Albert Zasuda, 1973 *Handbook of Physical Education* David Kirk, Doune Macdonald, Mary O'Sullivan, 2006-09-18 This is simply the physical education book of its time. Mike Jess, University of Edinburgh. This Handbook is a must read for all physical educators who are serious about understanding their subject and developing their practices. The list of authors involved reads like a who's who of physical education at a global level; the editors are to be commended on bringing together such collective expertise. This is a key strength of the book. The Handbook successfully expresses a view of knowledge about physical education pedagogy which embraces different research traditions and emerging areas of interest across the global scholarly community. Jo Harris, Loughborough University. This comprehensive and eclectic exploration into the field of physical education draws on the vast expertise of its renowned international contributors with astounding results. The Handbook of Physical Education serves to firmly reinstate physical education to its position as the core discipline of sport and exercise science. The Handbook is destined to become an indispensable academic resource for scholars, students, and enthusiasts of physical education for years to come. Pilvikki Heikinaro, Johansson, University of Jyväskylä. What is the current condition of the field of physical education? How has it adapted to the rise of kinesiology, sport and exercise science, and human movement studies over the last thirty years? This Handbook provides an authoritative critical overview of the field and identifies future challenges and directions. The Handbook is divided into six parts: Perspectives and Paradigms in Physical Education; Pedagogy Research; Cross-disciplinary Contributions to Research on Physical Education; Learners and Learning in Physical Education; Teachers Teaching and Teacher Education in Physical Education; Physical Education Curriculum; Difference and Diversity in Physical Education. This benchmark work is essential reading for educators and students in the field of physical education.
