Against the Greens** David Helvarg,2004-05-15 A reign of violence and intimidation including arson bombings rape assault and even murder has been unleashed against environmental activists and government employees by proponents of the so called Wise Use movement The War Against the Greens rips the veneer of legitimacy off this right wing backlash that stretches from armed Militias to the halls of Congress exposing the public lands corporations political operatives and fringe groups who have set out to destroy America s environmental protections by any means necessary In this updated edition Helvarg revealed how the petroleum heavy George W Bush administration helped expand the backlash bringing the same individuals and industries into alliance with big oil and the Republican Party ending an era of bipartisan progress This is a must read for anyone wanting to understand the history behind the science denial corruption and public lands debacles that mark the Trump era

Bitter Harvest Ann Cooper,Lisa M. Holmes,2013-12-16 The history of food is not as straightforward as it may seem Food isn t just food It is ritual tradition and memory So begins Ann Cooper s groundbreaking new book on the history of sustenance Cooper a renowned chef and graduate of New York s famed Culinary Institute of America expertly guides us from the roots of agriculture in North America through the profound changes initiated by the Industrial Revolution all the way up to the present day offering analyses of recent controversies such as Europe s campaign against Frankenstein food and the genetic engineering of plants and animals in the United States Throughout Cooper takes both a macro and micro approach examining the effect politics technology war international trade and agribusiness have had on the world s food supply as well as the changing social patterns which have made a family meal at the table almost a relic of the past Did you know 80% of chicken has salmonella By the year 2010 95 percent of items bought at the grocery store may be consumed within 20 minutes

of getting them home Cancer researchers believe that over one third of all future cancers will be diet related roughly the same proportion now attributable to smoking *Passionate* political informed and engaging *Bitter Harvest* is filled with fascinating facts and anecdotes Cooper offers a comprehensive analysis of the issue of sustainability arguing persuasively why we must begin to change everything from the way food is shipped to the basic components of our diets Touching on virtually every aspect of the food culture *Bitter Harvest* is a vibrant example of the emergence of the chef as a political voice to be reckoned with A food manifesto for the new millennium it is a must read for anyone concerned with health nutrition and the future of our planet You will never look at your dinner plate in quite the same way again **Trashing the Economy**
