Federal Constitutions And International Relations:

Federal Constitutions and International Relations John Trone, 2001 A comprehensive analysis of one of the most politically controversial issues in Australian law the implementation of treaties by the federal government Unique in Australian books on legal issues this rigorous analysis of constitutional law examines relevant cases and legislation from Australia Canada the USA Germany Switzerland Austria Malaysia and India Including a comprehensive list of cases and a full index this book will be of exceptional interest to practitioners teachers and students of constitutional and international law

Foreign Relations in Federal Countries Hans Michelmann, 2009-01-28 Foreign Relations in Federal Countries addresses questions such as What constitutional powers do the federal governments and constituent states have to conduct foreign affairs To what degree are relations between orders of government regularized by formal agreement or informal practice What roles do constituent governments have in negotiation and implementation of international treaties The volume offers a comparative perspective on the conduct of foreign relations in twelve federal countries Argentina Australia Austria Belgium Canada Germany India Malaysia South Africa Spain Switzerland and the United States

The International Relations of California and Texas with Mexico and the World Jorge A. Schiavon, Rafael Fernández de Castro, 2023-05-31 This book analyzes the international relations of Mexico and the two most important sub state governments of the United States California and Texas It explains why and how these two states conduct their international relations IR with Mexico and the world and how national authorities and local governments coordinate in the definition and implementation of their international policies Expert contributors from across the Americas offer a historical and current analysis exploring which areas of cooperation trade investment border cooperation energy migration matter most They also consider the institutional and legal bases of Mexican and U S states international relations the changing nature of the U S federal system the impact on international partners the role of Latinos and the future of paradiplomacy in the region The book will be of interest to scholars and students of International Relations comparative politics diplomacy foreign policy governance and federalism as well as business people social leaders and practitioners of diplomacy and paradiplomacy around the world

Africa's International Relations in a Globalising World Usman A. Tar, Sharkdam Wapmuk, 2022-10-26 Since its emergence in 1960 as an independent state Nigeria has stood out as the most populous Black country in the world In Africa s International Relations in a Globalising World Perspectives on Nigerian Foreign Policy at Sixty and Beyond edited by Usman A Tar and Sharkdam Wapmuk contributors examine Nigeria s role within Africa as well as internationally This book shows how Nigeria has used the platforms of international organisations to advance its interests while fulfilling its regional and global obligations The contributors address areas such as Nigeria s economic development and policies Nigeria s relationship with other countries and the urgent challenge of countering terrorism in the context of ensuring sustainable development The COVID 19 pandemic brought to the fore the need for strong global relations and reminded humanity of the importance of

multilateral solutions to global problems such as health The editors and contributors address essential questions such as how well has Nigerian foreign policy and its practice of diplomacy served national interest and what more needs to be done to assure of better results now and into the future Theory and Practice of Paradiplomacy Alexander S Kuznetsov,2014-10-17 This book examines and systematises the theoretical dimensions of paradiplomacy the role of subnational governments in international relations Throughout the world subnational governments play an active role in international relations by participating in international trade cultural missions and diplomatic relations with foreign powers These governments including states in the USA and landers in Germany can sometimes even challenge the official foreign policy of their national government These activities which are regularly promoting the subnational government s interests have been labelled as paradiplomacy Through a systematisation of the different approaches in understanding constituent diplomacy the author constructs an integrative theoretical explanatory framework to guide research on regional governments involvement in international affairs The framework is based on a multiple response questionnaire technique MRQ which provides the matrix of possible answers on a set of key questions for paradiplomacy scholarship This comprehensive analysis of the phenomenon of paradiplomacy sheds light on the development of federalism and multi level governance in a new global environment and contributes to the debates on the issue of actorness in contemporary international affairs This book will be of much interest to students of diplomacy federalism governance foreign policy and IR as well as practitioners of diplomacy *The Palgrave Handbook of Canada in International Affairs* Robert W. Murray,Paul Gecelovsky,2021-04-29 This book argues that Canada and its international policies are at a crossroads as US hegemony is increasingly challenged and a new international order is emerging The contributors look at how Canada has been adjusting to this new environment and resetting priorities to meet its international policy objectives in a number of different fields from the alignment of domestic politics along new foreign policies to reshaping its international identity in a post Anglo order its relationship with international organizations such as the UN and NATO place among middle powers management of peace operations and defense role in G7 and G20 climate change and Arctic policy development and relations with the Global South Embracing multilateralism has been and will continue to be key to Canada s repositioning and its ability to maintain its position in this new world order This book takes a comprehensive look at Canada s role in the world and the various political and policy variables that will impact Canada s foreign policy decisions into the future Chapter 22 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) Droit Et Politique Étrangère European Commission for Democracy through Law,Council of Europe,1998-01-01 **Constitutional Functions and Constitutional Problems of International Economic Law** Ernst-Ulrich Petersmann,2019-03-04 This book analyzes in four parts constitutional problems of foreign trade policy and foreign trade law in constitutional democracies which protect fundamental human rights and effective political equality through constitutional restraints on the exercise of all government powers Constitutional Comparison

François Venter, 2021-07-26 In our globalized era it has become impossible to deal effectively with constitutional law and related subjects such as fundamental rights administrative law and political science without knowledge of foreign systems A wealth of literature is available on practically all constitutional systems and the intricacies of their application This however presents the constitutionalist with a formidable problem Which foreign systems should I explore in order to make relevant comparisons and how should I go about it This book addresses the core problems of comparability and appropriate comparative methodology in the realm of contemporary constitutionalism The outcome is however not mere theorizing Most of the text is devoted to an incisive application of the chosen comparative method to four geographically historically and culturally divergent but thoroughly comparable constitutional systems In the course of the comparative exercise contemporary constitutional dogma and constitutional mechanics are analyzed and explained in many instances in their historical contexts making the book itself a useful source of comparative and historical information **German**

Constitutional Law Christian Bumke, Andreas Voskuhle, 2019 This revised English version of the seventh edition of the Casebook Verfassungsrecht includes a new outline of the German constitution the BVerfG Court and its jurisprudence It condenses more than six decades of constitutional jurisprudence in order to familiarize readers with the style technique and language of the Court The Creation of States in International Law James Crawford, 2006 Statehood in the early 21st

century remains as much a central problem now as it was in 1979 when the first edition of The Creation of States in International Law was published As Rhodesia Namibia the South African Homelands and Taiwan then were subjects of acute concern today governments international organizations and other institutions are seized of such matters as the membership of Cyprus in the European Union application of the Geneva Conventions to Afghanistan a final settlement for Kosovo and still relations between China and Taiwan All of these and many other disputed situations are inseparable from the nature of statehood and its application in practice The remarkable increase in the number of States in the 20th century did not abate in the twenty five years following publication of James Crawford s landmark study which was awarded the American Society of International Law Prize for Creative Scholarship in 1981 The independence of many small territories comprising the residue of the European colonial empires alone accounts for a major increase in States since 1979 while the disintegration of Yugoslavia and the USSR in the early 1990s further augmented the ranks With these developments the practice of States and international organizations has developed by substantial measure in respect of self determination secession succession recognition de colonization and several other fields Addressing such questions as the unification of Germany the status of Israel and Palestine and the continuing pressure from non State groups to attain statehood even in cases like Chechnya or Tibet against the presumptive rights of existing States James Crawford discusses the relation between statehood and recognition the criteria for statehood especially in view of evolving standards of democracy and human rights and the application of such criteria in international organizations and between states Also discussed are the mechanisms by which

states have been created including devolution and secession international disposition by major powers or international organizations and the institutions established for Mandated Trust and Non Self Governing Territories Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states

APAIS 1994: Australian public affairs information service , *The Law of International Relations* August Reinisch, Ursula Kriebaum, 2007 This Liber Amicorum was written by prominent colleagues and friends of Professor Hanspeter Neuhold in honor of his 65th birthday The collection celebrates his lifelong career devoted to bridging the gap between international relations and public international law Contributions cover the fields of international relations international law human rights international organizations and the law of economic integration Without a doubt this is not only a fine tribute to Hanspeter Neuhold but is also a welcome addition to every international law and international relations library

Festschrift für Karl Loewenstein Henry Steele Commager, 1971 Constructivism in International Relations Maja Zehfuss, 2002-07-25 Maja Zehfuss book offers a fundamental critique of constructivism focusing on the work of Wendt Onuf and Kratochwil Using Germany's shift towards participation in international military operations as an illustration she demonstrates why each version of constructivism fails in its own project and comes apart on the basis of its own assumptions Inspired by Derridean thought this book highlights the political consequences of constructivist representations of reality Each critique concludes that constructivist notions of key concepts are impossible and that this is not merely a question of theoretical inconsistency but of politics The book is premised on the notion that the empirical and the theoretical are less separate than is acknowledged in international relations and must be read as intertwined Zehfuss examines the scholars role in international relations worrying that by looking to constructivism as the future they will be severely curtailing their ability to act responsibly in this area

Handbook of Canadian Foreign Policy Patrick James, Nelson Michaud, Marc O'Reilly, 2006-05-04 Handbook of Canadian Foreign Policy is the most comprehensive book of its kind offering an updated examination of Canada's international role some 15 years after the dismantling of the Berlin Wall ushered in a new era in world politics Tackling recent developments in Canadian foreign policy the authors of this work spotlight Canadian idiosyncrasies within a global context that are defined by wrenching juxtapositions The specialists who have contributed their expertise to this book provide sophisticated analysis conceptual as well as historical rather than simply impressionistic judgments about contemporary events Highlighting both well known and understudied topics this handbook presents a marriage of the familiar and the underappreciated that enables readers to grasp much of the complexity of current Canadian foreign policy and appreciate the challenges policymakers must meet in the early 21st century

Ethics, Liberalism and Realism in International Relations Mark D. Gismondi, 2007-09-17 This book explores the complex issue of international ethics in the two dominant schools of thought in international relations Liberalism and Realism Both theories suffer from an

inability to integrate the ethical and pragmatic dimensions of foreign policy Liberal policy makers often suffer from moral blindness and a tendency toward coercion in the international arena whilst realists tend to be epistemic sceptics incorporating Nietzsche s thought directly or indirectly into their theories Mark Gismondi seeks to resolve the issues in these two approaches by adopting a covenant based approach as described by Daniel Elazar s work on the covenant tradition in politics to international relations theory The covenant approach has three essential principles policy makers must have a sense of realism about the existence of evil and its political consequences power must be shared and limited liberty requires a basis in shared values Ethics Realism and Liberalism in International Relations will be of interest to students and researchers of politics philosophy ethics and international relations *Judicial Remedies in the European Communities* Henry Schermers,2013-11-11 Where rights are conferred and duties imposed where powers are exercised and obedience to rules of law required judicial remedies are an absolute necessity This statement was valid in 1969 when the first edition of this book appeared it is even more so now Though the political dynamism of the Communities has slackened the number and effect of their legal rules is still growing Practising lawyers need to be familiar with the possibilities for legal redress when rules of Community law are violated But interest in the judicial remedies available in the European Communities is not confined to them alone Many of the legal problems of the European Communities are problems which any supranational organization will encounter Any student of international institutional law will benefit from a study of the judicial remedies available in the European Communities Furthermore the subject forms a fascinating branch of comparative law Many of the solutions adopted in the European Communities can be regarded as resulting from a long development of administrative law

The United States and the Rule of Law in International Affairs John F. Murphy,2004-09-16 Publisher Description

International Crisis Management Marc Houben,2004-11-23 Over the past fifty years crisis management has become essential to achieving and maintaining national security This book offers a comparative analysis of the preconditions and constraints nine European states place on their participation in international crisis management operations and the important consequences of such decisions and provides a theoretical framework to help the reader understand this complex decision making process
