The Advertising Handbook is a critical introduction to the practices and perspectives of the advertising industry. Sean Brierley explores the structures of the profession and examines the roles of all those involved in advertising, including businesses, agencies, consultancies, and media owners. The Advertising Handbook traces the development of advertising and examines the changes that have taken place from its formative years through to today's period of rapid change, the impact of new media, the rise of the ad agency industry, mergers, the Internet, and digital technologies, and the influence of the regulatory environment. The Advertising Handbook offers a theoretical understanding of the industry and it challenges many assumptions about advertising's power and authority. Thoroughly revised and updated, it examines why companies and organisations advertise, how they research markets, where and when they advertise, the principles and techniques of persuasion, and how companies measure performance. The Advertising Handbook includes illustrations from a range of high-profile campaigns, including Budweiser, Barnardo's, Benetton, and Club 18-30. New and detailed workshop exercises accompany each chapter. Case studies and profiles of ad agencies and key media players. A revised and up-to-date glossary of key terms. A guide to useful web and online resources.

Marketing Jon Groucutt, Peter Leadley, Patrick Forsyth, 2004

Marketing: Essential principles. New realities have been researched, developed, and written primarily with the undergraduate and diploma-level student in mind. This student-oriented text, with its relaxed and free-flowing language, provides the reader with material of a rigorous academic standard. Each chapter follows a set structure that has been designed to encourage discussion and raise issues for consideration and research. Introduction, learning objectives, chapter sub-headings, key issues, chapter summary, exercises, and questions for review and critical thinking. At the end of the book, there are additional notes and references to support student learning. Written by authors from both an academic and practitioner background, this new textbook offers an excellent introduction to the subject for the next generation of marketers and business people.

**FREE CD ROM FOR LECTURERS** The authors have created a unique CD ROM containing both lecture presentation slides and essay questions. This is available on request from the publisher.
