Biddle, 2014-05-05 The Unacknowledged Disaster concerns two huge and closely tied but widely ignored problems that plague the U.S. On the one hand America tolerates a massive amount of youth poverty while on the other youth poverty is the major social factor generating failure in the country's education More than one fifth of American youths are now impoverished a poverty rate far worse than those for American adults or the elderly and more than twice the size of youth poverty rates in other advanced nations and poverty generates most educational failure effects in the U.S. often assigned to such factors as student race broken homes and the supposed failures of teachers and school administrators These problems have been studied extensively and the tragedies they create are well known to scholars but they are often misrepresented misunderstood or unacknowledged by far right advocates media figures policy makers and

those concerned with serious problems that now beset the United States This book reviews evidence concerning these problems and their dire effects discusses ineffective or tragic outcomes that result when these problems are ignored assesses why these problems are so often unacknowledged in the United States and sets forth clear evidence based policies that can reduce the disastrous scope of American youth poverty and its destructive effects in education **Cuban Communism** Irving Louis Horowitz, Forty six essays presented by avowedly anti Castro editors and gathered mostly from US journals and books of the past couple decades are organized into five sections devoted to the history economy society military and polity of Cuba Some of the specific topics treated include Cuban and Soviet relations decentralization local government and participation economic policies and strategies for the 1990s the politics of sports political and military relations and forecasting institutional changes after Castro In addition two appendices present a chronology of the Cuban revolution from 1959 to 1998 and biographical essays on 19 revolutionary leaders Annotation copyrighted by Book News Inc Portland OR

You Don't Have to Die to Be Free Linda L,2003 You Don t Have to Die to Be Free is an insightfully honest biographical account of the impact of an alcoholic s relapse Told from the point of view of the wife of an alcoholic this is the story of how she manages to maintain her sanity and come out ahead **Finding God** Bill Glenn,2022-04-19 Ideas matter What you believe affects everything you do It influences how you think and talk what you value and want who you view as a role model where you spend your time how you treat others It determines who you become in life and where you live after death I was raised by a Christian mother and regularly attended worship services as a child I was baptized when I was 10 But during my secular college experience I was confronted with ideas that challenged my religious beliefs Some of my intelligent and educated professors said materialistic chance had displaced God as the creator of all things My mom loved me and I didn t think she would intentionally lie to me but she had never even been to college As much as I loved her nobody wants to be duped I wanted and needed to know the truth So I spent some agonizing years weighing the evidence concerning God and Christianity until finally a number of simple but far reaching revelations became obvious to me I eventually arrived at the unwavering conclusion that those accomplished but misguided professors were simply wrong And I came to recognize evolution as a pseudoscience long on bluster but short on facts Finding God begins by giving you a solid foundation for belief in an amazing loving eternal God And you don t have to take my word for it Some of the world s greatest minds past and present provide strong support for that belief Then it adds several firm principles to strengthen your faith Whether you look far out into the cosmos or peer deep inside the cell God is there Read and believe **Live Life Right Here Right Now** Carole Lewis,2012-07-02 Many people spend a majority of their time living either in the past or in the future Those who live in the past are often filled with regret replaying again and again decisions that might have led to a better today Those who live in the future often forget that it s the decisions they make today that will shape tomorrow In this inspirational title Carole Lewis challenges readers to treasure today and make it the very best day of their lives Live Life Right Here Right Now shows

readers how to become the person they've always wanted to be by living into the joys and trials that today brings along Carole's message is simple We cannot change the past but making today count will have a profound effect on our future

Control Theories of Crime and Delinquency Chester L. Britt, Michael R. Gottfredson, 2017-11-30 For the past twenty to thirty years control theories of crime have been at the center of theoretical development in criminology Key to the control theory perspective is the notion that crime is an inherently individual act and its explanation requires that we focus on the characteristics of individuals who commit crimes Consequently control theory focuses on such issues as self control and social control The contributions to this volume explicate and extend the application of control theory It is divided into three general areas Part 1 focuses on key assumptions and components of control theories Contributors discuss the notion of learning or socialization in the context of control theory and the effects that families peers and the criminal justice system have on self control social ties and criminal behavior Part 2 applies control theory to areas typically assumed to be out of the domain of self control theory and social control theory such as gender differences in crime domestic violence and group crime Considering control theory's emphasis on explaining individual criminal acts these chapters suggest an interesting area of development by highlighting the possibility that differences in crime across or within groups may begin with individual characteristics and then making inferences about groups and group processes Part 3 approaches the explanation of crime cross nationally and at the macro level Although the authors take different approaches they all illustrate that a theory of crime does not require culture specific elements in order to be a valid cross cultural explanation Contributors to this volume include Robert Agnew Todd Armstrong Leana Allen Bouffard Augustine Brannigan Chester Britt Barbara Costello Maja Dekovic Matt DeLisi Michael Gottfredson Henriette Haas Kelly H Hardwick Travis Hirschi Marianne Junger Martin Killias Helen Mederer Kevin Thompson and Alexander Vazsonyi
