Empire Paula M. Krebs,1999 All of London exploded on the night of May 18 1900 in the biggest West End party ever seen The mix of media manipulation patriotism and class race and gender politics that produced the spontaneous festivities of Mafeking Night begins this analysis of the cultural politics of late Victorian imperialism Paula M Krebs examines the last of the gentlemen s wars the Boer War of 1899 1902 and the struggles to maintain an imperialist hegemony in a twentieth century world through the war writings of Arthur Conan Doyle Olive Schreiner H Rider Haggard and Rudyard Kipling as well as contemporary journalism propaganda and other forms of public discourse Her feminist analysis of such matters as the sexual honor of the British soldier at war the deaths of thousands of women and children in concentration camps and new concepts of race in South Africa marks this book as a significant contribution to British imperial studies *Monster of the Twentieth Century* Robert Thomas Tierney,2015-06-09 This extended monograph examines the work of the radical journalist Kotoku Shusui and Japan s anti imperialist movement of the early twentieth century It includes the first English translation of *Imperialism* Teikokushugi Kotoku s classic 1901 work Kotoku Shusui was a Japanese socialist anarchist and critic of Japan s imperial expansionism who was executed in 1911 for his alleged participation in a plot to kill the emperor His *Imperialism* was one of the first systematic criticisms of imperialism published anywhere in the world In this seminal text Kotoku condemned global imperialism as the commandeering of politics by national elites and denounced patriotism and militarism as the principal causes of imperialism In addition to translating *Imperialism* Robert Tierney offers an in depth study of Kotoku s text and of the early anti imperialist movement he led Tierney places Kotoku s book within the broader context of

early twentieth century debates on the nature and causes of imperialism He also presents a detailed account of the different stages of the Japanese anti imperialist movement *Monster of the Twentieth Century* constitutes a major contribution to the intellectual history of modern Japan and to the comparative study of critiques of capitalism and colonialism **Marxian Economics** John Eatwell,Murray Milgate,Peter Newman,1990-02-23 This is an excerpt concentrating on Marxian economics from the 4 volume dictionary of economics a reference book which aims to define the subject of economics today 1300 subject entries in the complete work cover the broad themes of economic theory *International Relations: A European Perspective* Mario Telò,2016-04-22 *International Relations A European Perspective* presents the main schools of international relations while underlining the added value of the European approach Contrary to US or East Asian perspectives a European viewpoint adopts a critical approach to traditional cleavages The author demonstrates the added value of a European approach to international relations taking into account both the shortcomings and achievements found within European history and current European unity Key themes include the evolution of state sovereignty regional cooperation between previous enemies political impact of economic integration regimes building international rule setting institutionalization of international relations and the weight of ideas and perceptions by transnational cooperation This comprehensive assessment takes into consideration every school of international relations critically presented from this original perspective and as such makes the book ideal for courses on international relations *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1974 *Political Theory and International Relations* Charles R. Beitz,1999-07-01 In this revised edition of his 1979 classic *Political Theory and International Relations* Charles Beitz rejects two highly influential conceptions of international theory as empirically inaccurate and theoretically misleading In one international relations is a Hobbesian state of nature in which moral judgments are entirely inappropriate and in the other states are analogous to persons in domestic society in having rights of autonomy that insulate them from external moral assessment and political interference Beitz postulates that a theory of international politics should include a revised principle of state autonomy based on the justice of a state s domestic institutions and a principle of international distributive justice to establish a fair division of resources and wealth among persons situated in diverse national societies *Africa in the Colonial Ages of Empire* Tatah Mentan,2017-12-17 Words like colonialism and empire were once frowned upon in the U S and other Western mainstream media as worn out left wing rhetoric that didnt fit reality Not anymore Tatah Mentan observes that a growing chorus of right wing ideologues with close ties to the Western administrations war making hawks in NATO are encouraging Washington and the rest of Europe to take pride in the expansion of their power over people and nations around the globe Africa in the Colonial Ages of Empire is written from the perspective that the scholarly lives of academics researching on Africa are changing constantly in flux and increasingly bound to the demands of Western colonial imperialism This existential situation has forced the continent to morph into a tool in the hands of Colonial Empire According to Tatah Mentan the effects of this

existential situation of Africa compel serious academic scrutiny At the same time inquiry into the African predicament has been changing and evolving within and against the rhythms of this new normal of Colonial Empire Old or New The author insists that the long and bloody history of imperial conquest that began with the dawn of capitalism needs critical scholarly examination As Marx wrote in Capital The discovery of gold and silver in America the extirpation enslavement and entombment in mines of the aboriginal population the beginning of the conquest and looting of the East Indies the turning of Africa into a warren for the commercial hunting of black skins signaled the rosy dawn of the era of capitalist production These idyllic proceedings are the chief moment of primitive accumulation Africa in the Colonial Ages of Empire is therefore a MUST READ for faculty students as well as policy makers alike in the changing dynamics of their profession be it theoretically methodologically or structurally and materially
