Sarangapani,2006-02-01 The development experience of Andhra Pradesh will make a very useful case study in the context of globalization as it launched many initiatives as part of the structural adjustment programme SAP through World Bank assistance covering important sectors like power education irrigation and governance It is probably the only state that had formulated a Vision Document to achieve an overall growth rate of 15 percent by 2020 with a massive investment of 30 000 crores basically to provide people opportunities both social and economic to achieve prosperity and wellbeing and enjoy a high quality of life An intense scrutiny of these initiatives would be extremely critical for the national economy aside being useful to other States All this has assumed significance in the context of adopting second generation reforms involving many aspects in the State list The present volume offers valuable insights about the reform process and experience of Andhra Pradesh *Development Economics* HL Ahuja, A result of more than four decades of teaching experience this book deals with the problems of economic growth development and eradication of poverty and unemployment The book also includes an analytical study of important issues of environment and sustainable development The book not only explains the models and theories of economic growth but also critically evaluates their relevance to developing countries A major highlight of discussion in the context is the exploration of the widely accepted Amartya Sen s Capability Approach to development

Urban Growth in Emerging Economies Gordon McGranahan, George Martine, 2014-04-29 Along with globalization urban transitions have been central in the southward shift in economic power towards the newly emerging economies As this book shows however these transitions have not been painless and it is important for the rest of the urbanizing world to learn from the mistakes It examines the role of urbanization and urban growth in the emerging economies taking the BRICS countries Brazil Russia India China and South Africa as case studies Their different approaches towards urbanization have shaped their historical development paths and assisted or constrained their futures Several of the BRICS bear heavy burdens from past failures to accommodate urban growth inclusively and efficiently and many other urbanizing countries in Asia and Africa are in danger of replicating their mistakes The overriding lesson of the book is that cities and nations must anticipate urbanization and accommodate urban growth pro actively so as not to be left with an enduring legacy of inequalities and lost opportunities This book is aimed at students and researchers in urban studies and development studies It will also be of interest to policy advisors concerned with urbanization and the role of cities in a country s development
