Logic of Action Murray Newton Rothbard, 1997 In the second volume of his collected essays *The Logic of Action* Murray Rothbard again demonstrates his extraordinary range of thought This volume considers among other issues criticisms of some of the most influential economists and economic theories of the present and previous centuries **Economics of Large Wheat Farms in the Great Plains** Ronald D. Krenz, Walter George Heid, Harry G. Sitler, 1974 **Annual Index**, 1928 **Scientific and Technical Aerospace Reports**, 1989 **The Invention of the White Race, Volume 2** Theodore W. Allen, 2012-11-20 On the steps of the Lincoln Memorial in 1963 Martin Luther King outlined a dream of an America where people would not be judged by the color of their skin That dream has yet to be realized but some three centuries ago it was a reality Back then neither social practice nor law recognized any special privileges in connection with being white But by the early decades of the eighteenth century that had all changed Racial oppression became the norm in the plantation colonies and African Americans suffered under its yoke for more than two hundred years In Volume II of *The Invention of the White Race* Theodore Allen explores the transformation that turned African bond laborers into slaves and segregated them from their fellow proletarians of European origin In response to labor unrest where solidarities were not determined by skin color the plantation bourgeoisie sought to construct a buffer of poor whites whose new racial identity would protect them from the enslavement visited upon African Americans This was the invention of the white race an act of cruel ingenuity that haunts America to this day Allen's acclaimed study has become indispensable in debates on the origins of racial oppression in America In this updated edition scholar Jeffrey B Perry provides a new introduction a select bibliography and a study guide **Commerce Reports Nos.14-26.Volume 2.Thirtieth Year.April,May,June 1927** United States Department of Commerce, Bureau of Foreign and Domestic Commerce, 1927 **Agricultural Cooperation; Legal, Economic and Organization Information Collected by the Bureau of Agricultural Economics**, 1925 *Journal of Research of the National Bureau of Standards* United States. National Bureau of Standards, 1985 **Investigation of Concentration of Economic Power** United States. Temporary National Economic Committee, 1940 **Commerce Reports Volume 2**, 1928 [Salmon Recovery in the Pacific Northwest : Agricultural and Other Economic Effects](#), 1996 [Energy](#), 1981 *Energy: a Continuing Bibliography with Indexes*, 1981 **The Economic Thought of William Petty** Hugh Goodacre, 2018-05-11 William Petty 1623 1687 long recognised as a founding father of English political economy was actively involved in the military colonial administration of Ireland following its invasion by Oliver Cromwell and to the end of his days continued to devise schemes for securing England's continued domination of that country It was in that context that he elaborated his economic ideas which consequently reflect the world of military bureaucratic officialdom neo feudalism and colonialism he served This book shows that much of the theory and methodology in use within the economics discipline of today has its roots in the writings of Petty and his contemporaries rather than in the supposedly universalistic and enlightened ideals of Adam Smith a century later Many of the fundamental ideas of today's development economics for

example are shown to have been deployed by Petty explicitly for the purpose of furthering England's colonialist objectives while his pioneering writings on fiscal issues and national accounting theory were equally explicitly directed towards the raising of funds for England's predatory colonial and commercial wars. This book argues that exploring the historical roots of economic ideas and methods in this way is an essential aspect of assessing their appropriateness and analytical power today and that this is more relevant than ever. It will be of interest to advanced students and researchers in the history of economic thought, early modern economic history, development economics, and economic geography.
