Voices from the Vietnam War Xiaobing Li, 2010-05-07 Some of this book is heartrending some of it is as gripping as a thriller and all of it will add to our understanding of the war Booklist The Vietnam War's influence on politics foreign policy and subsequent military campaigns is the center of much debate and analysis But the impact on veterans across the globe as well as the effects on individual lives and communities is a largely neglected issue As a consequence of cultural and legal barriers the oral histories of the Vietnam War currently available in English are predictably one sided providing limited insight into the inner workings of the Communist nations that participated in the war Furthermore many of these accounts focus on combat experiences rather than the backgrounds belief systems and social experiences of interviewees resulting in an incomplete historiography of the war Chinese native Xiaobing Li corrects this oversight in *Voices from the Vietnam War* Stories from American Asian and Russian Veterans Li spent seven years gathering hundreds of personal accounts from survivors accounts that span continents nationalities and political affiliations The twenty two intimate stories in this book feature the experiences of American Chinese Russian Korean and North and South Vietnamese veterans representing the views of both anti Communist and Communist participants including Chinese officers of the PLA a Russian missile training instructor and a KGB spy These narratives humanize and contextualize the war's events while shedding light on aspects of the war previously unknown to Western scholars providing fresh perspectives on a long discussed topic Li's achievement is most remarkable for the window he opens onto the lives of Chinese and Russian veterans their rare accounts appear here for the first time in English Publishers Weekly *A Checklist of Vietnam War Literature*, 1994 *Blood Warriors* Col. Michael Lee Lanning, 2007-12-18 Rangers Green Berets SEALs Delta Force LRRPs Force Recon and the struggle of the best and the bravest to keep America free They're some of the toughest and most highly trained fighting men in the world going where no ordinary soldier would go and doing what no ordinary soldier would dare Outnumbered and outgunned operating in small teams of five or six deep in enemy territory far from help they rely on their wits their skills and each other to get out alive *Blood Warriors* is a penetrating no holds barred account of the training missions and history of the military elites who mold America's most dangerous and highly skilled warriors from the navy's SEALs and the Marine Corps Force Reconnaissance to

the U S Army s Delta Force Rangers and Special Forces Here s an in depth look at each unit s methods and standards what s required and what it takes to survive and succeed Whether gathering intelligence capturing prisoners executing raids and ambushes or just creating havoc in enemy territory these men know that death is their constant companion and one small misstep could mean body bags for everyone Maybe that s why America calls them heroes
