The Economics of UN Peacekeeping Nadège Sheehan, 2011-07-25 Peacekeeping is a security concept that is very representative of the current interventionism multilateralism human rights and humanitarian ideas UN peacekeeping plays an important role in international security and includes various activities that go beyond the original roles assigned to UN armed forces e.g. humanitarian aid election supervision disarmament mine clearance civilian protection and peacebuilding The problem is to define the economic efficiency of these operations and to develop some recommendations in the context of an economic globalization process Although UN peacekeeping has shortcomings it must be considered essential for organizing and defending the world politico economic order UN peacekeeping is a political activity but its production strongly depends on nations economic considerations Governments make political decisions that also take into account the economic gains they expect to obtain from their contribution to any specific mission With low means and inadequate strategies to meet the challenges UN peacekeeping must pay particular attention to resolving the problems of free riding and of prisoner's dilemma in contributions that delay deployments and create significant financial problems Understanding how peacekeeping can be most cost effectively carried out while considering the importance of legitimacy in interventions is essential This book believes that regional organizations can ease the UN's financial responsibility by managing conflicts in their regions But to be most effective they must involve the UN in their interventions This book also emphasizes UN peacekeeping trust funds as the key to better financial effectiveness It strongly recommends that NATO be empowered by the UN with the role of global peace police and proposes the establishment of a UN high ranking team of international specialists in peacekeeping issues This research should be of interest to students and researchers looking at international and political economics as well as international relations defence security and peace studies

Obstacles to Peacebuilding Graciana del Castillo, 2017-03-16 Combining the insights of a seasoned practitioner with the academic rigor of a meticulous policy and risk analyst del Castillo discusses the major obstacles to peacebuilding that need to be removed before war torn countries can move towards peace stability and prosperity As Secretary General António Guterres assumes

leadership in January 2017 a top priority must be to address the bleak peacebuilding record where over half of the countries under UN watch relapse back into conflict within a decade While policy debate and the academic literature have focused on the security political and social aspects of the war to peace transition this book focuses on the economic transition that is economic reconstruction or the political economy of peace which in the author's view is the much neglected aspect of peacebuilding The book argues that rebuilding war torn states effectively has acquired a new sense of urgency since extremist groups increasingly recruit people by providing jobs and services to those deprived of them due to government and economic failures Based on past lessons and best practices of the last quarter of a century the author makes recommendations to move forward and improve the record It will be of great use to students and scholars of peacebuilding as well as policymakers in national governments donor countries and international organizations involved in peacebuilding statebuilding and development

Economics of Peace Werner Distler, Elena B. Stavrevska, Birte Vogel, 2020-06-09 Looking beyond and beneath the macro level this book examines the processes and outcomes of the interaction of economic reforms and socio economic peacebuilding programmes with and international interventions in people's lived realities in conflict affected societies The contributions argue that disregarding socio economic aspects of peace and how they relate to the everyday leaves a vacuum in the understanding of the formation of post conflict economies To address this gap the book outlines and deploys the concept of post conflict economy formation This is a multifaceted phenomenon including both formal and informal processes that occur in the post conflict period and contribute to the introduction adjustment or abolition of economic practices institutions and rules that

inform the transformation of the socio economic fabric of the society The contributions engage with existing statebuilding and peacebuilding debates while bringing in critical political economy perspectives Specifically they analyse processes of post conflict economy formation and the navigation between livelihood needs local translations of the liberal hegemonic order and different sparse manifestations of welfare states The book concludes that a sustainable peace requires the formation of peace economies economies that work towards reducing structural inequalities and grievances of the pre conflict period as well as addressing the livelihood concerns of citizens This book was originally published as a special issue of Civil Wars Regional Economic Outlook April 2004: Sub-Saharan Africa INTERNATIONAL MONETARY

FUND,2006-01-23 The five Regional Economic Outlooks published biannually by the IMF cover Asia and Pacific Europe the Middle East and Central Asia Sub Saharan Africa and the Western Hemisphere In each volume recent economic developments and prospects for the region are discussed as a whole as well as for specific countries The reports include key data for countries in the region Each report focuses on policy developments that have affected economic performance in the region and discusses key challenges faced by policymakers The near term outlook key risks and their related policy challenges are analyzed throughout the reports and current issues are explored such as when and how to withdraw public interventions in financial systems globally while maintaining a still fragile economic recovery These indispensable surveys are the product of comprehensive intradepartmental reviews of economic developments that draw primarily on information the IMF staff gathers through consultation with member countries **Explaining Civil War** Syed Mansoob

Murshed,2010-01-01 Conflict is now identified as one of the most significant sources of development failure and thus of growing income divergence between nations Dr Murshed s book addresses the issues of weak institutions conflict and slow growth It presents a synthesis of the existing theories and provides many new insights It will certainly be much consulted and read by academics policy makers and all those who are interested in the causes of conflict and post conflict reconstruction Branko Milanovic The World Bank Masterfully integrating the logic of formal economic models the insights of normative philosophy and evidence from empirical analysis Syed Mansoob Murshed explains civil wars This is a brilliant original work Scott Gates PRIO and Norwegian University of Science and Technology Norway This masterly book succinctly surveys contemporary literature on the sources of conflict in developing countries as well as policies to secure a stable peace including many insightful contributions by the author The treatment of this important but controversial field is both informative and well balanced It should be essential reading for all students and policy makers who believe that policy should be evidence based Frances Stewart University of Oxford UK Using the rational choice approach Syed Mansoob Murshed analyses the motivations behind civil war and identifies growth and institutional failure as catalysts of the greed and grievance that characterise the onset and persistence of civil war This book explores the pre conditions for conflict in terms of growth failure and critically appraises the greed and grievance theories common to conflict literature It is argued that

various institutional mechanisms of restraint that can be labeled the social contract are crucial for violent conflict avoidance. The reasons underpinning the instability of treaties ending civil wars, post conflict reconstruction issues, liberal peace theory, and how globalization and conflict relate are also examined. Explaining Civil War will be of interest to development economists and political scientists as well as to students and researchers of political economy and conflict studies.
