Of Relations and the Dead Cecile Barraud, Daniel de Coppet, Andre Iteanu, Raymond Jamous, 2020-09-13 Exchanges are fundamental to human societies The authors show that the study of exchanges not only serves as a key to understanding particular societies as totalities but also helps to frame a comparative mode of analysis expressed in terms of a hierarchy of values Starting with a comparative analysis of the different vocabularies used when dealing with exchange the authors go on to provide a detailed account of how each society's exchanges form a genuine value oriented system Their conclusions shed light on important issues in anthropology such as the difference between subject and object the construction of the person in the matrix of social relations and the contrast

between socio cosmic systems and other societies which recognize a universal term of reference beyond their community

Cosmos and Society in Oceania Daniel de Coppet, Andre Iteanu, 2024-11-01 Current anthropology uses expressions such as society as a whole socio cosmic relations spatiotemporal extension global ideology and cosmomorphology to establish that the clear cut Western dichotomy between society and cosmos is not always to be found in the communities it studies In fact many elements that the West would at first undoubtedly classify as belonging either to the cosmos or to the society appear very often in Melanesia as belonging to neither one of these domains but to a realm which combines the attributes of both Focusing on different examples drawn from diverse Melanesian societies this thought provoking volume by eminent specialists re examines the relationship between society and cosmos and in the process opens new directions for research

MacDonald, 2014-11-05 These two volumes of The New Testament and Greek Literature are the magnum opus of biblical scholar Dennis R MacDonald outlining the profound connections between the New Testament and classical Greek poetry MacDonald argues that the Gospel writers borrowed from established literary sources to create stories about Jesus that readers of the day would find convincing In Luke and Vergil MacDonald proposes that the author of Luke Acts followed Mark's lead in imitating Homer's Iliad and Odyssey but greatly expanded his project especially in the Acts but adding imitations not only of the epics but also of Euripides Bacchae and Plato's Socratic dialogues The potential imitations include spectacular miracles official resistance epiphanies prison breaks and more The book applies mimesis criticism and uses side by side comparisons to show how early Christian authors portrayed the origins of Christianity as more compelling than the Augustan Golden Age **The Complete Tragedies, Volume 2** Lucius Annaeus Seneca, 2022-06-24 The second of two volumes collecting the complete tragedies of Seneca Edited by world renowned classicists Elizabeth Asmis Shadi Bartsch and Martha C Nussbaum the Complete Works of Lucius Annaeus Seneca offers authoritative modern English translations of the writings of the Stoic philosopher and playwright 4 BCE 65 CE The two volumes of The Complete Tragedies presents all of his dramas expertly rendered by preeminent scholars and translators The first volume contains Medea The Phoenician Women Phaedra The Trojan Women and Octavia the last of which was written in emulation of Senecan tragedies and serves as a unique example of political tragedy This second volume includes Oedipus Hercules Mad Hercules on Oeta Thyestes and Agamemnon High standards of accuracy clarity and style are maintained throughout the translations which render Seneca into verse with as close a correspondence line for line to the
