Economics After The New Right

Mark Blyth

Economics After The New Right:

British Party Politics and Ideology after New Labour S. Griffiths, K. Hickson, 2009-11-18 British Party Politics and Ideology after New Labour brings together academics and politicians to debate the intellectual roots of the ideas that currently drive the main UK political parties With major players responding to the arguments raised in each chapter the book will be a must read for anyone interested in or teaching British politics

Beyond the New Right John Gray, 2013-09-13 John Gray is now established as one of the UK's leading political thinkers For over a decade he has been associated with the ideas and think tanks of the New Right In this book he presents both a criticism of the ideological excesses of New Right ideology and a radical critique of the New Right itself developed from the standpoint of traditional conservatism All the major thinkers and themes of the New Right are examined together with many major issues of current public policy such as the growth of the underclass the future of the welfare state and the role of government in education and culture The author also argues that there are deep affinities between conservative ideology and Green thought He advances radical proposals for the preservation and renewal of common life for an age in which the ideals of modernism including continuous economic growth are decreasingly viable He expresses his conviction that conservative philosophy will find its future in dissociating itself from the neo liberalism that has lately dominated policy and returning to the task of redefining traditional values

The Free Economy and the Strong State Andrew Gamble, 1994-05-24 The Thatcher era was a turbulent and controversial period in British politics Andrew Gamble's authoritative account now revised and updated to cover Thatcher's fall and legacy analyses the ideology statecraft and economic and social programme of the Thatcher Government He explores rival interpretations of Thatcherism and assesses the evidence for claims that the Thatcher Government transformed British politics A new conclusion considers the Conservative Party after Thatcher New to this Edition Both Thatcher's fall and legacy covered in this text New conclusion appraising the Conservative party in the wake of Thatcher

Comparative Health Policy and the New Right Christa Altenstetter, Stuart C. Haywood, 1991-06-18 A compilation of essays which examine the response of the new Right to health policy issues While economic circumstances dictate the pressures placed on policy makers it is argued that there is a gap between the rhetoric they espouse and the actions initiatives taken

The New Right Norman P. Barry, 2019-11-19 First published in 1987 Towards the end of the twentieth century there was a resurgence of thinking about politics economics and society referred to variously as the New Right the radical right neo conservatism economic liberalism or libertarianism Although the New Right is not a single coherent movement it represented a clear alternative to the prevailing social democratic consensus and had had considerable influence on government policy in both America and Britain This book presents an introductory survey of the New Right worldwide It examines the varieties of free market and monetarist economic thought and introduces the reader to the public choice critique of public policy In political philosophy the book analyses American and British conservative thought and compares conservatism with neo liberalism The author

pays particular attention to the New Right's analysis of constitutionalism and its critique of the dominance of politics over economics during the high point of the consensus period. The author assesses the success which the different schools of the New Right have had in influencing public opinion and in the formation of government policy. He does not argue for or against the New Right but presents a dispassionate survey from which the reader can draw his or her own conclusions. **World**

Trade Law after Neoliberalism Andrew Lang, 2013-01-17 The rise of economic liberalism in the latter stages of the 20th century coincided with a fundamental transformation of international economic governance especially through the law of the World Trade Organization. In this book Andrew Lang provides a new account of this transformation and considers its enduring implications for international law. Against the commonly held idea that neoliberal policy prescriptions were encoded into WTO law, Lang argues that the last decades of the 20th century saw a reinvention of the international trade regime and a reconstitution of its internal structures of knowledge. In addition, the book explores the way that resistance to economic liberalism was expressed and articulated over the same period in other areas of international law, most prominently international human rights law. It considers the promise and limitations of this form of inter-regime contestation, arguing that measures to ensure greater collaboration and cooperation between regimes may fail in their objectives if they are not accompanied by a simultaneous destabilization of each regime's structures of knowledge and characteristic features. With that in mind, the book contributes to a full and productive contestation of the nature and purpose of global economic governance.

Rethinking the French New Right Tamir Bar-On, 2013-04-12 This book focuses on the philosophy, politics and impact of the New Right, which originated in France and has since influenced activism, ideology and policy in a number of European countries. This book explores the idea that revolutionaries do not necessarily need to come from the left nor use arms in order to overturn liberal democracy. In the post-World War Two era, the extremists of the revolutionary right took three different paths: 1) parliamentary, 2) extra-parliamentary and 3) metapolitical. The New Right (*nouvelle droite*) in France took the metapolitical path but that did not mean it abandoned its revolutionary desire to smash liberal democracy throughout Europe. The book examines four interpretations of the New Right. These interpretations include the following: 1) The New Right as a fascist or quasi-fascist movement; 2) The New Right as a challenge to the traditional right-left dichotomy which has structured European political debates for more than 200 years; 3) The New Right as an alternative modernist movement which rejects liberal and socialist narratives of modernity, accepts the technical but not political or cultural effects of modernity and longs for a pan-European political framework abolishing liberal multiculturalism and privileging ethnic dominance of so-called original Europeans; and 4) The New Right as a variant of political religion and conversionary processes. The book concludes by analysing the positions, cultural and political impact and relationship to democracy of the New Right. This work will be of great interest to students and scholars of racism, fascism, extremism, European politics, French politics and contemporary political theory.

Australian Economy and Neo-liberalism Celal Bayari, 2012 Australia's economy has

long been typified by neo liberal governance foreign investment dependence exports dominated by grains resources and energy and an industrial structure in which foreign multinational enterprises play the leading role These factors have not always contributed to stable growth and a strong manufacturing sector Further they have not always led to the best outcomes for Australia in its integration into the regional and global patterns These themes form the focus of this book which presents an analysis of Australia s economic orthodoxy and its effects Series Global Cultural and Economic Research Vol 10

New Left, New Right and Beyond G. Andrews,R. Cockett,A. Hooper,M. Williams,1999-05-19 The 1960s represented a defining turning point in the politics and cultures of western societies But what of the lasting political and cultural legacies of the sixties In this book a range of leading thinkers show how the sixties continue to influence contemporary debates on globalization and democracy

Economic and Strategic Issues in U. S. Foreign Policy Carl-Ludwig Holtfrerich,2011-07-22 No detailed description available for Economic and Strategic Issues in U S Foreign Policy

The Political Thought of the Conservative Party since 1945 K. Hickson,2005-04-01 The Conservative Party is usually seen as being non ideological This book is the first comprehensive treatment of the political thought of the Conservative Party examining the major elements of Conservative thinking since 1945 cross cutting thematic issues and commentaries from leading politicians and journalists The book is essential for anyone interested in the history and future of the Party

Equity and Efficiency in Economic Development Donald J. Savoie,Irving Brecher,1992-10-16 The ideological foundations of the contributors range from personalized neo Marxism through extreme centre neo Keynesianism to hard line neoclassical mathematical economics Despite this diversity there is a surprising degree of consensus No contributor advocates centralized planning and none expects a free market to cure all economic ills Opinions vary as to how well the market actually works but all agree that equity and efficiency are essential goals which most consider to be complementary rather than mutually exclusive In the concluding chapter it is suggested that current economic problems are caused not so much by government intervention as by the nature of that intervention The authors believe that the recent ideological convergence may lead to a new paradigm a theory of the optimal blend of market and management that will be flexible enough to deal with the varying conditions of diverse societies thus simplifying the task of creating a smooth running global economy The contributors are Irma Adelman Mark Blaug Kenneth Boulding Irving Brecher Albert Breton John S Chipman Andr Gunder Frank Martha Fuentes Frank Niles Hansen Murray C Kemp Robin Marris Richard Musgrave Walt Rostow Donald J Savoie Nicholas Spulber and Paul Streeten Higgins himself contributes a chapter on basic concepts and collaborates with Donald Savoie on the final chapter

Old Nazis, the New Right, and the Republican Party Russ Bellant,1991 A provocative sometimes chilling expose of domestic fascist networks which include Nazi collaborators within the Republican Party

Portugal Since the 2008 Economic Crisis António Costa Pinto,2023-05-11 Portuguese democracy is now celebrating its 50th anniversary Portugal joined the European Union EU in 1986 but the enduring legacies of the country s transition

process from authoritarianism to democracy became apparent during the European sovereign debt crisis when Portugal experienced its third bailout since the institutionalization of democratic government. Although the first decade after EU accession was one of slight growth and investment, Portugal's economy has in effect been performing poorly since the beginning of the 21st century. Among the major changes in Portugal, as in much of Southern Europe, as a result of the great recession was the emergence of important new actors including populist parties, new social movements, and the polarization of attitudes toward the EU. In some of these areas, the phrase with the exception of Portugal was always present. This book explores the factors that might explain why this is no longer the case, presenting a global overview with an interdisciplinary focus of the processes of economic, social, and political changes in Portuguese democracy since the 2008 economic crisis. The volume is accessible to a broad academic audience with chapters examining economic, political, social, and foreign policy issues for scholars interested in an analysis of Portugal's emergence from the economic crisis.

America: A Concise History, Volume Two: Since 1865 James A. Henretta, Rebecca Edwards, Robert O. Self, 2012-01-09 With fresh interpretations from two new authors wholly reconceived themes and a wealth of cutting edge scholarship, the Fifth Edition of *America: A Concise History* is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths—balance, explanatory power, and a brief yet comprehensive narrative, as well as its outstanding full-color visuals and built-in primary sources—authors James Henretta, Rebecca Edwards, and Robert Self have shaped *America* into the ideal brief book for the modern survey course at a value that can't be beat.

Wrong for All the Right Reasons Gordon MacInnes, 1996-02-01 There was a time in this century when liberals championed the working class when Democrats were indisputably the party of those who worked rather than invested for a living. Today, however, most Americans have come to see liberals as drifting and aimless, somehow lacking in backbone and moral fiber, beholden to radical ideologies that have little to do with the average American's life. Few incidents cast this phenomenon into greater relief than George Bush's successful tarring of Michael Dukakis as a liberal in 1988 and tellingly, Dukakis's subsequent flight from the liberal tradition. How has it come to this? Why have liberals allowed themselves to be so portrayed? In this book, Gordon MacInnes, state senator, fiscal conservative, frustrated Democrat, and a man who believes deeply in America's civic culture, reveals how progressive forces have retreated from the battle of ideas at great cost. Squarely at the nexus of race, poverty, and politics, *Wrong for All the Right Reasons* charts the sources of liberal decline and the high costs of conservative rule. Tracing the origins of the liberal retreat to the fall out over Senator Daniel Patrick Moynihan's report on the black family in the 1960s, MacInnes claims that white liberals have somewhere along the way stopped taking black people seriously enough to argue with them. Continuously put on the defensive, liberals have been unable to forge an aggressive, proactive agenda of that addresses the needs of working class and poor Americans. This has led to a breakdown of honest dialogue which to this day continues to plague liberal Democrats, as evidenced by Bill Bradley's withdrawal from active party politics last fall. Finding room for optimism in

the groundswell of grass roots progressivism Wrong for All the Right Reasons is a timely necessary call to arms for liberal progressive Democrats outlining ways in which they can reverse their party's dangerous decline **When Left Moves**

Right Maria Snegovaya, 2024 In When Left Moves Right Maria Snegovaya argues that the transition era pro market convergence of mainstream parties particularly the neoliberal policies adopted by former communist left parties left reform losers electorates in precarious economic situations such as working class electorates without political representation Subsequently these social groups were incorporated by emerging populist political actors The Evolution of Conservative

Party Social Policy B. Williams, 2015-05-13 This book addresses how the Conservative Party has re-focused its interest in social policy Analysing to what extent the Conservatives have changed within this particular policy sphere the book explores various theoretical social political and electoral dimensions of the subject matter The Struggle to Save the Soviet

Economy Chris Miller, 2016-10-13 For half a century the Soviet economy was inefficient but stable In the late 1980s to the surprise of nearly everyone it suddenly collapsed Why did this happen And what role did Soviet leader Mikhail Gorbachev's economic reforms play in the country's dissolution In this groundbreaking study Chris Miller shows that Gorbachev and his allies tried to learn from the great success story of transitions from socialism to capitalism Deng Xiaoping's China Why then were efforts to revitalize Soviet socialism so much less successful than in China Making use of never before studied documents from the Soviet politburo and other archives Miller argues that the difference between the Soviet Union and China and the ultimate cause of the Soviet collapse was not economics but politics The Soviet government was divided by bitter conflict and Gorbachev the ostensible Soviet autocrat was unable to outmaneuver the interest groups that were threatened by his economic reforms Miller's analysis settles long standing debates about the politics and economics of perestroika transforming our understanding of the causes of the Soviet Union's rapid demise **Great Transformations**

Mark Blyth, 2002-09-16 This book picks up where Karl Polanyi's study of economic and political change left off Building upon Polanyi's conception of the double movement Blyth analyzes the two periods of deep seated institutional change that characterized the twentieth century the 1930s and the 1970s Blyth views both sets of changes as part of the same dynamic In the 1930s labor reacted against the exigencies of the market and demanded state action to mitigate the market's effects by embedding liberalism In the 1970s those who benefited least from such embedding institutions namely business reacted against these constraints and sought to overturn that institutional order Blyth demonstrates the critical role economic ideas played in making institutional change possible Great Transformations rethinks the relationship between uncertainty ideas and interests achieving profound new insights on how and under what conditions institutional change takes place

The Top Books of the Year Economics After The New Right The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have enthralled audiences this year. Economics After The New Right : Colleen Hoover "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Economics After The New Right : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Economics After The New Right : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
