Ecotourism A Sustainable Option:

Ecotourism Royal Geographical Society (Great Britain), 1994-12-05 Published in association with the Royal Geographical Society *Ecotourism* Cater, Ecotourism Samantha Grossmith, 1998 *Resource Sustainability and Caribbean Development* Duncan F. M. McGregor, David Barker, Sally Lloyd-Evans, 1998 *Resource Sustainability and Caribbean Development* follows on from Barker and McGregor's earlier edited volume *Environment and Development in the Caribbean Geographical Perspectives* 1995 and aims to focus more specifically on the theme of sustainability and to examine research contributions of geographers to problems of sustainability in the Caribbean region While the problems of environmental degradation have increased in recent decades the ability of Caribbean governments to cope with the consequences appears to have been eroded There is however a growing recognition within the region of the need for development strategies that focus on the social needs of the people yet simultaneously protect the fragile natural environment It is hoped that the research presented here will serve to inform the wider research and decision making community of the main problems associated with resource sustainability in the region and of some of the major research directions crucial to the alleviation of these problems Preface

Conservation and the Use of Wildlife Resources Melvin Bolton, 2012-12-06 Not everybody cares about the fate of wild animals or the state of the natural environment I met a lady who said it wouldn't worry her if all the wild animals in the world disappeared overnight She was a city person she said There are also people who would prefer to let animals become extinct than to have them kept in captivity no matter how progressive the zoo There are those who on principle will not eat meat let alone do the killing and there are those who enjoy nothing so much as shooting birds People in the last two camps may oppose each other in claiming to be conservationists Extremists are unlikely to find their opinions being reversed by this book but because of the scope of the subject I believe there is a good chance that anybody with an interest in wildlife will find in it something new to think about It may not be too much to hope that a few disagreements might also be settled because I suspect there is more common ground than is generally realized among those with opposing views

Institutional Arrangements for Conservation, Development and Tourism in Eastern and Southern Africa René van der Duim, Machiel Lamers, Jakomijn van Wijk, 2014-11-16 This book presents an overview of different institutional arrangements for tourism biodiversity conservation and rural poverty

reduction in eastern and southern Africa These approaches range from conservancies in Namibia community based organizations in Botswana conservation enterprises in Kenya private game reserves in South Africa to sport hunting in Uganda and transfrontier conservation areas The book presents a comparative analysis of these arrangements and highlights that most arrangements emerged in the 1990s through either a decentralized or centralized change trajectory that was sponsored by donors They aim to address some of the challenges of the fortress types of conservation by combining principles of community based natural resource management with a neoliberal approach to conservation evident in the use of tourism as the main mechanism for accruing benefits from wildlife The book illustrates the empirical relevance of these novel arrangements by presenting their growth in numbers and discuss how these arrangements differ in their form With respect to the conservation and development impacts of these arrangements we show that they have secured large amounts of land for conservation but also generated governance challenges and disputes on tourism benefit sharing affecting the stability of these arrangements to generate socioeconomic and conservation benefits

Tourism and Sustainability Martin

Mowforth,Ian Munt,2015-12-22 By January 2015 the world s richest 80 people had as much wealth as the poorest 50 per cent of the world s population It is a global unevenness through which the barriers to in migration of Third World migrants to wealthy First World nations go ever higher while the barriers to travel in the reverse direction are all but extinct So how exactly does tourism contribute to narrowing this glaring inequality between the rich and poor Are ever expanding tourism markets a smoke free socioculturally sensitive form of human industrialisation Is alternative tourism really a credible lever for reducing global inequality and eliminating poverty Tourism and Sustainability critically explores the most significant universal geopolitical norms of the last half century development globalisation and sustainability and through the lens of new forms of tourism demonstrates how we can better get to grips with the rapidly changing new global order The fourth edition has been extensively revised and updated and benefits from the addition of new material on climate change and tourism Drawing on a range of examples from across the Third World Mowforth and Munt expertly illustrate the social economic and environmental conditions that continue to affect the tourism industry With the first edition hailed by Geoffrey Wall as one of the most significant books produced on tourism since the turn of the millennium Tourism and Sustainability remains the essential resource for students of human geography environmental sciences and studies politics development studies anthropology and business studies as well as tourism itself

Tourism in Post-Communist States Piotr

Niewiadomski,2023-05-29 This book addresses tourism and its development in the post communist context of Central and Eastern Europe CEE Although it has been over 30 years since many countries of Central and Eastern Europe embarked on the path of transition from state socialism to capitalism and liberal democracy the ongoing atrocious events in Ukraine bluntly remind us that the perception of CEE as a transition region may have been done away with too early and that the legacies of communism continue to influence the reality of the region Tourism is no exception here While on the one hand tourism has significantly contributed to the post communist restructuring of CEE on the other the communist heritage has played and still plays an important role in shaping the tourism geographies of the CEE region The book consists of 14 chapters divided into two sections a new introduction and a reflective concluding section All 14 main chapters in this book were originally published in the Tourism Geographies journal The aim of the book is two fold First it summarises distils and highlights the important and often ground breaking contributions Tourism Geographies has made over the years to the debate on tourism in CEE Second it lays foundations for further research on tourism in the post communist states of CEE

This book will be of great interest to upper level students researchers and academics in various disciplines human geography politics sociology and tourism studies in general
