Environment and

Ecology in the History of Economic Thought Vitor Eduardo Schincariol, 2024-07-05 This volume proposes a reconsideration of

ecological and environmental aspects of the work and ideas of various heterodox authors and traditions in the history of economic thought including the field of economic development Many of the contributors to this book focus on thinkers and works which are not typically considered as part of the ecological sphere while others consider such economists in a new light or domain Thus the book elucidates a new and useful research field of reconsidering ecological dimensions in the traditional history of economic thought as well as helping to delineate alternative views for ongoing debates on ecological themes Did Veblen Keynes Sraffa C Furtado and other key economists and schools of thought of our age have relevant and useful insights with respect to environmental issues Which aspects of their intellectual legacies should eventually be discarded in the face of our new environmental challenges On the contrary what aspects of their economic theories can be updated and adapted to a better interpretation of our present ecological concerns How do they differ and why The essays contained in this book will help to answer these questions by means of recovering analysing and updating the work of some of the most relevant heterodox economists and schools of thought of our time This book will be of great interest for readers in the history of economic thought ecological economics environmental economics and economic development

Ecological Economics Research Trends Carolyn C. Pertsova, 2007 This new book presents important research in the field of ecological economics which is a trans disciplinary field of academic research that addresses the dynamic and spatial interdependence between human economies and natural ecosystems Ecological economics brings together and connects different disciplines within the natural and social sciences but especially between these broad areas Ecological economics presents a more pluralistic approach to the study of environmental problems and policy solutions characterised by systems perspectives adequate physical and biological contexts and a focus on long term environmental sustainability *European Economic Legal Order After Brexit* Enzo Cardi, 2021-07-29 This book takes an innovative approach to provide a mirror perspective of the legal systems of the UK and the EU in contemporary institutional scenarios At the beginning of the second decade of the 21st century the legal systems of the EU and the UK are facing challenges of epic proportions Never before have the two legal orders been confronted with the simultaneous impact of a series of events First the effect of the divorce between the two regulatory systems caused by the UK's withdrawal from the EU The Negotiating Documents and the Draft Texts being discussed and aimed at leading to a New Partnership are examined in the book Second the book discusses the impact of the coronavirus shock in all European economies leading to a substantial change of political perspective in the EU

legal order implying innovative debt instruments Third it explores the consequences of the judicial activism of the German Constitutional Court undermining the strategic role of the European Central Bank and the primacy of the European Union Court of Justice The book questions the effects deriving from the legacy i e the foundations of the two legal systems on handling the issues of our time the impact on market regulation of the striking contemporary events and the unsettled consequences on policy of the current convulsing political and financial landscape The book will be essential reading for those working in the areas of European public regulatory law

Applied Economics for Development: Empirical

Approaches to Selected Social and Economic Issues in Transition Economies Mahmut Zortuk, 2018-01-15 Transition economies experience transformation of their economic system Following the disintegration of the Soviet Union a number of former socialist countries underwent transitions from central planning to a market economy More generally many rapidly growing economies undergo no less profound transformations of their economic systems Contrary to common misconception the transition process cannot be simply reduced to eliminating state intervention and liberalizing the economy Economies under transition exhibit a unique set of policy challenges Unlike developed market economies missing markets or market failures abound Economic transformation takes the form of rapidly evolving patterns of international trade and investment industrial structure and consumption These changes call for appropriate public policies A continuing flow of investment hinges on suitable institutions the provision of public infrastructure and other public goods Adequate regulation can be central in ensuring that environmental resources are sustainably managed And sophisticated production systems call for corresponding social institutions in terms of education health and welfare provisions In all these cases accurate empirical assessments are central to the design of effective policy This book presents a selection of pressing economic and social issues in transition economies Selected issues include the development of particular industrial sectors the drivers and consequences of foreign direct investment public finances urbanization social indicators environmental policy and energy diversification In each case an original empirical analysis is performed using a variety of advanced quantitative methods applied to recent data The book will be of interest to economists studying transition economies economic development or having a general interest in applied economics It will be of particular interest to applied economists policy analysts and policy makers in transition economies concerned with the shape and direction of appropriate economic reforms

Science and Technology for

Development, 1962 **Science, Technology, and Development**, 1962 *The Technological and Economic Future of Nuclear Power* Reinhard Haas, Lutz Mez, Amela Ajanovic, 2019-04-26 This open access book discusses the eroding economics of nuclear power for electricity generation as well as technical legal and political acceptance issues The use of nuclear power for electricity generation is still a heavily disputed issue Aside from technical risks safety issues and the unsolved problem of nuclear waste disposal the economic performance is currently a major barrier In recent years the costs have skyrocketed especially in the European countries and North America At the same time the costs of alternatives such as photovoltaics and

wind power have significantly decreased **Economics of Choice Between Energy Sources** Pierre Maillet, Douglas Hague, Chris Rowland, **International Economic Law** Giovanna Adinolfi, Freya Baetens, José Caiado, Angela Lupone, Anna G. Micara, 2016-12-29 This volume scrutinises the main challenges faced by States in their current international economic relations from an interdisciplinary perspective It combines legal research with political and economic analysis and favours dialogue among scientific disciplines Readers are offered a series of in depth studies on a rich variety of topics how to reconcile States interest to benefit from economic liberalization with their need to pursue social goals such as the protection of human rights or of the environment recent developments under WTO law and regional integration processes international cooperation in the energy sector national regulatory developments in the banking sector sovereign wealth funds and investor State arbitration EU Law After Lisbon Andrea Biondi, Piet Eeckhout, Stefanie Ripley, 2012-01-05 The implementation of the Lisbon Treaty is profoundly changing many areas of EU law and policy This volume gathers leading specialists in the field to analyse the implementation process and the directions of legal reform post Lisbon situating the Lisbon reforms in the broader context of on going policy programmes **European Yearbook of International Economic Law 2012** Christoph Herrmann, Jörg Philipp Terhechte, 2011-12-20 The third volume of the European Yearbook of International Economic law focuses on two major topics of current academic and political interest Firstly it addresses the 10th anniversary of China s accession to the WTO and its implications secondly it deals with different legal aspects of global energy markets

Proceedings of the Third International Conference on Computational Intelligence and Informatics K. Srujan Raju, A. Govardhan, B. Padmaja Rani, R. Sridevi, M. Ramakrishna Murty, 2020-03-17 This book features high quality papers presented at the International Conference on Computational Intelligence and Informatics ICCII 2018 which was held on 28-29 December 2018 at the Department of Computer Science and Engineering JNTUH College of Engineering Hyderabad India The papers focus on topics such as data mining wireless sensor networks parallel computing image processing network security MANETS natural language processing and Internet of things YSEC Yearbook of Socio-Economic Constitutions 2020 Steffen Hindelang, Andreas Moberg, 2021-03-29 This book presents the very first interdisciplinarily grounded comprehensive appraisal of a future Common European Law on Investment Screening Thereby it provides a foundation for a European administrative law framework for investment screening by setting out viable solutions and evaluating their pros and cons Daimler the harbour terminal in Zeebrugge or Saxo Bank are only three recent examples of controversially discussed company takeovers in Europe The elephant in the room is China and its Belt and Road Initiative The political will in Europe is growing to more actively control investments flowing into the EU The current regulatory initiatives raise several fundamental constitutional and regulatory issues Surprisingly they have not been addressed in any depth so far The book takes stock of the current rather fragmented regulatory approaches and combines contributions from leading international academics practitioners and policy makers in their respective fields Due to the volume s comprehensive approach it is

expected to influence the broader debate on the EU's upcoming regulation of this matter. The book is addressed to participants from academia as well as to representatives from government, business and civil society.

Transport in a Free Market Economy David Banister, Kenneth Button, 2016-07-27

Transport policy has dramatically changed over the last ten years with major regulatory reforms and privatisation of transport enterprises. Part 1 presents an authoritative statement of the theoretical arguments for and against regulatory reform, the changing political scene in North America and the different mechanisms that can be used to return state-owned monopolies to the private sector. Part 2 presents the empirical evidence on ten years of airline deregulation in the United States and this review is matched by an assessment of the different situation in Europe where national governments are under pressure to follow the same path.
