M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa      **U.S. Environmental Protection Agency Library System Book Catalog** United States. Environmental Protection Agency. Library Systems Branch, 1975      **Pollution and the Death of Man** Francis A. Schaeffer, 2022-03-21 Francis A Schaeffer's Timeless Assessment of a Modern Ecological Crisis From the time of creation God placed the earth in our care Since then humans have had a strained relationship with the ecosystem We have often misused resources and polluted the water air and land But if God's plan for redemption includes the earth we must be good stewards of his creation now With environmental threats increasing how should Christians respond This classic work by Francis A Schaeffer looks at modern ecological crises through the lens of theology and Scripture Renowned for his work in applied philosophy and theology Schaeffer answers serious philosophical questions about creation and ecology He concludes that we must return to a profoundly and radically biblical understanding of God's relationship to the earth and of our divine mandate to exercise godly dominion over it A Christian Classic Written by renowned philosopher Francis A Schaeffer Cultural Analysis from a Biblical Perspective Looks at modern ecological threats through the lens of theology and Scripture Educational Includes appendices on The Historical Roots of Our Ecologic Crisis by the late American historian Lynn White Jr and Why Worry About Nature by the late sociologist Richard L Means      **Beyond the Burning Times** Philip Johnson, Gus diZerega, 2013-03-07 This is a fascinating dialogue between a Pagan and a Christian Gus DiZerega an American pagan and and an academic engages in debate with Philip Johnson an Australian Christian theologian The two debate questions such as the nature of spirituality who or what is deity how humans relate to the divine the sacred feminine gender and sexuality and the teachings and claims of Jesus At the end of the book another Pagan writer comments on what Philip Johnson has argued and another Christian comments on what Gus DiZerega has argued Paganism is acknowledged as the fastest growing religion in western Europe and this book helps readers to engage with it and with orthodox Christian belief      Existential Threats Lisa Vox, 2017-07-03 In *Existential Threats* Lisa Vox explores the growth of dispensationalist premillennialism alongside scientific understandings of the end of the world and contends that these two allegedly competing visions have converged to create an American apocalyptic

imagination     Triune God Constantinos Athanasopoulos,2016-01-14 The 13th and 14th centuries represented the most productive and influential period in the history of philosophy and theology in the West A parallel and less influential for the West proliferation of arguments and theories took place in the East at the same time as a result of the defence of the Hesychastic movement offered by St Gregory Palamas and his followers The papers brought together in this volume discuss the importance of Palamite ideas for the understanding of God in terms of divine energies and for contemporary approaches to solving perennial problems in science metaphysics aesthetics and ethics Some of the contributors take a more reserved evaluation of the Palamite corpus preferring to highlight similarities and differences between Palamas and the chief representatives of Medieval Scholasticism such as Thomas Aquinas Duns Scotus and Ockham Other essays offer a radical re evaluation of the Western history of philosophy and theology preferring to bring out the reasons for Western philosophical and theological shortcomings and providing a wider critique on Western culture Contributors to this volume include some of the top scholars on Palamite studies from the fields of philosophy theology aesthetics cultural criticism and art theory As such it represents a particularly useful resource for advanced undergraduate students postgraduate students and researchers in Christian theology and philosophy Byzantine cultural studies and aesthetics     **Environment** Kenneth E. Keith Warner,1972     Housing and Planning References ,1972     *Tao te Ching* Lao Tzu,2021-04-06 Although translations and interpretations of the Tao te Ching abound and new editions are released yearly few accomplish the hard work of linking and bridging the Tao s profound message to the needs of modern readers There may be a profusion of versions but our lives and our world reflect little of the deep transformative potential of this important text Marc S Mullinax s new translation grows from extensive teaching experience and combines a deep understanding of the Tao s fourth century BCE Chinese context with an exciting two part application of that text to contemporary life First each of the eighty one verses is joined by a richly curated array of quotes sayings poems and stories from wisdom traditions around the globe With quotes ranging from Emerson to Pink Floyd and from the apostle Paul to Margaret Atwood the Tao s meaning comes alive in conversation with others Second a brief reflection puts the verse in historical context and highlights the transformative power of Wu Wei the non interfering action perfectly timed to promote peace and prevent injury to bring joy and justice to a hurting world     **Is It Too Late?** John B. Cobb,2021 In the fifty years since its initial publication *Is It Too Late* has proven its prescience in ways both significant and dire As the first book length philosophical and theological analysis of the environmental crisis this work introduced a generation to the key elements of crisis while suggesting ways that religion can be a force for hope rather than an instrument of despair Covering an ambitious range of issues from deforestation to abortion from religious views of the natural world to the need for technological innovation to avoid nature s destruction John Cobb moves deftly from philosophical to theological to scientific learning and integrates these interdisciplinary insights into a compelling vision for what he calls a new Christianity Comprehensive in scope non technical in expression and concise in

length *Is It Too Late* provides the scholar and the student alike with a readable and compelling orientation to the philosophical and theological stakes of ecology This Fortress edition includes a new preface in which Cobb reflects on the current situation the specific promises and perils we now face and how his own thinking on matters theological and ecological has evolved in the last half century      *Education for the Future* Philip A. Coggin, 2014-05-19 *Education for the Future* The Case for Radical Change focuses on the developments in educational systems and the role of teachers and learning institutions in shaping society The book first ponders on the problems confronting progress in education including the pressure on schools and teachers to perform according to the dictates of society The need to develop curriculum in universities that can instill efficient learning for students is also underscored The text also takes a look at the relationship of literary culture and the productive and distributive activities of the market place The manuscript focuses on the influence of educational technology in the provision of aids in learning The text also underscores that the solution to the problems of education in Britain should not be taken individually but rather it should be treated as part of a larger pattern The controversy in the establishment of the Gresham College is noted The book is a dependable reference for readers interested in studying the development issues and trends in the educational system of Great Britain      Ecology and Environmental Management Chris C. Park, 1981      *God is Not 'green'* Adrian Michael Hough, 1997 A thought provoking account challenging the idea that Christianity has little to say in the ecological arena Explores the ways in which traditional Christian teaching and practice provide an adequate response to the ecological issues now facing the planet The author seeks to make sense of the causes and possible solutions to the current environmental crisis while pointing out important consequences for the Church its ethics and liturgy      **Environmentalism in Central and Southeastern Europe** Hrvoje Petric, Ivana Žebec Šilj, 2017-03-17 Consisting of 12 chapters the book presents the rise and development of environmentalism environmental history as a discipline and the history of environmental movements in the Central and South Eastern European region from an international point of view The chapters written by scholars from Italy Austria Slovenia Croatia Slovakia Romania Serbia Greece and Turkey cover a wide range of topics including the creation of protected areas increasing environmental consciousness the evolution of humanity's relationship toward the environment and perceptions of environmentalism by different disciplines This international approach highlights the region's complex development from the end of the eighteenth century through the twentieth century with its unique blend of traditions Three historically different traditions the Habsburg Ottoman and Venetian converge in Central and South Eastern Europe and this book emphasizes the subtleties of these sometimes intertwined traditions The focus of the book varies according to both the different geographical environments characteristic of the region and the protagonists who actively participated in changing relationships toward the environment However what does not vary and is common to all the chapters is the historical approach since the process has continuity which the book accentuates In geographical terms the region that is the focus of the book Central and South Eastern Europe

is the contact zone of the Alps Danube Adriatic and partially the North Eastern Mediterranean Sea Throughout history it was also the contact zone of the Habsburg Ottoman and Venetian traditions Those realities have resulted in a unique blending and intertwining of traditions and therefore relationships with and perceptions of the environment     **Faith Reads** David Rainey,2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection     **The Nature of the Religious Right** Neall W. Pogue,2022-04-15 In *The Nature of the Religious Right* Neall W Pogue examines how white conservative evangelical Christians became a political force known for hostility toward environmental legislation Before the 1990s this group used ideas of nature to help construct the religious right movement while developing theologically based eco friendly philosophies that can be described as Christian environmental stewardship On the twentieth anniversary of Earth Day in 1990 members of this conservative evangelical community tried to turn their eco friendly philosophies into action Yet this attempt was overwhelmed by a growing number in the leadership who made anti environmentalism the accepted position through public ridicule conspiracy theories and cherry picked science Through analysis of rhetoric political expediency and theological imperatives *The Nature of the Religious Right* explains how ideas of nature played a role in constructing the conservative evangelical political movement why Christian environmental stewardship was supported by members of the community for so long and why they turned against it so decidedly beginning in the 1990s     *Introduction to Ecological Aesthetics* Fanren Zeng,2019-08-26 This book explores in detail the issues of ecological civilization development ecological philosophy ecological criticism environmental aesthetics and the ecological wisdom of traditional Chinese culture related to ecological aesthetics Drawing on Western philosophy and aesthetics it proposes and demonstrates a unique aesthetic view of ecological ontology in the field of aesthetics under the direct influence of Marxism which is based on the modern economic social cultural development and the modern values of traditional Chinese culture This book embodies the innovative interpretation of Chinese traditional culture in the Chinese academic community The author discusses the philosophical and cultural resources that can be used for reference in Chinese and Western cultural tradition focusing on traditional Chinese Confucianism Taoism Buddhism and painting art Western modern ecological philosophy Heidegger s ontology ecological aesthetics and British and American environmental aesthetics In short the book comprehensively discusses the author s concept of ecological ontology aesthetics as an integration and unification of ontology aesthetics and ecological aesthetics This generalized ecological aesthetics explores the relationship between humans and nature society and itself guided by the brand new ecological worldview in the post modern context It
