The Book of the Instructions Kisari Mohan Ganguli,2025-07-10 Reprint of the original first published in 1883 1896 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *In a Dark Wood* Alston Chase,2017-07-12 *In a Dark Wood* presents a history of debates among ecologists over what constitutes good forestry and a critique of the ecological reasoning behind contemporary strategies of preservation including the Endangered Species Act Chase argues that these strategies in many instances adopted for political rather than scientific reasons fail to promote biological diversity and may actually harm more creatures than they help At the same time Chase offers examples of conservation strategies that work but which are deemed politically incorrect and ignored *In a Dark Wood* provides the most thoughtful and complete account yet written of radical environmentalism And it challenges the fundamental but largely unexamined assumptions of preservationism such as those concerning whether there is a balance of nature whether all branches of ecology are really science and whether ecosystems exist In his new introduction Chase evaluates the response to his book and reports on recent developments in environmental science policy and politics *In a Dark Wood* was judged by a recent national poll to be one of the one hundred best nonfiction books written in the English language during the twentieth century A smashing good read this book will be of interest to environmentalists ecologists philosophers biologists and bio ethicists and anyone concerned about ecological issues *The Shortest History of the Dinosaurs* Riley Black,2025-06-10 A highlight reel history of the dinosaurs told like never before bringing their world to vivid life in a paleontological detective story *The Shortest History of the Dinosaurs* tells the 230 million year epic of these staggeringly fascinating prehistoric creatures covering their small beginnings spectacular golden periods and stunning evolutionary success before an unthinkable asteroid event brought everything to a screeching halt But this history digs deeper using numerous recent fossil discoveries and fresh understandings of genetics and evolution to show how we ve gleaned so much about a long lost world from mere fragments of fossil Marshaling the evidence award winning author Riley Black reveals the startling relationships that dinosaurs shared with one another the land they lived on and other animal species By conjuring a more complete picture of Earth in the age of the dinosaurs she shows us how these massive monsters

owe their rise to luck as much as to their cunning and the many surprising ways they left an indelible mark on their dramatically changing world The Shortest History books deliver thousands of years of history in one riveting fast paced read
