Economic Decline And Nationalism In The Balkans:

Economic Decline and Nationalism in the Balkans Milica Zarkovic Bookman,1994 Two dominant characteristics of the Balkans in the early 1990s seem to be precipitous economic decline and rampant nationalism This study addresses the following three questions What internal and external factors have deepened the economic crises in the Balkan states over the past three years What is the nature of nationalism in the Balkans And what is the relationship between economic decline and the rise of nationalism

Deciphering the Balkan Enigma William Thomas Johnsen,1993

Outcast Europe: The Balkans, 1789-1989 Tom Gallagher,2013-11-14 Examining two centuries of Balkan politics from the emergence of nationalism to the retreat of Communist power in 1989 this is the first book to systematically argue that many of the region s problems are external in origin A decade of instability in the Balkan states of southeast Europe has given the region one of the worst images in world politics The Balkans has become synonymous with chaos and extremism Balkanization meaning conflict arising from the fragmentation of political power is a condition feared across the globe This new text assesses the key issues of Balkan politics showing how the development of exclusive nationalism has prevented the region s human and material resources from being harnessed in a constructive way It argues that the proximity of the Balkans to the great powers is the main reason for instability and decline Britain Russia Austria Hungary France and finally the USA had conflicting ambitions and interests in the region Russia had imperial designs before and after the 1917 Revolution The Western powers sometimes tolerated these or encouraged undemocratic local forces to exercise control in order to block further Soviet expansion Leading authority Tom Gallagher examines the origins of these Western prejudices towards the Balkans tracing the damaging effects of policies based on Western lethargy and cynicism and reassesses the negative image of the region its citizens their leadership skills and their potential to overcome crucial problems

Problem of Ethnicity: Role of United Nations in Kosovo Crisis Jasvir Singh,2009

Conflict Prevention and Peace-building in Post-War Societies T. David Mason,James D. Meernik,2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and

conflict resolution as well as policy makers and analysts **Radical Ethnic Movements in Contemporary Europe** Stefan Troebst, Farimah Daftary, 2004-11-01 Nation states and minorities resort more and more to violence when safeguarding their political interests Although the violence in the Middle East has been dominating world politics for some time now European governments have had their share of ethnic violence to contend with as this volume demonstrates And as the case studies show ranging as they do from the Basque Country to Chechnya from Northern Ireland to Bosnia Herzegovina this applies to western Europe as much as to eastern Europe However in contrast to other parts of the world instances where political struggles for power and social inclusion between minorities and majorities lead to full fledged inter ethnic warfare are still the exception in the majority of cases conflicts are successfully de escalated and even resolved In a comprehensive conclusion the volume offers a theoretical framework for the development of strategies to deal with violent ethnic conflict

Yugoslavia Unraveled Raju G. C. Thomas, 2003-10-13 Unlike many of the works on the Yugoslav wars written during and just after the crisis Yugoslavia Unraveled delves beyond who did what to whom to examine underlying issues regarding the sources of religious nationalism and inter ethnic conflict the territorial integrity and sovereignty of states and the principle of self determination and the right of secession from an existing state This volume raises essential questions pertaining to the legality and morality of military intervention by external powers without U N sanction and to nation building by outside powers in war devastated territories The book also explores the nature of media propaganda in times of war Editor Raju G C Thomas and the prominent contributors provide fresh views and alternative explanations for the unraveling of a sovereign independent state following the end of the Cold War and in a world without countervailing power The Balkans Beyond Nationalism and Identity Pavlos Hatzopoulos, 2007-12-19 For decades we have come to accept that nationalism formed the basis of the modern history of the Balkans In this bold and controversial study Pavlos Hatzopoulos turns this assumption on its head Through a ground breaking examination of the non nationalist ideologies in the Balkans during the interwar period Hatzopoulos calls into question the supposedly inherent connection between the Balkans and nationalism and argues that nationalism does not form the sole ordering principle of the modern history of the Balkan region Focusing on the ideologies of communism liberal internationalism and agrarianism Hatzopoulos examines how these interact with nationalist ideology He demonstrates how non nationalist theories challenge the nationalist view of the Balkans as the sum of several national spaces He even questions the nationalist understanding of the very term the Balkans The Balkans Beyond Nationalism and Identity revisits contemporary debates on a region that is still a European crisis point and challenges the nation centric understanding that permeates it In proposing a description of the Balkans as a contested political concept the book argues for a completely fresh interpretation of the region s composition The Soviet Union - Federation or Empire? Tania Raffass, 2012-06-14 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought

independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

The Psychology of Personal Constructs George Kelly, 2002-09-26 First published in 1992 Unavailable for many years this is a reissue of George Kelly's classic work It is the bible of personal construct psychology written by its founder The first volume presents the theory of personal construct psychology

The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs

Political Science Abstracts IFI/Plenum Data Company staff, 2013-11-11 Political Science Abstracts is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967 All back issues are still available

The People, Press, and Politics of Croatia Stjepan Malovic, Gary W. Selnow, 2001-05-30 Malovic and Selnow examine the evolution of the press government relationship in Croatia from the Tito era to the present Their story is one of three interacting players the Croatian government which until recently has sat firmly in control the compliant press which seemed little motivated to change and the largely quiescent public which demanded little from its press or its government A provocative often first hand account that will be of interest to scholars and researchers involved with Balkan current affairs journalism and politics

The Development of the Balkan Region George Petrakos, Stojan Totev, 2001 A comparative overview and analysis of the economic performance structure and trade relations of the Balkan region

Yugoslavia and After David A. Dyker, Ivan Vejvoda, 2014-09-19 This new book presents contributions by leading authorities on the origins of the Balkan crisis the reasons for the decay and dissolution of the old Yugoslavia the nature of the new regimes the prospects for solution of the remaining conflicts and for the building of viable successor states

Balkan Tragedy Susan L.

Woodward, 1995-04-01 Yugoslavia was well positioned at the end of the cold war to make a successful transition to a market economy and westernization Yet two years later the country had ceased to exist and devastating local wars were being waged to create new states Between the fall of the Berlin Wall in November 1989 and the start of the war in Bosnia Herzegovina in March 1992 the country moved toward disintegration at astonishing speed The collapse of Yugoslavia into nationalist regimes led not only to horrendous cruelty and destruction but also to a crisis of Western security regimes Coming at the height of euphoria over the end of the cold war and the promise of a new world order the conflict presented Western governments and the international community with an unwelcome and unexpected set of tasks Their initial assessment that the conflict was of little strategic significance or national interest could not be sustained in light of its consequences By 1994 the conflict had emerged as the most challenging threat to existing norms and institutions that Western leaders faced And by the end of 1994 more than three years after the international community explicitly intervened to mediate the conflict there had been no progress on any of the issues raised by the country's dissolution In this book Susan Woodward explains what happened to Yugoslavia and what can be learned from the response of outsiders to its crisis She argues that focusing on ancient ethnic hatreds and military aggression was a way to avoid the problem and misunderstood nationalism in post communist states The real origin of the Yugoslav conflict Woodward explains is the disintegration of governmental authority and the breakdown of a political and civil order a process that occurred over a prolonged period The Yugoslav conflict is inseparable from international change and interdependence and it is not confined to the Balkans but is part of a more widespread phenomenon of politic
