Federal Employees Almanac, 1999 Federal Emergency Management Agency,1999-01-01 **Calling the Shots** Daniel P. Gitterman,2017-02-14 Modern presidents are CEOs with broad powers over the federal government The United States Constitution lays out three hypothetically equal branches of government the executive the legislative and the judicial but over the years the president as head of the executive branch has emerged as the usually dominant political and administrative force at the federal level In fact Daniel Gitterman tells us the president is effectively the CEO of an enormous federal bureaucracy Using the unique legal authority delegated by thousands of laws the ability to issue executive orders and the capacity to shape how federal agencies write and enforce rules the president calls the shots as to how the government is run on a daily basis Modern presidents have for example used the power of the purchaser to require federal contractors to pay a minimum wage and to prohibit contracting with companies and contractors that knowingly employ unauthorized alien workers Presidents and their staffs use specific tools including executive orders and memoranda to agency heads as instruments of control and influence over the government and the private sector For more than a century they have used these tools without violating the separation of powers **Calling the Shots** demonstrates how each of these executive powers is a powerful weapon of coercion and redistribution in the president s political and policymaking arsenal **The Other Great Migration** Bernadette Pruitt,2013-10-16 The twentieth century has seen two great waves of African American migration from rural areas into the city changing not only the country s demographics but also black culture In her thorough study of migration to Houston Bernadette Pruitt portrays the move from rural to urban homes in Jim Crow Houston as a form of black activism and resistance to racism Between 1900 and 1950 nearly fifty thousand blacks left their rural communities and small towns in Texas and Louisiana for Houston Jim Crow proscription disfranchisement acts of violence and brutality and rural poverty pushed them from their homes the lure of social advancement and prosperity based on urban industrial development drew them Houston s close proximity to basic minerals innovations in transportation increased trade augmented economic revenue and industrial development prompted white families commercial businesses and industries near the Houston Ship Channel to recruit blacks and other immigrants to the city as domestic laborers and wage earners Using census data manuscript collections government records and oral history interviews Pruitt details who the migrants were why they embarked on their journeys to Houston the migration networks on which they relied the jobs they held the neighborhoods into which they settled the culture and institutions they transplanted into the city and the communities and people they transformed in Houston **Federal Employees Almanac 2000** ,2000 *The New York Times Almanac 2006* John W.
