ELEPHANT-THE LADY BOSS Dr. C.H. Basappanavar,2021-04-09 Why elephant is known as The Lady Boss The Indian elephant *Elephas maximus* the matriarchal society is led by the wisest and eldest female of the family herd Here the matriarch is the boss Being hub of the family she not only performs the usual maternal tasks but also protects the family with extreme efficiency from potential enemies apart from guiding the family to safety in times of crises The matriarch keeps male suitors at a trunk's distance only allowing them to join the herd when their presence is felt necessary to service the females in oestrus Her long memory over fifty years experiences among others help in leading the family to introduce potential feeding grounds waterholes natural springs and salt licks within her domain ranging over 50 or more km² The matriarchal family remains united and truly stable to enable to wage war against adversaries and enemies With prowess and devotion to her kin the gentle giant remains the unquestionable authority She acts like a lady and thinks like a boss Hence the book **ELEPHANT THE LADY BOSS** **The Asian Elephant** Peter Jackson,1990 This Action Plan considers elephant populations across Asia on the basis of size and provides recommendations to enhance their long term survival It also considers the management of elephants in captivity Given that the basis for improved management of elephants throughout Asia must be sound systematic scientific research the Action Plan recommends a number of research projects that need to be carried out in the field **Elephants and Their Young** Jean C. communication This unforgettable journey takes readers into the wilds of Africa where naturalists do their difficult work in a troubled land **Elephants & Kings** Thomas R. Trautmann, 2015-08-03 Because of their enormous size elephants have long been irresistible for kings as symbols of their eminence In early civilizations such as Egypt Mesopotamia the Indus Civilization and China kings used elephants for royal sacrifice spectacular hunts public display of live captives or the conspicuous consumption of ivory all of them tending toward the elephant's extinction The kings of India however as Thomas R Trautmann shows in this study found a use for elephants that actually helped preserve their habitat and numbers in the wild war Trautmann traces the history of the war elephant in India and the spread of the institution to the west where elephants took part in some of the greatest wars of antiquity and Southeast Asia but not China significantly a history that spans 3 000 years and a considerable part of the globe from Spain to Java He shows that because elephants eat such massive quantities of food it was uneconomic to raise them from birth Rather in a unique form of domestication Indian kings captured wild adults and trained them one by one through millennia Kings were thus compelled to protect wild elephants from hunters and elephant forests from being cut down By taking a wide angle view of human elephant relations Trautmann throws into relief the structure of India's environmental history and the reasons for the persistence of wild elephants in its forests
