*Economic Transformation of Taiwan, ROC* Guoding Li,1988 Since the Communists gained control of mainland China 40 years ago Taiwan has transformed itself from an embattled and impoverished island to one of the world's leading trading nations today with a massive balance of payments surplus The achievement is all the more remarkable as the country has scarcely any natural resources and has had to maintain an expensive defence capability unlike Japan *Taiwan's Economic Transformation in Evolutionary Perspective* Fu-Lai Tony Yu,2007 Since the end of the Second World War Taiwan has transformed in around 60 years time from a farmland to a high tech industrial economy This book examines entrepreneurship innovative systems and government policies in Taiwan *Taiwan's Economic Transformation* Tai-Chun Kuo,Ramon H Myers,2012-08-06 This book tells the story of Taiwan's economic revolution how Taiwan transformed itself from a planned economy into a market economy between 1949 and 1965 The authors posit that it was the Kuomintang Government's endorsement of property rights reform and institutional change that enabled Taiwan to transform from an impoverished command economy to one of the fastest growing economies in the world The book gives special attention to how a small group of political and economic leaders began adopting the new ideas and beliefs that created the vision that enabled them to embrace institutional and organizational innovations actions which led to the formation of the new market economy Using first hand interview material with key government officials from the period and analyses of hitherto unused Chinese language archives including the diaries of Chiang Kai shek Kuomintang party archives and personal papers of Kuomintang leaders as well as newspaper and journal articles published in Taiwan between 1949 and 1965 this book is both empirically rich and gives the reader insights into Taiwan's developmental experience and the direction in which under different circumstances China's post war expansion might have proceeded Taiwan's Economic Transition will be an invaluable resource for anyone interested in the economic and political history and development of Taiwan More broadly it will also appeal to scholars and students of China's historical and contemporary development Asian economics and Asian studies *Becoming an Industrialized Nation* Yuan-li Wu,1985 **Seminar on the Economic Development of Taiwan, R.O.C.** ,1992 *Taiwan's Transformation* John J. Metzler,2017-01-04 This book presents a cogent but comprehensive review of Taiwan's socio economic transformation from a Japanese colony to a thriving East Asian mini state Since the 1980's Taiwan has primarily been viewed as a thriving economic model Though certainly true this assessment belies the amazing social and political success story for 23 million people on a small New Hampshire sized island just off the China coast Metzler highlights the engaging political narrative of democratization as well as Taiwan's noteworthy accomplishments despite the proximity and opposition of communist China Further the result of the 2016 elections and its implication are analyzed Scholars studying East Asia and policy makers will gain a greater appreciation for the island's dynamic prosperous resilience despite pressure from China **Seminar on the Economic Development of Taiwan, R.O.C.** ,1992 [The Political Economy of Taiwan's](#)
