The Archaeology of Mind: Neuroevolutionary Origins of Human Emotions (Norton Series on Interpersonal Neurobiology) Jaak Panksepp, Lucy Biven, 2012-09-17 What makes us happy What makes us sad How do we come to feel a sense of enthusiasm What fills us with lust anger fear or tenderness Traditional behavioral and cognitive neuroscience have yet to provide satisfactory answers The Archaeology of Mind presents an affective neuroscience approach which takes into consideration basic mental processes brain functions and emotional behaviors that all mammals share to locate the neural mechanisms of emotional expression It reveals for the first time the deep neural sources of our values and basic emotional feelings This book elaborates on the seven emotional systems that explain how we live and behave These systems originate in deep areas of the brain that are remarkably similar across all mammalian species When they are disrupted we find the origins of emotional disorders SEEKING how the brain generates a euphoric and expectant response FEAR how the brain responds to the threat of physical danger and death RAGE sources of irritation and fury in the brain LUST how sexual desire and attachments are elaborated in the brain CARE sources of maternal nurturance GRIEF sources of non sexual attachments PLAY how the brain generates joyous rough and tumble interactions SELF a hypothesis explaining how affects might be elaborated in the brain The book offers an evidence based evolutionary taxonomy of emotions and affects and as such a brand new clinical paradigm for treating psychiatric disorders in clinical practice Chrétien De Troyes in Prose Chrétien (de Troyes), Bibliothèque royale de Belgique, 2011 First English translations of later adaptations of Chrétien's romances a vital source for the development of Arthurian romance In the middle of the fifteenth century two anonymous writers translated into prose Chrétien de Troyes's first verse romances Erec and Cligès dating from the twelfth century for the circle of Philip the Good duke of Burgundy For a long time unfairly dismissed as trite and slavish renderings of Chrétien's masterful narratives the prose Erec and Cligès actually merit careful study in their own right for these Middle French reworkings adapt the earlier romances to fit the interests of the fifteenth century public The authors updated not only the language but also the

descriptions of chivalric exploits, tournaments and siege warfare; furthermore they showed real ingenuity in the way they modified the story line, clarifying motivation, rescripting characters and shortening many of the descriptions. The romances offer valuable insights into the evolution of Arthurian romance, the history of reception of Chrétien's work and the mentality and culture of one of the most remarkable courts to flourish in the late middle ages. This volume presents the first English prose translations of the writings, accompanied by an introduction presenting the historical, cultural and literary context and notes.

The Bible is full of fascinating, powerful and faithful women, as well as lessons that have unique meaning for women today.
