Imperial Ecology Peder Anker,2001 Aelian s

Historical Miscellany is a pleasurable example of light reading for Romans of the early third century. Offering engaging anecdotes about historical figures, retellings of legendary events and descriptive pieces in sum, amusement, information and variety. Aelian's collection of nuggets and narratives could be enjoyed by a wide reading public. A rather similar book had been published in Latin in the previous century by Aulus Gellius. Aelian is a late, perhaps the last representative of what had been a very popular genre. Here then are anecdotes about the famous Greek philosophers, poets, historians and playwrights, myths instructively retold, moralizing tales about heroes and rulers, athletes and wise men, reports about styles in dress, foods and drink, lovers, gift giving practices, entertainments, religious beliefs and death customs and comments on Greek painting. Some of the information is not preserved in any other source. Underlying it all are Aelian's Stoic ideals as well as his Roman's great admiration for the culture of the Greeks, whose language he borrowed for his writings.

Restoration Ecology
Sigurdur Greipsson, 2011. The Earth's biodiversity is at risk as delicate ecosystems struggle to overcome global climate change, rain forest destruction, acid rain, overfishing, erosion and a host of other interconnected environmental problems. Written for upper level undergraduate and graduate students, Restoration Ecology addresses these growing environmental concerns and offers practical and economical solutions. The text opens with a look at fundamental ecological principles critical to understanding restoration, including nutrient cycling and factors that regulate ecosystem function and continues on to explore restoration in practice, providing real life accounts of the restoration of various disturbed ecosystems. The final section delves into the planning, implementation, monitoring and appraisal of restoration work.
