Pope Atkins, 2018-02-06 The fourth edition of this widely praised text has been thoroughly revised to reflect the evolving characteristics of the current international system that have had a dramatic effect on every aspect of international relations of Latin America and the Caribbean The original purpose of this book is unchanged It continues to provide a topically current and analytically integrated survey of the region's role in the world Still organized around the idea of Latin America and the Caribbean as a separate subsystem within the global international system the discussion gives

special emphasis to complex interstate and transnational structures and processes Within this framework Atkins analyzes the foreign policies of the Latin American states themselves and those of the United States and other countries toward Latin America and the Caribbean He also looks closely at the nature and role of transnational actors in the region such as the multinational corporations the Holy See Protestant Churches transnational political parties international labor nongovernmental organizations and others He gives special attention to Latin American participation in international institutions at all levels

provided the context for U S policies toward Central America from the 1950s to the 1980s Nonetheless attitudes developed during the Cold War cannot explain the specific content of U S foreign policies toward the region Ronald W Cox argues that U S business interests have worked with policymakers to develop trade aid and investment policies toward Central America He reveals how the relationship between business groups and the state has been shaped by business competition national security considerations institutional structures and instability in the Central American countries Many see the state as autonomous and not influenced by business but Cox argues that business groups have been able to take advantage of specific international circumstances to promote economic policies thus increasing foreign investment At the same time division among business groups has affected foreign economic policies This book is a provocative analysis of interest to scholars of international political economy American foreign policy comparative politics and business government relations
