Intelligent Agent Technology Ning Zhong, 2001 This volume is an attempt to capture the essence of the state of the art of intelligent agent technology and to identify the new challenges and opportunities that it is or will be facing The most important feature of the volume is that it emphasizes a multi faceted holistic view of this emerging technology from its computational foundations OCo in terms of models methodologies and tools for developing a variety of embodiments of agent

based systems OCo to its practical impact on tackling real world problems Contents Formal Agent Theories Computational Architecture and Infrastructure Learning and Adaptation Knowledge Discovery and Data Mining Agents Distributed Intelligence Agent Based Applications Readership Graduate students in computer science and engineering academics lecturers researchers software systems engineers IT engineers and industrialists **Research Anthology on E-Commerce Adoption, Models, and Applications for Modern Business** Management Association, Information Resources,2021-04-16

In the next few years it is expected that most businesses will have transitioned to the use of electronic commerce technologies namely e commerce This acceleration in the acceptance of e commerce not only changes the face of business and retail but also has introduced new adaptive business models The experience of consumers in online shopping and the popularity of the digital marketplace have changed the way businesses must meet the needs of consumers To stay relevant businesses must develop new techniques and strategies to remain competitive in a changing commercial atmosphere The way in which e commerce is being implemented the business models that have been developed and the applications including the benefits and challenges to e commerce must be discussed to understand modern business The Research Anthology on E Commerce Adoption Models and Applications for Modern Business discusses the best practices latest strategies and newest methods for implementing and using e commerce in modern businesses This includes not only a view of how business models have changed and what business models have emerged but also provides a focus on how consumers have changed in terms of their needs their online behavior and their use of e commerce services Topics including e business e services mobile commerce usability models website development brand management and marketing and online shopping will be explored in detail This book is ideally intended for business managers e commerce managers marketers advertisers brand managers executives IT consultants practitioners researchers academicians and students interested in how e commerce is impacting modern business models *E-Commerce, and Web Technologies* Christian Huemer,Pasquale Lops,2013-08-23 This book constitutes the refereed proceedings of the 14th International Conference on Electronic Commerce and Web Technologies EC Web held in Prague Czech Republic in August 2013 In 2013 EC Web focused on recommender systems semantic e business business services and process management and agent based e commerce The 13 full and 6 short papers accepted for EC Web selected from 43 submissions were carefully reviewed based on their originality quality relevance and presentation Agent-Mediated Electronic Commerce IV. Designing Mechanisms and Systems Julian Padget,Onn Shehory,David Parkes,Norman Sadeh,William E. Walsh,2002-12-13 This book constitutes the thoroughly refereed post proceedings of the 4th International Workshop on Agent Mediated Electronic Commerce AMEC 2002 held in Bologna Italy in July 2002 during the AAMAS 2002 conference The 20 revised full papers presented together with an introductory survey by the volume editors were carefully selected and improved during two rounds of reviewing and revision The book gives a unique overview of the state of the art of designing mechanisms and systems for agent mediated e commerce The papers are

organized in topical sections on electronic auctions negotiations and electronic markets B2b Integration: A Practical Guide To Collaborative E-commerce Gunjan Samtani, 2002-11-25 This comprehensive guide reveals the key elements of successful B2B integration and collaborative e commerce by highlighting business needs technologies and development strategies It equips companies with practical guidelines for quickly implementing an effective B2Bi strategy and prepares them for the next wave of B2B integration and collaborative e commerce It clarifies the intricate dependencies among all the components of B2Bi including integration patterns enterprise application integration EAI business process management BPM Internet security XML Web services middleware technologies and integration brokers Included are future technologies that will have a significant impact on B2Bi architectures such as intelligent software agents wireless technologies and peer to peer computing This reference provides a suitable framework for the design development and implementation of B2B integration along with several case studies Editors Dr Marcus Healey Strategy Consultant for InfoFirst Inc USA Dr Shyam Samtani Language Editor Professor of English P G Department of English Indore Christian College India Contributors Kenneth Tamburello Senior Consultant Specialist at Bluesphere an EDS company USA Deepak Bajaj Course Coordinator of Project Management University of Technology Sydney UTS Australia Dimple Sadhwani Senior Software Engineer Island ECN USA Pawan Samtani Country Operations Manager Oracle Corporation India a Legal Programming Brian Subirana, Malcolm Bain, 2004-11-12 Legal Programming Designing Legally Compliant RFID and Software Agent Architectures for Retail Processes and Beyond provides a process oriented discussion of the legal concerns presented by agent based technologies processes and programming It offers a general outline of the potential legal difficulties that could arise in relation to them focusing on the programming of negotiation and contracting processes in a privacy consumer and commercial context The authors will elucidate how it is possible to create form of legal framework and design methodology for transaction agents applicable in any environment and not just in a specific proprietary framework that provides the right level of compliance and trust Key elements considered include the design and programming of legally compliant methods the determination of rights in respect of objects and variables and ontologies and programming frameworks for agent interactions Examples are used to illustrate the points made and provide a practical perspective Agent Technologies, Infrastructures, Tools, and Applications for E-Services Ryszard Kowalczyk, 2003-02-25 This book constitutes the thoroughly refereed post proceedings of the three agent related workshops held during the NetObjectDays international conference NODe 2002 held in Erfurt Germany in October 2002 The 23 revised full papers presented with a keynote paper and 2 abstracts were carefully selected during 2 rounds of reviewing and improvement The papers are organized in topical sections on agent oriented requirements engineering and specification agent oriented software engineering reuse negotiation and communication large complex systems e business and applications **E-Commerce and Web Technologies** Kurt Bauknecht, Birgit Pröll, Hannes Werthner, 2005-08-31 We welcome you to the 6th International Conference on E Commerce

and Web Technology EC Web 2005 held in Copenhagen Denmark It was held in conjunction with DEXA 2005 This conference was organized for the first time in Greenwich UK in 2000 and it has been able to attract an increasing number of participants and interest reflecting the progress made in the field As in the five previous years EC Web 2005 served as a forum that brought together researchers from academia and practitioners from industry to discuss the current state of the art in e commerce and Web technologies We are sure that inspirations and new ideas emerged from the intensive discussions that took place during the formal sessions and social events Keynote addresses research presentations and discussions during the conference helped to further develop the exchange of ideas among current researchers developers and practitioners The conference attracted 139 paper submissions and each paper was reviewed by three Program Committee members The Program Committee selected 39 papers for presentation and publication an acceptance rate of 28% And we have to confess that this task was not that easy due to the high quality of the submitted papers

Intelligent Techniques in E-Commerce Zhaohao Sun,Gavin R. Finnie,2013-03-20 E commerce has passed through a number of stages in the minds of most readers of the daily press Initially it was the province of the specialist and considered almost irrelevant to the needs and activities of everyday life companies looking for venture capital in this area had little if any chance of obtaining sufficient funds from the rather conservative investors who provided the only source of start up capital Then came the dot com boom and suddenly e commerce was the most exciting topic possible Venture capital was available from every possible source and almost any company with a com in its name could be assured of instant funding on request This boom was inevitably followed by the dot com bust and the press wamed that the days of e commerce were gone perhaps never to return This apparently confusing stages of growth model is in reality nothing ofthe sort E commerce is simply the logical outcome of combining computers with tele communications networks The astonishing changes which a global economy has brought with it are reflected in the changes to the way we do business which are increasingly synonymous with e commerce Indeed the term e commerce itself is coming to mean only the transaction based component of e business any process that a business organisation conducts over a computer mediated network as Thomas Mesenbourg ofthe U S Census Bureau said in 1999

Managing E-commerce and Mobile Computing Technologies Julie R. Mariga,2003-01-01 Examining the challenges and limitations involved in implementing and using e commerce technologies this guide describes how these technologies have been very instrumental to many organizations around the globe Discussed is how through the use of electronic commerce organizations of all sizes and types are able to conduct business without worrying about the territorial market limitations of the past Additionally how mobile commerce technologies are further enabling such organizations to communicate more effectively is reviewed Also covered are the potential for a B2B marketplace deploying Java mobile agents and e business experiences with online auctions

E-Commerce and Intelligent Methods Javier Segovia,Piotr S. Szczepaniak,Marian Niedzwiedzinski,2002-08-06 This book covers significant recent developments in the field of Intelligent Meth ods applied to

eCommerce The Intelligent Methods considered are mainly Soft Computing Methods that include fuzzy sets rough sets neural networks evolutionary computations probabilistic and evidential reasoning multivalued logic and related fields There is not doubt about the relevance of eCommerce in our daily environments and in the work carried out at many research centers throughout the world The application of AI to Commerce is growing as fast as the computers and networks are being integrated in all business and commerce aspects We felt that it was time to sit down and see how was the impact into that field of low level AI i.e softcomputing We found many scattered contributions disseminated in conferences workshops journal books or even technical reports but nothing like a common framework that could serve as a basis for further research comparison or even prototyping for a direct transfer to the industry We felt then the need to set up a reference point a book like this We planned this book as a recompilation of the newest developments of researchers who already made some contribution into the field The authors were selected based on the originality and quality of their work and its relevance to the field Authors came from prestigious universities and research centers with different backgrounds

Agent Systems in Electronic Business Li, Eldon Y.,Yuan, Soe-Tsy,2007-11-30 This book delivers definitive research on the use of agent technologies to advance the practice of electronic business in today's organizations targeting the needs of enterprises in open and dynamic business opportunities to incorporate skilled use of multiple independent information systems It clearly articulates the stages involved in developing agent based e business systems Provided by publisher

E-Commerce Operations Management Marc J. Schniederjans,Qing Cao,2002 This text focuses on managerial issues of operations management for e commerce businesses The text is based on empirical evidence provided by numerous e commerce organizations and research scholars

Applying Formal Methods: Testing, Performance, and M/E-Commerce Manuel Núñez,Zakaaria Maamar,Fernando Pelayo,Key Pousttchi,Fernando Rubio,2004-09-09 This book constitutes the joint refereed proceedings of the First International Workshop on Theory Building and Formal Methods in Electronic Mobile Commerce TheFormEMC the first European Performance Engineering Workshop EPEW and the First International Workshop on Integration of Testing Methodologies ITM held jointly in association with FORTE 2004 in Toledo Spain in October 2004 The 27 revised full papers presented were carefully reviewed and selected from a total of 62 submissions The papers are grouped in three topical sections corresponding to the workshop topics

Information Technology Outlook 2000 ICTs, E-commerce and the Information Economy OECD,2000-03-07 The OECD Information Technology Outlook 2000 describes the rapid growth in the supply and demand for information technology goods and services and their role in the expanding Internet economy and looks at emerging uses of information technology
