

4.4 Trade: elements and types

According to the geographical range where it's practised, trade can be:

- Domestic: within a country's borders. It has two basic types:
 - a) **Wholesale trade:** buys large quantities of merchandise and sells them to other traders or businesses. For example...
 - b) **Retail trade:** sales directly to consumers. Traditional businesses are experiencing a crisis due to the large retail stores (supermarkets, shopping centres...). Retail trade has moved from the urban centre to the periphery in the last decades.

Nicholas Capaldi,Samuel O. Idowu,René Schmidpeter,Martin Brueckner,2019-05-10 This book offers up to date insights into the theory and practice of Corporate Social Responsibility CSR and sustainability management Gathering contributions by a team of international scholars it shares perspectives from a variety of academic disciplines including management and tourism as well as accounting higher education research and supply chain management Guided by the credo of achieving Responsible Business for Uncertain Times and a Sustainable Future the authors present their latest reflections on and possible solutions for sustainable and responsible business practices All of the contributions presented here are critical evidence based and solution oriented making the book both practical and insightful reading for academics and practitioners alike **Economic Growth in Europe Since 1945** N. F. R. Crafts,Gianni Toniolo,1996-04-18 This compelling volume re examines the topic of economic growth in Europe after the Second World War The contributors approach the subject armed not only with new theoretical ideas but also with the experience of the 1980s on which to draw The analysis is based on both applied economics and on economic history Thus while the volume is greatly informed by insights from growth theory emphasis is given to the presentation of chronological and institutional detail The case study approach and the adoption of a longer run perspective than is normal for economists allow new insights to be obtained As well as including chapters that consider the experience of individual European countries the book explores general European institutional arrangements and historical circumstances The result is a genuinely comparative picture of post war growth with insights that do not emerge from standard cross section regressions based on the post 1960 period Official Bulletin International Labour Office,1969
