Economic Regulation of Domestic Air Transport George Warren Douglas, James Clifford Miller, 1974 Monograph on transport policy in the USA in respect of air transport and the regulation of commercial passenger airlines presents an economic model of airline competition and covers the impact of regulation on price structures costs and efficiency etc References and statistical tables

The Economic Effects of Airline Deregulation Steven Morrison, Clifford Winston, 2010-12-01 In 1938 the U S Government took under its wing an infant airline industry Government agencies assumed responsibility not only for airline safety but for setting fares and determining how individual markets would be served Forty years later the Airline Deregulation Act of 1978 set in motion the economic deregulation of the industry and opened it to market competition This study by Steven Morrison and Clifford Winston analyzes the effects of deregulation on both travelers and the airline industry The authors find that lower fares and better service have netted travelers some 6 billion in annual benefits while airline earnings have increased by 2.5 billion a year Morrison and Winston expect still greater benefits once the industry has had time to adjust its capital structure to the unregulated marketplace and they recommend specific public policies to ensure healthy competition

The Geographies of Air Transport Andrew R. Goetz, Lucy Budd, 2016-03-09 Making a detailed contribution to geographies of air transport and aeromobility this book examines the practices and processes that produce particular patterns of air transport provision both regionally and globally In so doing it updates the seminal contributions of Eva Taylor 1945 Kenneth Sealy 1957 Brian Graham 1995 and others to the study of air transport geography Leading scholars in the field offer a unique insight into the key developments that have occurred in the field and the implications that these developments have had for geography geographers and global patterns of past present and future air transport Although globalization and liberalization processes have greatly expanded the demand for air transport over the last two decades the industry has experienced several major setbacks due to economic security and environmental concerns Many of these impacts have been much more pronounced in some regions such as North America and Europe while others such as Asia Pacific have not been as adversely affected Accordingly there is a clear need to examine these recent economic and geopolitical changes from a geographical perspective given the differentiated pattern of effects from global processes Addressing this need this volume opens with thematic chapters covering key topics such as the historical geographies socio cultural mobilities environmental externalities urban geographies and sustainability of the global air transport industry followed by regional analysis of the industry in Asia Pacific Latin America Greater Middle

East and Africa as well as North America and Europe *Airline Deregulation* Kenneth Button, 2017-04-21 The end of the twentieth century saw remarkable changes in the way that economic regulation was viewed There occurred a liberalization of attitude and something of a withdrawal of the state from its interventionist role These changes were particularly pronounced in the context of transport where the long standing tradition had been one of market intervention by the government The aim of this book first published in 1991 is to examine the outcomes of deregulation on the international airline industry and to consider whether the experiences of market liberalization reveal any common threads In particular whether they reveal any universal indications of how underlying transport markets function how management responds to new stimuli the degree of protection needed by transport users and nature of the transition process from regulation to liberalization **Deregulation and Liberalisation of the Airline Industry** Dipendra Sinha, 2019-07-16 This title was first published in 2001 By giving long over due detailed consideration to airline deregulation in countries other than the US Dipendra Sinha makes a unique contribution to the literature on airline deregulation and transport economics *Routledge Library Editions: Transport Economics* Various, 2021-07-29 This set of previously out of print titles is an essential reference collection on the topic of transport economics Providing in depth analysis on a variety of aspects including the economics of the airfreight shipping and rail industries it also examines the economics of road transport and more focused areas such as containerisation **Intercity Domestic Transportation System for Passengers and Freight** , 1977 Economic Report of the President Transmitted to the Congress United States. President, 2019 Appendix B contains historical tables from 1959 or earlier on aspects of income national personal and corporate production prices employment investment taxes and transfers and money and finance **Straight and Level** Stephen Holloway, 2017-11-01 This title was first published in 2003 Airline operating profits are well known to be volatile and the global industry aggregate figures conceal wide differences in performance between carriers The fundamental reasons for the poor performance of the industry as a whole were in the early 1990 s that output ran too far ahead of demand and the yield earned on output sold was insufficient to cover costs In strategic context this second edition uses a simple yet powerful model to explore linkages between the fundamentals of airline economics and the volatility of industry results at the operating level Its five parts look in turn at strategic context supply side demand side network management and a general conclusion **Report to the President and the Attorney General of the National Commission for the Review of Antitrust Laws and Procedures** United States. National Commission for the Review of Antitrust Laws and Procedures, 1979 Deregulation, Increased Competition is Making Airlines More Efficient and Responsive to Consumers United States.
