edition of *The Principles of the Law of Restitution* brings this widely cited and influential volume fully up to date. It has been substantially rewritten to reflect the significant changes in the law of restitution and the expansion in the theoretical and critical commentary on the subject. Following important decisions of the Supreme Court and other courts, large scale changes have been made to the chapters on enrichment at the expense of the claimant, mistake claims against public authorities and change of position. Additionally, this edition contains a new chapter on the operation of juridical bars on restitutionary claims. References to developments in other jurisdictions have been expanded for this edition, reflecting the significance of these changes and how they assist in the interpretation of English law and provide a basis for criticising that law. Further, in the light of leading cases and the contributions of restitutionary scholars around the world, the author's views on specific controversial debates about the ambit, function and interpretation of the subject have changed, sometimes radically. One significant aspect of the book remains unchanged: the book continues to focus on the identification and analysis of the principles which underpin the law of restitution as a whole, but with reference to its three distinct parts: unjust enrichment, restitution for wrongs and the vindication of property rights. This approach provides the reader with a peerless guide to the law of restitution.

Corporations Law in Australia Roman Tomasic, Stephen Bottomley, Rob McQueen, 2002. The second edition of this text incorporates the latest changes to Australian corporations law up to and including the Corporations Act 2001 and the Financial Services Reform Act 2001. Like the 1st edition, this text is written particularly for undergraduate law students. The book introduces students to Australian corporate law in a way that is informed by theory and policy. Throughout the book, the authors draw upon materials from fields such as economics, sociology and politics to provide a contextually relevant account of modern corporate law. Ample references and pointers are provided to policy debates, contemporary issues and to further reading. The authors bring considerable experience in interdisciplinary corporate law teaching and research. The authors aim to stimulate the reader into further critical analysis of corporate law issues and to equip them with the capacity to respond in an informed way to future changes and developments. The book also encourages the reader to independently pursue further research in areas of corporate law. Each of the 25 chapters has been revised and updated. The book deals with: Introduction, the history of corporate law and key themes and perspectives; Corporate Structures and Regulation, including the structure of Australian corporate law, ASIC's role and powers and the role of auditors; Corporate Obligations, including corporate capacity, contractual and criminal liability; Corporate Governance, membership and meetings, directors' duties, shareholders' rights; Corporate Finance, including share and debt capital, the Managed Investments Act 1998 and fundraising; Securities and Takeovers; Corporate Rescues and Winding Up.
