**Spiritual Aeneid** Ronald Arbuthnott Knox,1918 This book is a religious autobiography The matter of it is not original and I thank God the conclusion of it is not original either But so long as minds differ there must always be some difference in the most hackneyed of pilgrimages as the pilgrims compare notes at the Confessio I have tried to avoid all references that could be damaging to anybody but myself if and where I have failed I must take this opportunity to ask forgiveness The publishing of autobiographies by the obscure is always in any case a target for criticism but even obscure things have an interest let us call it an autobiography And before you say self advertisement think what a bad advertisement In explanation of the Aeneid motif which runs through the chapter headings and parts of the book I had perhaps better give the obvious set of symbols Troy is undisturbed and in a sense unreflective religion in most lives it is overthrown either to be rebuilt or to be replaced The Greeks are the doubts that overthrow it The miniature Troy of Helenus is the effort to reconstruct that religion exactly as it was Carthage is any false goal that for a time seems to claim finality And Rome is Rome     **International Handbook of**

**the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza,Gloria Durka,Kathleen Engebretson,Robert Jackson,Andrew McGrady,2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world
