

Voltaire

Écrasez l'infâme

(crush the infamous thing) most famous phrase against Church! Voltaire a Deist.

Candide, ou l'Optimisme (1759) novella

satire. Young man, Candide, sheltered life in Edenic paradise & indoctrinated

w/Leibnizian optimism (since God created world & God is perfect, everything in world is ultimately perfect) by tutor Pangloss.

Suddenly Candide alone, realizes disillusionment & pain of life.

Lesson: "**we must cultivate our garden**," in lieu of Leibnizian mantra of Pangloss, "all is for the best in the best of all possible worlds."

Ecrasez Linfame Against All Religious Wars:

'Ecraser L'Infame!' - Against All Religious Wars J. Fang, 2004-02 What is the cost of religion in the modern world Pretty high is the view of retired philosophy mathematics professor J Fang as he addresses the issue of man's spirituality and the burden of theocratic denomination Cultural panavision verbal technicolour and the sharply focussed lens of an academic outsider from the East now settles in enlightened Virginia make Ecrasez L Infame very challenging very up close and personal for those who espouse the Judeo Christian tradition Yet it's so big in scope so careful in its analyses and so firm in its grasp of the history of ideas that readers of all persuasions will surely enjoy and benefit from Mr Fang's erudition and insight **War of Antichrist with the Church and Christian Civilization** George F. Dillon, 1885 **After God** Mark C.

Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis After God redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description

Power, 2012-01-13 Thoughtful Christians are legitimately perplexed by a number of issues relating to the church s belief and practice They are perplexed partly because they recognize that the issues themselves are thorny and partly because they are not sure how to test the mutually inconsistent theories and explanations affirmed by diverse voices speaking with equal assurance Most Christians find relatively little occasion or encouragement to address their perplexities with intellectual candor and integrity If they dare to acknowledge their theological perplexities at all they are too often told that these perplexities are unimportant or that they can be answered very simply or that they should be left to the experts Guide for the Christian Perplexed written by members of the faculty of Wycliffe College Toronto aims to explore a diversity of issues and questions to do with our knowledge of Jesus the meaning of suffering the function of doctrine the understanding of Scripture the place of other religions the challenge of atheism the pleasures and complications of sexuality the nature of worship the way to evangelize our understanding who our neighbor is locally and globally the diversities of spirituality Here you will find thoughtful reflections and answers to the questions around these issues A study guide is included for individual and group use **The Complete Works of Sir Walter Scott** Walter Scott, 1841 **Remarks on the Rev. Nietzsche as Philosopher Arthur C. Danto, 2005 Few philosophers are as widely read or as widely misunderstood as Friedrich Nietzsche When Danto s classic study was first published in 1965 many regarded Nietzsche as a brilliant but somewhat erratic thinker Danto however presented a radically different picture arguing that Nietzsche offered a systematic and coherent philosophy that anticipated many of the questions that define contemporary philosophy Danto s clear and insightful commentaries helped canonize Nietzsche as a philosopher and continue to illuminate subtleties in Nietzsche s work

as well as his immense contributions to the philosophies of science language and logic This new edition which includes five additional essays not only further enhances our understanding of Nietzsche's philosophy it responds to the misunderstandings that continue to muddy his intellectual reputation Even today Nietzsche is seen as everything from a precursor of feminism and deconstruction to a prophetic writer and spokesperson for disgruntled teenage boys As Danto points out in his preface Nietzsche's writings have purportedly inspired recent acts of violence and school shootings Danto counters these misreadings by elaborating an anti Nietzschean philosophy from within Nietzsche's own philosophy in the hope of disarming the rabid Nietzsche and neutralizing the vivid frightening images that have inspired sociopaths for over a century The essays also consider specific works by Nietzsche including *Human All Too Human* and *The Genealogy of Morals* as well as the philosopher's artistic metaphysics and semantical nihilism

Christianity and Rabbinic Judaism Jonas Alexis, 2013-01-10

Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world

Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaire's self appointed cheerleaders such as Diderot Helvetius d'Holbach D'Alembert Lamettrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lamettrie produced *Man A Machine* and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying *crasez linfme* Rousseau of course was a disciple of Voltaire and declared that Voltaire's work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross

Does Christianity Cause War? David Martin, 2006

This bold work challenges two popular conceptions of religion as either the instigator of conflict or the propagator of peace Martin one of the world's leading sociologists of religion rejects both as oversimplifications and draws on case studies from Britain the US Latin American and Romania to argue for a more nuanced complex approach that takes account of the role of
