### **The Transformation of Southeast Asian Economies**

Teofilo C. Daquila, 2007 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally the book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies

### **Southeast Asia beyond Crises and Traps**

Boo Teik Khoo, Keiichi Tsunekawa, Motoko Kawano, 2017-09-18 This book examines five countries in South East Asia that are instructive case studies of how the region has had to negotiate pathways of development beyond crises and traps At two ends of just one decade 1997 2007 Indonesia Malaysia the Philippines Thailand and Vietnam all had to weather the shocks of an East Asian financial crisis and a global financial crisis Some economies might have buckled completely under those shocks and been condemned to long term stagnation Yet these five economies part of the larger Asian region emerged with continued if slower economic growth An important theme of this book is that their resilience has been partly derived from the pursuit of growth and competitiveness along less known or recommended pathways The chapters of this book take a novel approach to South East Asia's search for growth and improvement They do not begin by evaluating how far macro level performances would take a particular country towards high income status Instead they provide original insights into actual cases of intermediate ways of achieving growth upgrading and income improvement in non privileged sectors Such cases may hold more relevant lessons for the majority of developing countries than the experiences of highly developed economies

Amitav Acharya,1998      **The Southeast Asian Economic Miracle** Young C. Kim,1998-12 This book brings together political scientists economists officials of Asian governments and representatives of the multinational banks to analyze and explain Southeast Asia's extraordinary growth It is an important study of the shifting winds of the political economy of growth in our time the movement away from a command to a free market economy Young C Kim is the editor      **The Economies of Southeast Asia** Jose L. Tongzon,2002-01-01 This updated and revised edition provides an examination of issues of paramount importance for Southeast Asian economies such as the economic implications of the 1997 Asian crisis for both older and newer members of ASEAN      *The Economies of Southeast Asia* Teofilo C. Daquila,2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the

economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies *Southeast Asia's Misunderstood Miracle* Jomo K.s.,1997-07-31 *Southeast Asia's Misunderstood Miracle* emphasizes the contribution of government intervention especially selective industrial policy to growth structural change and late industrialization in Thailand Malaysia and Indonesia Although government intervention has certainly been abused for private gain it has also been crucial for the sustained rapid growth and structural change experienced in the region Similarly Southeast Asian resource wealth may have weakened the imperative to industrialize in the region but inferior government intervention probably accounts for the relatively less impressive industrial achievements of the three countries The study also stresses the significant contribution of regional economic dynamics especially the increased role of direct foreign investment from Japan and the first tier newly industrializing economies of South Korea Taiwan Hong Kong and Singapore Thus the book qualifies contradicts and challenges some of the conclusions and policy recommendations of other works such as the World Bank's influential *East Asian Miracle* 1993 which suggested that other developing countries should seek to emulate the second tier Southeast Asian NICs rather than the first tier East Asian NIEs

**Economic Factors in Southeast Asian Social Change** Robert Van Niel,1968 Compilation of conference papers on the interrelationship of economic development and social change in South East Asia with particular reference to Indonesia Malaysia and the Philippines covers sociological aspects of marketing social integration in the urban area environment urbanization obstacles to investment rural development programmes transport cultivation techniques etc and includes case studies References Conference held in los angeles 1967 June 15 to 17 **Economic change, social structure, and the political system in Southeast Asia** Harold A. Crouch,1985 In this study the author compares the socio economic and political developments of the five original member states of ASEAN which have similar historical experiences and currently adopt strategies of economic development which have much in common The emphasis however is on the Philippines with comparisons being made between that country and the rest *Southeast Asia (Routledge Revivals)* Richard Higgott,Richard Robison,2013-10-31 The articles in this edited collection first published in 1985 consider the competing theories of the nature of development and underdevelopment in Southeast Asia Each chapter challenges the academic orthodoxies and dominant traditions of Southeast Asian studies particularly in relation to orientalist history behaviourist political science and development economics Overall the contributions offer an alternative framework for analysis which considers the structural changes to the political economy of Southeast Asia as well as the relationship between the state economy and class at a domestic level This is a fascinating collection of value to students and academics with an interest in Southeast Asian politics
