Foreign Relations of the United States United States. Department of State, 1969 US Foreign Policy and the Gulf Wars Ahmed Ijaz Malik, 2014-12-09 The US led coalition which launched an invasion of Iraq on 20 March 2003 led to a decade long military presence in the country In the run up to that invasion many comparisons were made with the 1991 Gulf War Ahmed Ijaz Malik takes these two instances of military intervention by Republican US governments to highlight how the official discourse of leaders and decision makers has an impact on foreign policy and its results By taking these two examples he examines how discourse affects real events and the extent to which the legacy of the Cold War has influenced the decisions which are made at the upper echelons of the US government US Foreign Policy and the Gulf Wars critically analyses the post Cold War liberal cosmopolitan and realist discourses related to these two instances of US military intervention Using an approach which Malik labels critical realism this book examines the ways in which discourses often act as ideological covers for material interests whilst still not holding a deterministic view whereby these interests alone shape policies From this perspective this book assesses the themes of Just War humanitarianism and cosmopolitanism It furthermore uses the approach of critical realism to engage with a variety of arguments on the emerging role of the US as they were displayed in academic discourses and other intellectual contributions around each of the 1991 and 2003 wars

Malik relates these discussions to an analysis of the official discourses documents and policies displayed prior to the 1991 and 2003 wars as well as to an examination of the resulting actual conduct Since the implications of the US military presence in the Middle East are so central to the study of International Relations and Security Studies this book will be invaluable for specialists in these disciplines as well as for those interested in policy formation and the wider Middle East The Routledge Handbook of US Foreign Policy in the Indo-Pacific Oliver Turner, Nicola Nymalm, Wali Aslam, 2022-12-30 This handbook provides a comprehensive survey of US foreign policy throughout the Indo Pacific Home to around 60 percent of the world's population most of the world's largest and fastest growing economies around half of the world's states with full nuclear capabilities and a complicated web of unresolved tensions disputes and conflicts the Indo Pacific is arguably the most diverse dynamic and contested region on Earth US strategy there has evolved over centuries with its physical presence going broadly unchallenged since at least the middle of the last century However the rapid development and expanding influence of China alongside the growth of India Indonesia Vietnam the Philippines and others as well as political and economic crises and disruptions within the United States itself mean that in recent times the US has come to occupy a newly uncertain position and perceive a range of highly unfamiliar challenges To explore how the US has managed and continues to manage its regional history and how it approaches the modern day landscape of an Indo Pacific only recently normalised within international political discourse the book contains 33 newly commissioned chapters from leading experts in the field It does so partly with help from the more traditional realms of International Relations theory as well as more critical realms It also unpacks US policy and strategy as it pertains to regional governments states and multilateral institutions as well as to pressing issues including inter state security human rights trade artificial intelligence and cyber strategy It does so in four parts History of the US in the Indo Pacific Theorising US Policy and Presence in the Indo Pacific The US and Indo Pacific States and Institutions The US and Indo Pacific Issues The book is designed to be of interest to students and scholars of the US in the Indo Asia Pacific the international relations of the Indo Asia Pacific and US foreign policy
