Laffan,2013-09-13 This is Volume XII of twenty one in the Individual Differences series with the library of Psychology First published in 1932 this looks at personality in terms of reading markings in the human hand over a period of time with observations of the change in lines in relation to the development of the mind **The Everything Palmistry Book** Katina Z Jones,2003-07-01 The lines on your hand are as distinctive as the DNA that sets you apart as an individual telling a great deal about your past present and future as well as providing insights into who you are A practice that dates back more than 1 000 years palmistry is the study of the lines texture shapes and idiosyncrasies of the hand The Everything Palmistry Book introduces you to this ancient art and guides you step by step through the major lines of the hand and the meaning of each one From identifying the line of destiny to finding the perfect love match to choosing the right career to discovering potential health risks this fun and informational book shows you how to reveal things about yourself no one else knows The Everything Palmistry Book helps you learn to Gauge your creativity level Control your destiny Analyze your fingerprints Choose a career to fit your personality Find the perfect partner Packed with dozens of clear drawings of palms The Everything Palmistry Book will have you discovering new and exciting details about your yet unknown future in no time *The Hand Reveals* Dylan Warren-Davis,2021-04-26 A practical guide to the fascinating art of reading hands Cheiromancy is the art of handreading in which all aspects of a person s hand are considered in order to gain an accurate picture of their inner nature distinct from the fortune telling of palmistry What has come down to us as palmistry today is a rather degenerate and effete form of the ancient discipline of chiromancy The word cheiromancy comes from the Greek chir meaning hand and manteia meaning divination literally meaning divination through the hand The Hand Reveals is not merely theoretical at various points throughout the book readers are encouraged to try and apply this knowledge at every opportunity to find confirmation of the ideas There is a considerable amount of knowledge and information compressed into these pages and even the most diligent student would have difficulty in digesting it in one reading It is recommended that you refer back as often as necessary to go the material you have read to allow your understanding of cheiromancy to grow gradually Originally published in 1993 this edition has been revised and updated with new material *The Art and Science of Hand Reading* Ellen Goldberg,Dorian Bergen,2016-02-06 A comprehensive guide to the inner psychology revealed by the hand Details how to interpret the entire hand the shape of the palm and fingers mounts lines fingerprints flexibility nails and skin texture Reveals the personality archetypes strengths and weaknesses connected with each of the seven mounts and how the rest of the hand modifies these traits Explains how lines

change and the decisive influence of the person's own mind in healing defects found on the lines. Palmistry is a science and a universal language. The hand tells a story about your talents, relationships, health, and how you feel about yourself. It reveals periods of ease or challenge in your life and it speaks about your weaknesses and the traits you need to develop. As you change, so do your hands, reflecting the progress you have made. In this comprehensive guide to hand reading based on Ellen Goldberg's 40 years of teaching palmistry and the Western Mystery tradition, the authors make the powerful insights of the hand accessible in an inviting and user-friendly manner. The book presents the character traits and personality archetypes associated with each of the seven mounts of the palm and shows how to determine which are most influential in the nature of the individual. The mount archetypes reveal the lifestyle, love, sex, and marriage preferences, the best career choices, and the unique strengths and weaknesses for each person. The book also examines other factors that enhance the qualities revealed by the mount types, including the flexibility of the hand, texture of the skin, and the shapes of the fingers, fingertips, and nails. The meaning of each major and minor line is described in detail, as well as the influence the person's own mind has in healing defects and obstacles found on their lines. The authors also provide accurate timing guides for each line, making it possible to locate specific events and to see how your lines change over time. Presenting the hand as a guide to self-fulfillment, *The Art and Science of Hand Reading* incorporates correspondences to other mystical sciences such as astrology, Kabbalah, the Hermetic teachings, and archetypal psychology. It also includes practical examples and more than 600 illustrations to show how to integrate the meanings of each part of the hand to form a complete picture of your inner psychology and your ever-changing destiny.
