Everyday Law for Individuals with Disabilities Ruth Colker, Adam A. Milani, 2015-11-17 If you are an individual with a disability and believe you have been discriminated against it is often hard to find a lawyer to help remedy your situation Accordingly self help may often be your most or your only viable strategy But how to proceed This book serves as a badly needed practical guide to disability discrimination law Covering a wide range of issues faced by individuals with different kinds of disabilities it not only describes those individuals legal rights but also suggests solutions to disability discrimination issues that are more practical and less expensive than filing a lawsuit Written by two disability law experts Ruth Colker whose son is developmentally disabled and Adam Milani who is paralyzed from the chest down this book is informed by their scholarly expertise but is also based on their collective practical experience from years of navigating issues of disability discrimination Everyday Law for Individuals with Disabilities is the first in a series of practical guides to the law organized by series editors Richard Delgado and Jean Stephancic packed with useful overviews and advice for the people who need it most and can least afford it

Philosophical Reflections on Disability D. Christopher Ralston, Justin Ho, 2009-09-19 This project draws together the diverse strands of the debate regarding disability in a way never before combined in a single volume After providing a representative sampling of competing philosophical approaches to the conceptualization of disability as such the volume goes on to address such themes as the complex interplay between

disability and quality of life questions of social justice as it relates to disability and the personal dimensions of the disability experience By explicitly locating the discussion of various applied ethical questions within the broader theoretical context of how disability is best conceptualized the volume seeks to bridge the gap between abstract philosophical musings about the nature of disease illness and disability found in much of the philosophy of medicine literature on the one hand and the comparatively concrete but less philosophical discourse frequently encountered in much of the disability studies literature It also critically examines various claims advanced by disability advocates as well as those of their critics In bringing together leading scholars in the fields of moral theory bioethics and disability studies this volume makes a unique contribution to the scholarly literature while also offering a valuable resource to instructors and students interested in a text that critically examines and assesses various approaches to some of the most vexing problems in contemporary social and political philosophy

Backlash Against the ADA Linda Hamilton Krieger, 2010-02-22 For civil rights lawyers who toiled through the 1980s in the increasingly barren fields of race and sex discrimination law the approval of the Americans with Disabilities Act in 1990 by a nearly unanimous U S House and Senate and a Republican President seemed almost fantastic Within five years of the Act's effective date however observers were warning of an unfolding assault on the ADA by federal judges the media and other national opinion makers A year after the Supreme Court issued a trio of decisions in the summer of 1999 sharply limiting the ADA's reach another decision invalidated an entire title of the act as it applied to the states By this time disability activists and disability rights lawyers were speaking openly of a backlash against the ADA What happened why did it happen and what can we learn from the patterns of public media and judicial response to the ADA that emerged in the 1990s In this book a distinguished group of disability activists disability rights lawyers social scientists and humanities scholars grapple with these questions Taken together these essays construct and illustrate a new and powerful theoretical model of sociolegal change and retrenchment that can inform both the conceptual and theoretical work of scholars and the day to day practice of social justice activists Contributors include Lennard J Davis Matthew Diller Harlan Hahn Linda Hamilton Krieger Vicki A Laden Stephen L Percy Marta Russell and Gregory Schwartz *Backlash Against the ADA* will interest disability rights activists lawyers law students and legal scholars interested in social justice and social change movements and students and scholars in disability studies political science media studies American studies social movement theory and legal history Linda Hamilton Krieger is Professor of Law University of California School of Law Berkeley
