## **Ecology Of Care:**

The Ecology of Care Didi Pershouse, 2015-12-10 What can Cuban doctors innovative ranchers in Saskatchewan and the microbiome teach us about how to care for people and the Earth at the same time In this richly layered book Didi Pershouse takes us on a fast moving sharp witted journey through her own life from growing up with the neurosurgeon who accidentally discovered the seat of memory in the brain to working in a smoke filled office at New York magazine to her career as an innovative acupuncturist in Vermont and on to a passion for close knit communities grazing cows and soil restoration as solutions to much of what ails us Along the way she unfolds a surprising new take on the story of our time how the germ theory of disease joined with a profit based economy and unwittingly led to a sterilization of medicine agriculture and even our social lives This 150 year detour has brought about the near destruction of our climate as well as a great forgetting of the power of connection By documenting a scientific understanding of the intelligence of the whole Pershouse nudges us awake with a hopeful view and shows us how to reclaim the rich fertile lives we are meant for

**Ecology of Care** Robert C. Fuller, 1992 Using an interdisciplinary approach to help readers understand the human self and its place within the world Fuller examines how and why the quest for individual gratification must include a willingness to care for the larger environments

Smiseth, Mathias Kölliker, 2012-08-09 Parental care includes a wide variety of traits that enhance offspring development and survival This novel book provides a fresh perspective on the current state of the study of the evolution of parental care written by some of the top researchers in the field and taking a broad taxonomic approach

Self-determination in Health Care Leroy C. Edozien, 2016-03-03 It is generally accepted in legal and bioethical discourse that the patient has a right to self determination In practice though this is often not the case Paternalism is waning and it is increasingly recognised that there are values other than medical factors which determine the choices that patients make Unfortunately these developments have not resulted in huge advances for patient self determination which is largely because the consent model has fundamental flaws that constrain its effectiveness This book sets out to offer an alternative model to consent In the property model proposed here the patient's bodily integrity is protected from unauthorised invasion and their legitimate expectation to be provided with the relevant information to make an informed decision is taken to be a proprietary

right It is argued that the property model potentially overcomes the limitations of the consent model including the obstacle caused by the requirement to prove causation in consent cases The author proposes that this model could in the future provide an alternative or complementary approach for the courts to consider when dealing with cases relating to self determination in health care Oxford Textbook of Public Health Palliative Care Julian Abel, Allan Kellehear, 2022 Death dying loss and care giving are not just medical issues but societal ones This volume explores the adoption of public health principles to palliative care including harm reduction early intervention health and well being promotion and compassionate communities **Oxford Textbook of Primary Medical Care** Roger Jones (Prof.), 2005 Organizational Behavior, Theory, and Design in Health Care Nancy Borkowski, Katherine A. to sacrifice to relieve their hurt It is not only caring for those visibly needing care unable to care for themselves but caring for all It is having a disposition that the hurts large and small that all of us carry arouse concern and appreciation from and for each individual the community and the world      **Researching Care with Case Studies** Robert Stake,Merel
